This book makes available to scholars the unpublished proto-scholastic "Commentary on the Psalms," composed by one of the outstanding figures of the early twelfth century, Gilbert of Poitiers (Gilbert Porreta). The commentary had its origins in the atmosphere of experimentation which characterized the schools of Laon, Chartres and Paris in the first decades of the century. Its unique "mise en page," its methodology and its connection to other texts - especially glossed classical texts, the "Glossa ordinaria" and the writings of Peter Lombard - are explored. Gilbert's "Commentary" is a text critical for the understanding of the development of the discipline of theology in the twelfth century schools.

Wind Talk for Woodwinds Princeton Univ Department of Art & Peggy Gilbert, born Margaret Fern Knechtges (1905-2007), arrived into a musical family and grew up hearing music in her house every day. Her father was a violinist who played in theater pit bands in Sioux City, Iowa, and her mother sang for touring opera companies whenever they appeared in town. Gilbert started taking piano lessons at age eight and soon after accompanied her father at stage shows. But it wasn't until after she turned eighteen that Gilbert took up the saxophone. At the

time, there weren't many girls playing horns, but she immediately took a liking to the free and loose feeling the saxophone gave her. In the early 1920s, girl bands had become fairly common and the notion that one could make such a living intrigued the young musician. Gilbert soon organized The Melody Makers, the first all-girl band in Sioux City, where her group found success playing twice a day at the Martin Hotel. Before long, the band's music was heard nightly on KSCJ, a fledgling radio station in 1927, making Gilbert a broadcast pioneer. A professional tenor saxophonist for more than eighty years, Gilbert inspired several generations of musicians and continued to perform professionally into her nineties. Her last band, Peggy Gilbert and the Dixie Belles, played hot Dixieland jazz on national television, at jazz festivals, and in concerts from 1974 until 1998. Their appearances on *The Tonight Show* Starring Johnny Carson, *The Golden Girls*, *Ellen*, and *Simon & Simon*, among other programs, made them famous coast-to-coast, even as octogenarians. In *Peggy Gilbert & Her All-Girl Band*, Jeannie Gayle Pool profiles the fascinating life of this multitalented saxophone player, arranger, bandleader, and advocate for women instrumental musicians. Based on oral history interviews and Gilbert's collection of photographs, newspaper clippings, and other memorabilia, this book includes materials not previously available on all-women bands from the 1920s, 1930s, and 1940s. This volume also includes a chronology, bibliography, filmography, and a list of all of Peggy Gilbert's columns for *Overture*. Thoroughly documented, this book highlights the contributions of Gilbert and other notable West Coast female jazz musicians. It should have a major impact on the research of American jazz, and of female jazz musicians in particular. Book jacket.

To play the flute with a clear and convincing sound depends on the understanding of the physical concepts required to make the instrument sound without using undue force and applying just the right amount of physical help where needed. Edmund Raas has explored and taught these fine-points for over 60 years. Born in Switzerland, he has been influenced by the teachings of Emil Niosi (pupil of the great Georges Barrère), Hugo Haldemann, Jean-Pierre Rampal and Aurèle Nicolet. Besides teaching, he had the opportunity to play solo concerti and act in many chamber music groups including Renaissance and Baroque music on period

instruments. From 1977 to 2005 he also acted as first flutist in the Municipal Symphony Orchestra of São Paulo, Brazil. Since his retirement from this orchestra he is pursuing a career as composer.

"It was estimated in 1829 that one man in ten in London played the flute. Players, teachers, composers and makers competed for

their share of the vast market for anything to do with the flute. Much of the history of the flute in the nineteenth century is based on the works in this collection, which includes descriptions of newly-invented flutes, arguments about their relative merits and some extraordinary battles between rival makers and players."-- Publisher's description.

The Flute Book Oxford University Press

Many people learn the flute. Most give it up as an adult because they cannot easily find anyone to play with, and a lack of practice makes it less enjoyable to play. This book is aimed at helping such people. The first chapter diagnoses why most amateur flautists give up playing, and sets out a number of remedies. The most important is finding other musicians with whom to play, whether in an orchestra, or more importantly, in chamber groups. The author explores how you might set about finding players for chamber music, and how you might set about finding the music itself. The second chapter gives guidance about the music for all the principal combinations of chamber groups which involve the

flute. The most significant ones are flute and piano, two to four flutes, trio sonatas with another melody instrument and piano, and the wind quartet. The author describes the principal works for each of these groups, which are fun and manageable for amateurs, rather than listing everything that is available. Listed are the significant works that are available for free on the internet. The third chapter suggests a short practice regime to counteract the deficiencies in the playing of most amateur flautists, which are poor tone and tuning. Practicing half an hour a few times a week should do the trick.
