## MORGAN WARREN

---

Memoirs of the Life and Services of Daniel Drake, M.D. Legare Street Press

Excerpt from Drake the Sea-King of Devon Drake was one of those rough, blunt, sturdy, fear less men who seem peculiarly formed to do deeds of heroism, to appear most nobly in scenes of danger, and to achieve the most difficult feats of daring and action, whether in warlike contention or in Conflict with formidable elements of nature; and his career, stirring and adventurous, bold and nu resting from early youth to age, in spite of the pira cies which were excused by his own time, though they seem wicked in ours, is full of lessons of manly qualities, and of great and often admirable deeds. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.

Xlibris Corporation

"He is known today, as he was then, only as Dave. His jugs and storage jars were everyday items, but because of their beauty and sometimes massive size they are now highly sought after by collectors. Born about 1801, Dave was taught to turn pots in Edgefield, South Carolina, the center of alkaline-glazed pottery production. He also learned to read and write, in spite of South

Carolina's long-standing fear of slave literacy. Even when the state made it a crime to teach a slave to write, Dave signed his pots and inscribed many of them with poems. Though his verses spoke simply of his daily experience, they were nevertheless powerful statements. He countered the slavery system not by writing words of protest but by daring to write at all. We know of no other slave artist who put his name on his work." "When Leonard Todd discovered that his family had owned Dave, he moved from Manhattan to Edgefield, where his ancestors had established the first potteries in the area. Todd studied each of Dave's poems for biographical clues, which he pieced together with local records and family letters to create this moving and dramatic chronicle of Dave's life - a story of creative triumph in the midst of oppression. Many of Dave's astounding jars are found now in America's finest museums, including the Smithsonian Institution, the Charleston Museum, the Philadelphia Museum of Art, and the Museum of Fine Arts in Boston."--BOOK JACKET.

[Pioneer Life in Kentucky](#) Potomac Books Incorporated  
Excerpt from Genealogical and Biographical Account of the Family of Drake in America: With Some Notices of the Antiquities Connected With the Early Times of Persons of the Name in England To look through a space of two hundred years, where records are perfect and legible, in a similar work to this, would be no ordinary undertaking; but to look for records where there would often none be found, or, when found, would only convey the knowledge that nothing was to be known from them, is what every one must be prepared to expect, who enlists in such a service. But there is nearly as much satisfaction, sometimes, in knowing that nothing can be known, as there is in discovering the object of pursuit. [Genealogical and Biographical Account of the Family of Drake in America. With Some Notices of the Antiquities Connected With the Early Times of Persons of the Name in England](#) Forgotten Books

Sir Francis Drake: pirate, explorer and Protestant zealot, a man princely in his bearing, heroic if sometimes foolhardy in his

enterprise, a genius at once awe-inspiring and riddled with faults. He is the archetypal Elizabethan sea-dog, and Stephen Coote's brilliant new book rescues him from the dusty pages of history to breathe new life into one of the great maritime adventure stories. Focusing on the episodes that made Drake's reputation -- and exploring not just the nature of that reputation but how it also, for better or worse, came to epitomise a sense of nationhood -- Stephen Coote re-creates all the excitement and terror of the raids on Spanish Caribbean ports during Drake's privateering days; the extraordinary feat of the circumnavigation aboard the 'Golden Hind'; and Drake's role in the famous defeat of the Spanish Armada in 1588. man who embodied all the ebullient courage and personal shortcomings of the great age of Elizabethan expansion. Was Drake just a rabid anti-papist, a state-sponsored terrorist and slaver? Or was he the embodiment of English sang-froid, an empire-builder and hero? This gripping and entertaining biography gives us a picture of the man altogether richer and more interesting than we could have imagined.

The History of the Drake Family and the Times They Lived Alpha Edition

\*Includes a contemporary account of Drake's voyage around the world. \*Includes pictures depicting Drake and important people, places, and events in his life. \*Discusses the legends and controversies surrounding Drake's piracy and adventures.

\*Includes a Bibliography for further reading. "There must be a beginning of any great matter, but the continuing unto the end until it be thoroughly finished yields the true glory." - Sir Francis Drake The life of Sir Francis Drake, or, more precisely, the tale of

it, is one of those prime examples that history is written by the winners. Drake was the most famous sailor of the Elizabethan Era, and he has long been considered a hero by the English. His successes against the Spanish as a captain and a privateer were legendary, and Drake was celebrated for fighting the Queen's enemies, sinking their ships, and capturing the treasure that would otherwise be used to finance attacks on England. Drake vigorously pursued every mission given to him by Elizabeth I, and brought all his skill, experience and training to bear against her enemies. He was recognized at court for his valor, praised in story and song, and remembered for the kind of personality and esprit de corps that the English have long desired and celebrated in their military heroes. While that might have summarized Sir Francis Drake's life from an English perspective, that's not at all how the Spanish remember "El Draque" ("The Dragon"), the 16th century's most notorious pirate. Referred to as "the main cause of wars" in one 1592 letter to the Spanish King Phillip II, Drake harassed Spanish ships in several oceans and was so despised by the Spanish that Phillip II placed the equivalent of a 7 million dollar bounty on his head. This should come as no surprise, given that Spanish accounts tell of a captain who attacked and boarded Spanish merchant ships to steal their treasure and made off with it in the kind of haughty and dramatic ways that have become standard fare in pirate lore. El Draque also had no qualms about killing those who refused his requests. Which version of Drake's life is more accurate? As usual, the reality falls somewhere inbetween. For most of his career, Drake was unquestionably a privateer and not a member of any organized Navy, thus answering to nobody except the Queen, and had he failed, he

might have been shackled in irons and imprisoned. It was due to the fact he was successful that he was instead given a seat of honor at Elizabeth's own table in her own court. While privateers were used by all European powers during times of war, Drake also happened to target enemy ships when no state of war existed, thus clearly veering into the realm of piracy. Naturally, Elizabeth's enemies claimed that he was engaging in piracy with her blessing, which was probably true at times and untrue at others. While contemporary accounts reveal two very different sides of the same man, Drake's legacy has since been shrouded in legend, with tales concerning buried treasure, encounters with Native Americans, and his famous circumnavigation of the globe. British Legends: The Life and Legacy of Sir Francis Drake looks at the life, career, legends, and controversies of the Elizabethan Era's most famous captain. Along with pictures of important people, places, and events in his life, you will learn about Sir Francis Drake like you never have before, in no time at all.

#### Far From Over Harvill Secker

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the

same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

#### **Drakes Book of Indians** ECW Press

This is the first volume of a unique biography of Sir Francis Drake in four volumes. Unique because the author, a Sherlock Holmes of the sea, has retraced all Drake's voyages during the last 20 years. The pictorial topographical text is laced with research and techniques, ground-breaking discoveries and adventures in reaching all the Drake places. The book reveals the ultimate geographical Drake knowledge, written on location. It recounts the slave-trading with Hawkins off the west coast of Africa, stealing the gold and silver from the Spaniards in Panama and helping the Earl of Essex in Ireland.

#### Daniel Drake and His Followers A&C Black

This history takes factual information provided by encyclopedias and other historical documents. Other reference material includes birth certificates, death certificates and census data which support the factual basis of this history. The war records and military history of individuals and their family members were also used in the determination of their contributions to the society in which they lived. Other research material included Wikipedia, Ancestry.com, wikitree.com, genealogy.com family bibles and my many brothers and sisters. Two directions of ancestry history were investigated to gain the most effective approach to the design of this history. First the genealogy of Amye Grenville was traced to her origin of Charlemagne. Her marriage to John Drake VI allowed further investigation into his ancestry. Both were thoroughly pursued with vigor to determine their origins over the last 1300 years. The investigation provided by Earl Drake

combined with my efforts has provided this history for your enjoyment.

#### *In Drake's Wake* Palala Press

Excerpt from Daniel Drake and His Followers: Historical and Biographical Sketches For valuable assistance in obtaining material, I am indebted to Mr. Albert H. Morrill, of Cincinnati, a great-grandson of Daniel Drake, and to many members of the profession, particularly Dr. Frederick P. Henry, Honorary Librarian of the College of Physicians (Philadelphia) Dr. A. G. Drury, Dr. P. S. Conner, Dr. Wm. H. Taylor, Dr. Edwin Landy, Dr. H. W. Felter, Dr. S. R. Geiser, Dr. R. C. Stockton Reed, Dr. E. S. McKee, Dr. H. Dieckmeyer and Dr. Thos. C. Minor, of Cincinnati.

Acknowledgments are due Mr. P. Alfred Marchand, of the Cincinnati Hospital Library, and Misses Laura Smith and K. W. Sherwood, of the Cincinnati Public Library, for their courtesy and never-failing readiness to help in research work; also the Hon. M. P. Wilson for valuable aid in securing material. I regret my inability to mention all those who are entitled to some expression of my gratitude in return for assistance rendered and encouragement given. That some attempts were made to impede the progress of the work, was not altogether unexpected. Some of the persons, things, events and situations of the recent past have not sufficiently receded into the mist of the distant past to have entirely lost the glow of life or to have assumed the placid garb of historical disinterestedness. Far from Over Wentworth Press

Richard Drake has skillfully woven together the various strands of

the Appalachian experience into a sweeping whole. Touching upon folk traditions, health care, the environment, higher education, the role of blacks and women, and much more, Drake offers a compelling social history of a unique American region. The Appalachian region, extending from Alabama in the South up to the Allegheny highlands of Pennsylvania, has historically been characterized by its largely rural populations, rich natural resources that have fueled industry in other parts of the country, and the strong and wild, undeveloped land. The rugged geography of the region allowed Native American societies, especially the Cherokee, to flourish. Early white settlers tended to favor a self-sufficient approach to farming, contrary to the land grabbing and plantation building going on elsewhere in the South. The growth of a market economy and competition from other agricultural areas of the country sparked an economic decline of the region's rural population at least as early as 1830. The Civil War and the sometimes hostile legislation of Reconstruction made life even more difficult for rural Appalachians. Recent history of the region is marked by the corporate exploitation of resources. Regional oil, gas, and coal had attracted some industry even before the Civil War, but the postwar years saw an immense expansion of American industry, nearly all of which relied heavily on Appalachian fossil fuels, particularly coal. What was initially a boon to the region eventually brought financial disaster to many mountain people as unsafe working conditions and strip mining ravaged the land and its inhabitants. A History of Appalachia also examines pockets of urbanization in Appalachia. Chemical, textile, and other industries have encouraged the development of urban areas. At the same

time, radio, television, and the internet provide residents direct links to cultures from all over the world. The author looks at the process of urbanization as it belies commonly held notions about the region's rural character.

*Memoirs of the life and services of Daniel Drake, M.D.* Forgotten Books

'An exquisite portrait' MOJO 'A riveting account of the golden-boy genius' EVENING STANDARD Nick Drake was barely twenty-six years old when he died in 1974, but in his short lifetime he recorded three albums that are now recognised as classics: Five Leaves Left, Bryter Later and Pink Moon. Several decades after his death, he has amassed a huge following; his haunting songs cast a pervasive influence over the contemporary music scene, and many of today's most successful songwriters cite him as a major inspiration. In this unrivalled biography, Patrick Humphries offers real insight into the man behind the legend, through extensive interviews with family, friends and the musicians who knew and worked alongside him. This portrait of Nick Drake is an essential and uniquely personal account of his life and career. 'A rich, moving account of a troubled spirit, a mature biography of a briefly flickering talent unable to come to terms with the adult world ... The writing is zestful and intelligent and the text illuminating ... A literary memorial fit to stand alongside the songs' UNCUT
