The Stratocaster Chronicles Alfred Music Publishing

(Book). PRS guitars today appeal to a growing number of musicians, from Carlos Santana to Al Di Meola, from Zach Myers to Mark Tremonti. This book examines every part of PRS history, with an in-depth story, beautiful photographs, and detailed collector's info. Paul Reed Smith set up his first PRS factory in 1985 in Maryland and has devised guitars from the regular Custom and McCarty models, through the outrageously decorated Dragon specials and the controversial Singlecut, and on to recent achievements such as the Mira, Dave Grissom DGT, JA-15, and the S2 models. Dozens of guitars are pictured inside along with players, ads, catalogs, and rare memorabilia. A detailed reference section helps musicians and collectors identify and date PRS instruments, making this revised and updated edition of *The PRS Electric Guitar Book* a must for all guitar fans.

Photocatalysis, reactions carried out in the presence of a semiconductor and light, is rapidly becoming one of the most active areas of chemical research, with applications in areas such as electrochemistry, medicine, and environmental chemistry, *Photocatalysis: Principles and Applications* stresses the development of various types of photocatalytic semiconductors, including binary, ternary, quaternary, and composite, and their modifications by metallization, sensitization, and doping to enhance their photocatalytic activities. In addition to describing the principles and mechanisms of photocatalysis, it also discusses other possible applications of photocatalysis such as use as antifouling agents, controlling air pollution by degrading contaminants present in the environment, self-cleaning of glasses and tiles in the presence of light/artificial light, green composites, wastewater treatment, hydrogen generation, and inactivation of microorganisms. The book also describes medical applications and summarizes efforts in the field of photosplitting of

water as a newer energy source and photoreduction of carbon dioxide for providing synthetic fuels and also a step towards mimicking photosynthesis. Introduces the basic principle of photocatalysis. Provides an overview of the types of semiconductors, their immobilization, and modifications to make them more active. An Illustrated History Rowman & Littlefield

This book is the fully documented story of Marilyn Monroe's death - a heart-stopping account of the events that led to the circumstances of 4th August 1962. To this day the Los Angeles police and the District Attorney's office have perpetuated a cover-up that was generated over 30 years ago. For the first time in 80 books and acres of newsprint, the complete story of her demise is revealed. It includes the reasons why so many joined the conspiracy of silence. Marilyn's universe is where the glitzy world of Hollywood, the sinister one of the Mafia and the secret one of Washington DC meet. Wolfe uses newly released FBI files and the information of insiders who have broken their silence to give us the resolution of one of this century's most enduring mysteries. From the opening description of the lifeless body to the moment-by-moment account of her final days and hours, **THE ASSASSINATION OF MARILYN MONROE** explodes every myth concerning her remarkable life and

tragic death - as is attested by the generous acclaim of her rival biographers (see 'Reviews').

"Everybody wants to be Cary Grant. Even I want to be Cary Grant." —Cary Grant He is Hollywood's most fascinating and timeless star. Although he came to personify the debonair American, Cary Grant was born Archibald Leach on January 18, 1904, in the seaport village of Bristol, England. Combining the captivating beauty of silent-screen legend Rudolph Valentino with the masculine irresistibility of Clark Gable, Grant emerged as Hollywood's quintessential leading man. Today, "the man from dream city," as critic Pauline Kael once described him, remains forever young, an icon of quick wit, romantic charm, and urbane sophistication, the epitome of male physical perfection. Yet beneath this idealized movie image was a conflicted man struggling to balance fame with a desire for an intensely private life separate from the "Cary Grant" persona celebrated by directors and movie studios. Exploring Grant's troubled childhood, ambiguous sexuality, and lifelong insecurities as well as the magical amalgam of characteristics that allowed him to remain Hollywood's favorite romantic lead for more than thirty-five years, Cary Grant is the definitive examination of every aspect of Grant's professional and private life, and the first to reveal the man behind the movie star. Working with the most talented directors of his time, Grant starred in an astonishing seventy-two films, ranging from his groundbreaking comedic roles in such classics as *Bringing Up Baby* (Howard Hawks) and *The Philadelphia Story* (George Cukor) to the darker, unforgettable characters of Alfred Hitchcock's *Suspicion* and *Notorious*, culminating in the consummate sophisticates of *An Affair to Remember* (Leo McCarey), *North by Northwest* (Hitchcock), and *Charade* (Stanley Donen). The camera loved Grant, and his magnetism helped illuminate his leading ladies, some of the most glamorous women ever to grace the silver screen: Mae West, Irene Dunne, Katharine Hepburn, Ingrid Bergman, Grace Kelly, and Sophia Loren, among others. Yet, because of his pioneering role as an independent player, Grant was repeatedly denied the Oscar he coveted—a snub from the Academy that would last until 1970, when he graciously accepted a special lifetime achievement award. Grant's sparkling image on-screen hid a tumultuous personal life that he tried desperately to keep out of the public eye, including his controversial eleven-year relationship with Randolph Scott, five marriages, and numerous affairs. Rigorously researched and elegantly written, *Cary Grant: A Biography* is a complete, nuanced portrait of the greatest Hollywood star in cinema history.

50 Years of the Gibson Les Paul Routledge

"wherever I have found myself has seemed the proper place for me to be. I have never been an exile." When Ellis Douek was nine years old, his mother insisted that he take up embroidery -in case he decided to be a surgeon when he grew up. Of course she was right, as she always was, for he became Consultant ENT Surgeon at Guy's Hospital in London. The Douek parents had the unerring quality of belonging in whichever country they lived and yet they never stayed long in one place - Egypt, the Sudan, Columbia and, finally, England, moving either out of political necessity or out of impetuosity. In 1940 they took the extraordinary decision, for a Jewish family, to cross the Atlantic from Columbia to Italy, on their way back to Egypt. Ellis Douek describes this work as strands of memory. These strands weave between remembrance of the dawn across the Nile and the silence of the feloukas, summers in Alexandria by the beach, and the seeming security and hedonism of it all - between Nasser and the Suez War which disrupted their lives and uprooted them and Bradford in

Yorkshire in the 1950s where Ellis finished his schooling, an austere place after the prosperity and warmth of their life in Egypt. Ellis, his sister Claudia who would become Claudia Roden the cookery writer, and their younger brother Zaki all spent time together in Paris, largely unsupervised by adults. Ellis began his medical training there and tried to live the life of a left-wing intellectual, which was perhaps what led his mother to arrange for him to begin medicine all over again, this time in London, during a time of smog, digs and landladies, fish and chips, and the start of the Campaign for Nuclear Disarmament. It was also the time of conscription and Ellis became an army medic with the Black Watch in Scotland, during the final days of National Service. Marvelling at the way his life turned out he says, 'wherever I have found myself has seemed the proper place for me to be. I have never been an exile.'

One of our most acclaimed historians explores the decorated military service of one of America's most intriguing politicians—the leading Democratic presidential candidate for 2004—and its profound effects on his career and life In *Tour of Duty*, Brinkley explores Senator John Kerry's career and deftly deals with such explosive issues as U.S. atrocities in Vietnam and the bombing of Cambodia. Using new information acquired from the recently released Nixon tapes, Brinkley reveals how White House aides Charles Colson and H.R. Haldeman tried to discredit Kerry. Refusing to be intimidated, Kerry started running for public office, eventually becoming a U.S. Senator from Massachusetts. Covering more than four decades, this is the first full-scale definitive account of Kerry's journey from war to peace. In writing this riveting, action-packed narrative, Brinkley has drawn on extensive interviews with virtually everyone who knew Kerry well in Vietnam. Kerry also relegated to Brinkley his letters home from Vietnam and his voluminous "war notes" journals, notebooks, and personal reminiscences written during and shortly after the war. This material was provided without restriction, to be used at Brinkley's discretion, and has never before been published.

A real-life Talented Mr. Ripley, the unbelievable thirty-year run of a shape-shifting con man. The story of Clark Rockefeller is a stranger-than-fiction twist on the classic American success story of the self-made man—because Clark Rockefeller was totally made up. The career con man who convincingly passed himself off as Rockefeller was born in a small village in Germany. At seventeen, obsessed with getting to America, he flew into the country on dubious student visa documents and his journey of deception began. Over the next thirty years, boldly assuming a series of false identities, he moved up the social ladder through exclusive enclaves on both coasts—culminating in a stunning twelve-year marriage to a rising star businesswoman with a Harvard MBA who believed she'd wed a Rockefeller. The imposter charmed his way into exclusive clubs and financial institutions—working on Wall Street, showing off an extraordinary art collection—until his marriage ended and he was arrested for kidnapping his daughter, which exposed his past of astounding deceptions as well as a connection to the bizarre disappearance of a California couple in the mid-1980s. The story of *The Man in the Rockefeller Suit* is a probing and cinematic exploration of an audacious imposter—and a man determined to live the American dream by any means necessary.
