In an age of unbridled American enthusiasm and towering industrial might, the GM Motorama was a dazzling and elegant show that was unlike any automotive event before it or since. General Motors staged extravagant and elaborate Motorama shows that rivaled some fashion shows. It showcased some of the most revolutionary and innovative prototype and dream cars ever built. And it captured the imagination of the car-buying public from 1950 to 1961. Motorama expert and experienced author David Temple has comprehensively researched the show, the cars, and the personalities to create a fascinating new story with many new photos of these magnificent cars. Because television was in its infancy, GM's President Alfred Sloan believed that the Motorama was the most effective way to market GM products and design prowess. Legendary stylist Harley Earl led a talented group of designers and engineers to dream up, style, and develop some of the most remarkable prototype cars of all time. While current production Buick, Chevy, Cadillac, and Pontiac cars were showcased, the bold, radical, awe-inspiring prototype and dream cars stole the show. These included the GM Le Sabre, replete with aerospace design and an aluminum engine; the fiberglass-bodied Corvette dream car, which went into production after overwhelmingly positive response; and the jet engine-powered Firebird. Temple goes into fascinating detail on the body, frame, engine, drivetrain, and all the special features of each model. He has also retraced the ownership histories of some of these cars. Within the pages of this volume, you get to relive this glorious era of automotive history and revisit the advanced show cars that inspired so many new models. This book features fascinating period photography of Motorama cars at the show, in development, and at different locales. No other automotive show rivaled the Motorama for stunning productions and awe-inspiring cars, which makes this a must-have book.

"This intimate, moving, and timely collection of essays points the way to a world in which the burden of grief is shared, and pain is reconfigured into a powerful force for social change and collective healing." —Astra Taylor, author *The People's Platform* "A primary message here is that from tears comes the resolve for the struggle ahead." —Ron Jacobs, author of *Daydream Sunset* "Rebellious Mourning uncovers the destruction of life that capitalist development leaves in its trail. But it is also witness to the power of grief as a catalyst to collective resistance." —Silvia Federici, author of *Caliban and the Witch* We can bear almost anything when it is worked through collectively. Grief is generally thought of as something personal and insular, but when we publicly share loss and pain, we lessen the power of the forces that debilitate us, while at the same time building the humane social practices that alleviate suffering and improve quality of life for everyone. Addressing tragedies from Fukushima to Palestine, incarceration to eviction, AIDS crises to border crossings, and racism to rape, the intimate yet tenacious writing in this volume shows that mourning can pry open spaces of contestation and reconstruction, empathy and solidarity. With contributions from Claudia Rankine, Sarah Schulman, David Wojnarowicz, Leanne Betasamosake Simpson, David Gilbert, and nineteen others. Cindy Milstein is the author of *Anarchism and Its Aspirations*, co-author of *Paths toward Utopia: Graphic Explorations of Everyday Anarchism*, and editor of the anthology *Taking Sides: Revolutionary Solidarity and the Poverty of Liberalism*.

In the tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed "bibliodick" (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess the books they love. *Numbers Past And Present With The Lo Shu Square* Simon and Schuster

What would it feel like to never forget? Or to have a memory stolen? Seventeen-year-old Genesis Lee has never forgotten anything. That's why Gena is less than pleased to meet a strange but charming boy named Kalan who claims not only that they have met before, but also that Gena knows who the thief is. The problem is that Gena doesn't remember Kalan, she doesn't remember seeing the thief, and she doesn't know why she's forgetting things—or how much else she might forget. As growing tensions between Mementi and ordinary humans drive the city of Havendale into chaos, Gena and Kalan team up to search for the thief. And as Gena loses more memories, they realize they have to solve the mystery fast...because Gena's life is unhappening around her. Sky Pony Press, with our Good Books, Racehorse and

"Show Them a Good Time is a master class in the short story—bold, irreverent and agonizingly funny." Sally Rooney, Author of *Normal People* and *Conversations with Friends* Named A Most Anticipated Novel of 2020 by Entertainment Weekly * Marie Claire * Wall Street Journal * The A.V. Club * The Millions * Time * Parade * The Chicago Review of Books * LitHub A blisteringly original and wickedly funny collection of stories about the strange worlds that women inhabit and the parts that they must play. A sense of otherworldly menace is at work in the fiction of Nicole Flattery, but the threats are all too familiar. *SHOW THEM A GOOD TIME* tells the stories of women slotted away into restrictive roles: the celebrity's girlfriend, the widower's second wife, the lecherous professor's student, the corporate employee. And yet, the genius of Flattery's characters is to blithely demolish the boundaries of these limited and limiting social types with immense complexity and caustic intelligence. Nicole Flattery's women are too ferociously mordant, too painfully funny to remain in their places. In this fiercely original and blazingly brilliant debut, Flattery likewise deconstructs the conventions of genre to serve up strange realities: In *Not the End Yet*, Flattery probes the hilarious and wrenching ambivalence of Internet dating as the apocalypse nears; in *Sweet Talk*, the mysterious disappearance of a number of local women sets the scene for a young girl to confront the dangerous uncertainties of her own sexuality; in this collection's center piece, *Abortion, A Love Story*, two college students in a dystopian campus reconfigure the perilous stories of their bodies in a fraught academic culture to offer a subversive, alarming, and wickedly funny play that takes over their own offstage lives. And yet, however surreal or richly imagined the setting, Flattery always shows us these strange worlds from startlingly unexpected angles, through an unforgettable cast of brutally honest, darkly hilarious women and girls. Like the stories of Mary Gaitskill, Miranda July, Lorrie Moore, Joy Williams, and Ottessa Moshfegh, *SHOW THEM A GOOD TIME* is the work of a profoundly resonant and revelatory literary voice – at once spiky, humane, achingly hilarious-- that is sure to echo through the literary culture for decades to come.

Picking Winning Lottery Numbers can be hard. Many people have complicated mathematical systems that use historical data (maybe a birthday, or what they are lucky numbers). Some people use the same numbers every time they play. Others just let the system spit out random numbers. Very often the results are disappointing or totally random. This book goes back to the grand tradition of fusing our own dreams and modern numerology--coding this dream imagery into usable, meaningful numbers. For instance, are you dreaming of Pizza every other night? Well this could mean something (apart from waking up hungry every morning!). Why not use this in your choice of number? The tables in this Modern Lottery Dream Book will give you something usable from that dream to actually use in the Lottery of your choice. The number to choose for Pizza would be 65 if you are playing Power Ball. The world stands so dazzled by India's meteoric economic rise that we hesitate to acknowledge its consequences to the people and the environment. In *Churning the Earth*, Aseem Shrivastava and Ashish Kothari engage in a timely enquiry of this impressive growth story. They present incontrovertible evidence on how the nature of this recent growth has been predatory and question its sustainability. Unfettered development has damaged the ecological basis that makes life possible for hundreds of millions resulting in conflicts over water, land and natural resources, and increasing the chasm between the rich and the poor, threatening the future of India as a civilization. Rich with data and stories, this eye-opening critique of India's development strategy argues for a radical ecological democracy based on the principles of environmental sustainability, social equity and livelihood security. Shrivastava and Kothari urge a fundamental shift towards such alternatives—already emerging from a range of grassroots movements—if we are to forestall the descent into socio-ecological chaos. *Churning the Earth* is unique in presenting not only what is going wrong in India, but also the ways out of the crises that globalised growth has precipitated.

An arresting portrait of the lives of today's refugees and a searching look into their future The word refugee is more often used to invoke a problem than it is to describe a population of millions of people forced to abandon their homes, possessions, and families in order to find a place where they may, quite literally, be allowed to live. In spite of the fact that refugees surround us-the latest UN estimates suggest that 20 million of the world's 6.3 billion people are refugees-few can grasp the

scale of their presence or the implications of their growing numbers. Caroline Moorehead has traveled for nearly two years and across four continents to bring us their unforgettable stories. In prose that is at once affecting and informative, we are introduced to the men, women, and children she meets as she travels to Cairo, Guinea, Sicily, the U.S./Mexico border, Lebanon, England, Australia, and Finland. She explains how she came to work and for a time live among refugees, and why she could not escape the pressing need to understand and describe the chain of often terrifying events that mark their lives. *Human Cargo* is a work of deep and subtle sympathy that completely alters our understanding of what it means to have and lose a place in the world.

The budget battles of recent years have amplified the warnings of demographic doomsayers who predicted that a wave of baby boomers would bleed America dry, bankrupting Social Security and Medicare as they faded into an impoverished old age. On the contrary, argues award-winning journalist Chris Farrell, we are instead on the verge of a broad, positive transformation of our economy and society. The old idea of "retirement"--a word that means withdrawal, describing a time when people gave up productive employment and shrank their activities--was a short-lived historical anomaly. Humans have always found meaning and motivation in work and community, Farrell notes, and the boomer generation, poised to live longer in better health than any before, is already discovering unretirement--extending their working lives with new careers, entrepreneurial ventures, and volunteer service. Their experience, wisdom--and importantly, their continued earnings--will enrich the American workplace, treasury, and our whole society in the decades to come. Unretirement not only explains this seismic change, now in its early stages, it provides key insights and practical advice for boomers about to navigate this exciting, but unsettled, new frontier, drawing on Chris Farrell's decades of covering personal finance and economics for *Bloomsberg Businessweek* and *Marketplace Money*. This will be an indispensable guide to the landscape of unretirement from one of America's most trusted experts.
