Digestive Intelligence tells the fascinating story of how our digestive systems are the centre of our bodies' second brain and how we think and live our emotions via our stomachs. Not surprising when you consider there is something equivalent to the size of a village football pitch hiding inside our bellies--that's the incredible magnitude of our digestive systems. Dr Matveikova answers the obvious questions: "How?" and "Why can this be so?" by explaining, in straight forward layman's language, that the digestive system contains more than one million neurones, identical to those in the brain and is responsible for

producing 90% of the body's hormone, serotonin, the all-important hormone which makes us feel happy and full of wellbeing. It follows that, if our stomach is "out of sorts" we feel irritable and lacking in energy; and those feelings block our intellectual productivity, disorientate us and completely change our thought patterns and physical processes.

What Saints, Spies and Serial Killers Can Teach Us About Success ALBA Editorial
I've always been a good girl. I work hard, I follow the rules, I always achieve my goals. But sometimes good girls want things that aren't good for them. Or someone who isn't good for them. Like their new boss. And sometimes they do very bad things to get his attention. Like sell their virginity in an auction. Who

knew he'd be so very, very mad? Maybe this was not my best laid plan...

Para Enamorarse John Wiley & Sons

The landmark bestseller that changed the way we think about love: "Every line is packed with common sense, compassion, and realism" (Fortune). The *Art of Loving* is a rich and detailed guide to love—an achievement reached through maturity, practice, concentration, and courage. In the decades since the book's release, its words and lessons continue to resonate. Erich Fromm, a celebrated psychoanalyst and social psychologist, clearly and sincerely encourages the development of our capacity for and understanding of love in all of its facets. He discusses the familiar yet misunderstood romantic love, the all-

encompassing brotherly love, spiritual love, and many more. A challenge to traditional Western notions of love, *The Art of Loving* is a modern classic about taking care of ourselves through relationships with others by the New York Times–bestselling author of *To Have or To Be?* and *Escape from Freedom*. This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate. [The Purpose Driven Life](#) Createspace Independent Publishing Platform "If ever a couple was 'meant to be,' it's Tess and Gus. This is such a witty, poignant, and uplifting story of two lives crisscrossing over the years, with near miss after near miss. . . . I couldn't put it down."—Sophie Kinsella *A wryly*

romantic debut novel with echoes of *One Day* that asks, what if you just walked by the love of your life, but didn't even know it? "TODAY IS THE FIRST DAY OF THE REST OF YOUR LIFE." Tess can't get the motto from her mother's kitchen knickknack out of her head, even though she's in Florence on an idyllic vacation before starting university in London. Gus is also visiting Florence, on a holiday with his parents seven months after tragedy shattered their lives. Headed to medical school in London, he's trying to be a dutiful son but longs to escape and discover who he really is. A chance meeting brings these eighteen-year-olds together for a brief moment—the first of many times their paths will crisscross as time passes and their lives diverge from those they'd envisioned. Over the course

of the next sixteen years, Tess and Gus will face very different challenges and choices. Separated by distance and circumstance, the possibility of these two connecting once more seems slight. But while fate can separate two people, it can also bring them back together again. . . .

It's a night like any other on board the Icarus. Then, catastrophe strikes: the massive luxury spaceliner is yanked out

of hyperspace and plummets into the nearest planet. Lilac LaRoux and Tarver Merendsen survive. And they seem to be alone. Lilac is the daughter of the richest man in the universe. Tarver comes from nothing, a young war hero who learned long ago that girls like Lilac are more trouble than they're worth. But with only each other to rely on, Lilac and Tarver must work together, making a tortuous journey across the eerie, deserted terrain to seek help. Then, against all odds, Lilac and Tarver find a strange blessing in the tragedy that has thrown them into each other's arms. Without the hope of a future together in their own world, they begin to wonder???would they be better off staying here forever? Everything changes when they uncover the truth behind the chilling whispers

that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it. The first in a sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds.

Looking for Alaska Deluxe Edition Knopf Books for Young Readers

Toda la fuerza de Charlotte Brontë -una fuerza mucho más tremenda por estar constreñida- cabe en esta afirmación: «Amo, odio, sufro». Virginia Woolf De *Jane Eyre* (1847), ciertamente una de las novelas más famosas de estos dos últimos siglos, solemos conservar la imagen ultrarromántica de una azarosa historia de amor entre una institutriz pobre y su rico e imponente patrón, todo

en el marco truculento y misterioso de una fantasmagoría gótica. Y olvidamos que, antes y después de la relación central con el abismal, sardónico y volcánico señor Rochester, *Jane Eyre* tiene otras relaciones, otras historias: episodios escalofriantes de una infancia tan maltratada como rebelde, pasos de enfermedad y arduo aprendizaje en un tétrico internado, estaciones de penuria y renuncia en la más absoluta desolación física y moral, inesperados golpes de fortuna, e incluso remansos de paz familiar y nuevas -aunque engañosas- proposiciones de matrimonio.

Olvidamos, en fin, que la novela es todo un libro de la vida, una confesión certera y severísima -rotundamente crítica- de un completo itinerario espiritual, y una exhaustiva ilustración de la lucha entre

conciencia y sentimiento, entre principios y deseos, entre legitimidad y carácter, de una heroína que es la «llama cautiva» entre los extremos que forman su naturaleza. Carmen Martín Gaité ha rescatado el vigor, la riqueza y la naturalidad expresiva de un texto un tanto desvirtuado por la popularidad de sus múltiples versiones. Gracias a su traducción, quien creyera conocer esta novela, al leerla de nuevo, más que recordarla, la descubrirá.

 Inspired by the real psychology study popularized by the New York Times and its "Modern Love" column, this contemporary YA is perfect for fans of Eleanor and Park. Two random strangers. Two secrets. Thirty-six questions to make them fall in love.

Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished

reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

Almost three centuries have passed since the oldest manuscript of "The Thousand and One Nights" arrived in Europe. Since then, the "Nights" have occupied the minds of scholars worldwide, in particular the questions of origin, composition, language and literary form. In this book, Muhsin Mahdi, whose critical edition of the text brought

so much praise, explores the complex literary history of the "Nights," bringing to fruition the search for the archetype that constituted the core of the surviving editions, and treating the fascinating story of the growth of the collection of stories that we now know as "The Thousand and One Nights,"

This book is about the central figure of our contemporary, 'liquid modern' times – the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to

come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change - as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt

Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships.
