What is the difference between having empathy and being an empath? "Having empathy means our heart goes out to another person in joy or pain," says Dr. Judith Orloff "But for empaths it goes much farther We actually feel others' emotions, energy, and physical symptoms in our own bodies, without the usual defenses that most people have." With The Empath's Survival Guide, Dr. Orloff offers an invaluable resource to help sensitive people develop healthy coping

mechanisms in our high-stimulus world—while fully embracing the empath's gifts of intuition, creativity, and spiritual connection. In this practical and empowering book for empaths and their loved ones, Dr. Orloff begins with self-assessment exercises to help you understand your empathic nature, then offers potent strategies for protecting yourself from overwhelm and replenishing your vital energy For any sensitive person who's been told to "grow a thick skin," here is your lifelong guide for staying fully open while building resilience, exploring your gifts of deep perception, raising empathic children, and feeling welcomed

and valued by a world that desperately needs what you have to offer.

Although acceptance of difference is on the rise in America, it's the rare gay or lesbian person who has not been demeaned because of his or her sexual orientation, and this experience usually starts at home, among family members. Whether they are excluded from family love and approval, expected to accept second-class status for life, ignored by mainstream arts and entertainment, or abandoned when intervention would make all the difference, gay people are routinely subjected to forms of psychological and physical abuse unknown to many straight Americans. "Familial homophobia," as prizewinning writer and professor Sarah Schulman calls it, is a phenomenon that until now has not had a name but that is very much a part of life for the LGBT community. In the same way that Susan Brownmiller's *Against Our Will* transformed our understanding of rape by moving the stigma from the victim to the perpetrator, Schulman's *Ties That Bind* calls on us to recognize familial homophobia. She invites us to understand

it not as a personal problem but a widespread cultural crisis. She challenges us to take up our responsibilities to intervene without violating families, community, and the state. With devastating examples, Schulman clarifies how abusive treatment of homosexuals at home enables abusive treatment of homosexuals in other relationships as well as in society at large. Ambitious, original, and deeply important, Schulman's book draws on her own experiences, her research, and her activism to probe this complex issue—still very much with us at the start of the twenty-first century—and to articulate a vision for a more accepting world.

John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work

on public education by one of the most important scholars of the century.

Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.

With more than thirty-five years of experience in psychotherapy, Dr. Halpern enables the adult child to understand his or her parent and foster a positive, healthy adult relationship. In all respects, you appear to be well-adjusted, reasonably successful adult, but in the presence of your parents, you feel vulnerable,

dependent, guilty, insecure—childlike. They manipulate you, smother you, demand your attention or elicit your resentment. In clear, nonclinical terms, renowned psychotherapist Dr. Howard Halpern shows you how to break these familiar family routines so that you can build healthy, rewarding parent-child relationships. He teaches you, for example, how to handle martyred mothers, despotic fathers, and moralistic, unloving, or seductive parents. He also addresses the sensitive topics of how to deal with aging, divorced, or dying parents. Resolving conflicts with your parents will enable you, finally, to cut loose—to start being yourself rather than your parent's child. Without guilt, revenge, or fear as your motives, you will be able to make the choices in love, work, and values that do justice to who you are. With more than thirty-five years of experience in psychotherapy, Dr. Halpern enables the adult child to understand his or her parent and foster a positive, healthy adult relationship.

Breaking Soul Ties Paramount Pictures Lacing cultural criticism, Victorian literature, and storytelling together, "TOO

MUCH spills over: with intellect, with sparkling prose, and with the brainy arguments of Vorona Cote, who posits that women are all, in some way or another, still susceptible to being called too much." (Esmé Weijun Wang) A weeping woman is a monster. So too is a fat woman, a horny woman, a woman shrieking with laughter. Women who are one or more of these things have heard, or perhaps simply intuited, that we are repugnantly excessive, that we have taken illicit liberties to feel or fuck or eat with abandon. After bellowing like a barn animal in orgasm, hoovering a plate of mashed potatoes, or spraying out spit in the heat of expostulation, we've flinched—ugh, that was so gross. I am so gross. On rare occasions, we might revel in our excess--belting out anthems with our friends over karaoke, perhaps--but in the company of less sympathetic souls, our uncertainty always returns. A woman who is Too Much is a woman who reacts to the world with ardent intensity is a woman familiar to lashes of shame and disapproval, from within as well as without. Written in the tradition of *Shrill*, *Dead Girls*, *Sex Object* and other frank

books about the female gaze, TOO MUCH encourages women to reconsider the beauty of their excesses—emotional, physical, and spiritual. Rachel Vorona Cote braids cultural criticism, theory, and storytelling together in her exploration of how culture grinds away our bodies, souls, and sexualities, forcing us into smaller lives than we desire. An erstwhile Victorian scholar, she sees many parallels between that era's fixation on women's "hysterical" behavior and our modern policing of the same; in the space of her writing, you're as likely to encounter Jane Eyre and Lizzie Bennet as you are Britney Spears and Lana Del Rey. This book will tell the story of how women, from then and now, have learned to draw power from their reservoirs of feeling, all that makes us "Too Much."

[Life Strategies for Sensitive People](#) Little, Brown Books for Young Readers

This stunning fantasy inspired by Chinese folklore is a companion novel to *Starry River of the Sky* and the New York Times bestselling and National Book Award finalist *When the Sea Turned to Silver* In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut

with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved *Year of the Dog* and *Year of the Rat* returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, *Where the Mountain Meets the Moon* is a timeless story reminiscent of *The Wizard of Oz* and Kelly Barnhill's *The Girl Who Drank the Moon*. Her beautiful illustrations, printed in full-color, accompany the text throughout. Once again, she has created a charming, engaging book for young readers.

The essays in *Relative Values* draw on new work in anthropology, science studies, gender theory, critical race studies, and

postmodernism to offer a radical revisioning of kinship and kinship theory. Through a combination of vivid case studies and trenchant theoretical essays, the contributors—a group of internationally recognized scholars—examine both the history of kinship theory and its future, at once raising questions that have long occupied a central place within the discipline of anthropology and moving beyond them. Ideas about kinship are vital not only to understanding but also to forming many of the practices and innovations of contemporary society. How do the cultural logics of contemporary biopolitics, commodification, and globalization intersect with kinship practices and theories? In what ways do kinship analogies inform scientific and clinical practices; and what happens to kinship when it is created in such unfamiliar sites as biogenetic labs, new reproductive technology clinics, and the computers of artificial life scientists? How does kinship constitute—and get constituted by—the relations of power that draw lines of hierarchy and equality, exclusion and inclusion, ambivalence and violence? The

contributors assess the implications for kinship of such phenomena as blood transfusions, adoption across national borders, genetic support groups, photography, and the new reproductive technologies while ranging from rural China to mid-century Africa to contemporary Norway and the United States. Addressing these and other timely issues, *Relative Values* injects new life into one of anthropology's most important disciplinary traditions. Posing these and other timely questions, *Relative Values* injects an important interdisciplinary curiosity into one of anthropology's most important disciplinary traditions.

A new edition of an occult classic, which includes a new introduction by Mary K. Greer, author of Women of the Golden Dawn, and a new afterword with excerpts from rarely seen documents by Fortune herself describing how the book came about. After finding herself the subject of a powerful psychic attack in the 1930s, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defense guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defense. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognize them. This is one of the best guides to detection and defense against psychic attack from

one of the leading occult writers of the twentieth century.

The provocative and long-overdue book about how Newfoundlanders were deceived by Canada and Britain, now available as a trade paperback. The true story, drawn from official documents and hours of personal interviews, of how Newfoundland and Labrador joined Confederation and became Canada's 10th province in 1949. A rich cast of characters--hailing from Britain, America, Canada and Newfoundland--battle it out for the prize of the resource-rich, financially solvent, militarily strategic island. The twists and turns are as dramatic as those in any spy novel and extremely surprising, since the "official" version of Newfoundland history

has held for over 50 years almost without question.

Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from

economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property,

money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .
