The classic, New York Times-bestselling book on the psychology of racism that shows us how to talk about race in America. Walk into any racially mixed high school and you will see Black, White, and Latino youth clustered in their own groups. Is this self-segregation a problem to address or a coping strategy? How can we get past our reluctance to discuss racial issues? Beverly Daniel Tatum, a renowned authority on the psychology of racism, argues that straight talk about our racial identities is essential if we are serious about communicating across racial and ethnic divides and pursuing antiracism. These topics have only become more urgent as the national conversation about race is increasingly acrimonious. This fully revised edition is essential reading for anyone seeking to understand dynamics of race and racial inequality in America.

model of constraints approach, combined with an unprecedented collection of video clips marking motor development milestones, facilitates an unmatched learning experience for the study of motor development across the life span. The seventh edition expands the tradition of making the student's experience with motor development an interactive one. New insights into motor competence help explain the relationship between skill development and physical fitness. It shows how the four components of physical fitness—cardiorespiratory endurance, strength, flexibility, and body composition—interact to affect a person's movements over the life span, and describes how relevant social, cultural, psychosocial, and cognitive influences can affect a person's movements. This edition comes with 148 illustrations, 60 photos, and 25 tables—all in full color—to help explain concepts and to make the text more engaging for students. It also retains helpful learning aids including chapter objectives, a running glossary, key points, sidebars, and application questions throughout each chapter. *Life Span Motor Development, Seventh Edition*, embraces an interactive and practical approach to illustrate the most recent research in motor development. Hooked on You HarperCollins

On Easter Sunday 2007 the Los Angeles Times reported that two billion people worldwide - nearly a third of the planet's population - were united by one powerful common denominator: The Lord's Prayer. The Lord's Prayer is now, as it was when Jesus taught it to his disciples, the incorruptible formula for personal and global transformation. Kathleen McGowan tells how she came to discover the prayer's transformative power by learning the secret of the Rose with Six Petals-a mosaic window in the Cathedral of Notre Dame. Each petal represents a different teaching found within The Lord's Prayer and is the map to discovering the real secret of how to have the life you truly desire. The book is divided into seven chapters, each representing a primary teaching related to lines in the prayer: faith, surrender, service, abundance, forgiveness, obstacles, and love. Within each chapter are a series of questions designed to make you dig deep into your heart and soul. Relating her story and using the rose formula, McGowan offers readers a unique blueprint to transform their own lives through the power of The Lord's Prayer.
