Alessandra Lemma - Winner of the Levy-Goldfarb Award for Child Psychoanalysis! The contemporary relevance of psychoanalysis is being increasingly questioned; *Off the Couch* challenges this view, demonstrating that psychoanalytic thinking and its applications are both innovative and relevant, in particular to the management and treatment of more disturbed and difficult to engage patient groups. Chapters address: clinical applications in diverse settings across the age range the relevance of psychoanalytic thinking to the practice of CBT, psychosomatics and general psychiatry the contribution of psychoanalytic thinking to mental health policy and the politics of conflict and mediation. This book suggests that psychoanalysis has a vital position within the public health sector and discusses how it can be better utilised in the treatment of a range of mental health problems. It also highlights the role of empirical research in providing a robust evidence base. *Off the Couch* will be essential reading for those practicing in the field of mental health and will also be useful for anyone involved in the development of mental health and public policies. It will ensure that practitioners and supervisors have a clear insight into how psychoanalysis can be applied in general healthcare.

In anticipation of the opening of the H. Lee Moffitt Cancer Center and Research Institut~ on the campus of the University of South Florida, an international symposium, "The First Annual H. Lee Moffitt Symposium on Cancer Biology and Therapeutics" was held in Tampa, Florida on January 20-22, 1986. In this first symposium we decided to present a broad-based series of topics dealing with the major issues in the field of cancer. These topics ranged from the biochemistry of the cancer cell to the design of antineoplastic agents, through tumor cell heterogeneity, treatment of human neoplasms to immunological aspects of cancer biology and treatment. The speakers chosen represented individuals of international acclaim who are very active in the area of cancer research and treatment. The symposium brought together scientists/physicians from six nations including Austria, Canada, France, Hungary, West Germany, and of course, the United States. The congeniality of the participants promoted the friendly exchange of knowledge which, it is hoped, will greatly hasten the time when successful management of human cancer will become routine. Future symposia in this series will be highly focused and will deal with a single facet of this vast field of cancer research and treatment. Joseph G. Cory, Editor and Szentivanyi, Editor University of South Florida, 1986 V ACKNOWLEDGMENTS This volume presents the Proceedings of the H. Lee Moffitt International Symposium on Cancer Biology and Therapeutics which was held in Tampa, Florida on January 20, 21, and 22, 1986.

A pictorial history and in essence, medical archaeology, by the author of *The Century of the Surgeon*. In Egypt, the Ebers Papyrus (not later than 2100 B.C.) is actually a first textbook; there too, where they tried to cure, they also perfected the art of embalming and from the buried evidence many of the diseases then prevalent can now be identified. Including India, China, Mexico and Peru, this provides a visual history-- there are some 370 illustrations, eight in full color, and it is a fascinating book to look at and learn from.

In the years after World War II, the airline stewardess became one of the most celebrated symbols of American womanhood. Stewardesses appeared on magazine covers, on lecture circuits, and in ad campaigns for everything from milk to cigarettes. Airlines enlisted them to pose for publicity shots, mingle with international dignitaries, and even serve (in sequined minidresses) as the official hostesses at Richard Nixon's inaugural ball. Embodying mainstream America's perfect woman, the stewardess was an ambassador of femininity and the American way both at home and abroad. Young, beautiful, unmarried, intelligent, charming, and nurturing, she inspired young girls everywhere to set their sights on the sky. In *The Jet Sex*, Victoria Vantoch explores in rich detail how multiple forces—business strategy, advertising, race, sexuality, and Cold War politics—cultivated an image of the stewardess that reflected America's vision of itself, from the wholesome girl-next-door of the 1940s to the cosmopolitan glamour girl of the Jet Age to the sexy playmate of the 1960s. Though airlines marketed her as the consummate hostess—an expert at pampering her mostly male passengers, while mixing martinis and allaying their fears of flying—she bridged the gap between the idealized 1950s housewife and the emerging "working woman." On the international stage, this select cadre of women served as ambassadors of their nation in the propaganda clashes of the Cold War. The stylish Pucci-clad American stewardess represented the United States as middle class and consumer oriented—hallmarks of capitalism's success and a stark contrast to her counterpart at Aeroflot, the Soviet national airline. As the apotheosis of feminine charm and American careerism, the stewardess subtly bucked traditional gender roles and paved the way for the women's movement. Drawing on industry archives and hundreds of

interviews, this vibrant cultural history offers a fresh perspective on the sweeping changes in twentieth-century American life.

The Monster Zondervan

"Erica Garza has written a riveting, can't-look-away memoir of a life lived hardcore...In an era when predatory male sexual behavior has finally become a topic of urgent national discourse...Getting Off makes for a wild, timely read" (Elle). A fixation on porn and orgasm, strings of failed relationships and serial hook-ups with strangers, inevitable blackouts to blunt the shame—these are not things we often hear women share publicly, and not with the candor, eloquence, and introspection Erica Garza brings to *Getting Off*. What sets this courageous and riveting account apart from your typical misery memoir is the absence of any precipitating trauma beyond the garden variety of hurt we've all had to endure in simply becoming a person—reckoning with family, learning to be social, integrating what it means to be sexual. Whatever tenor of violence or abuse Erica's life took on through her behavior was of her own making, fueled by fear, guilt, self-loathing, self-pity, loneliness, and the hopelessness those feelings brought on as she runs from one side of the world to the other in an effort to break her habits—from East Los Angeles to Hawaii and Southeast Asia, through the brothels of Bangkok and the yoga studios of Bali to disappointing stabs at therapy and twelve-steps back home. In these remarkable pages, Garza draws an evocative, studied portrait of the anxiety that fuels her obsessions, as well as the exhilaration and hope she begins to feel when she suspects she might be free of them. *Getting Off* offers a brave and necessary voice to our evolving conversations about addiction and the impact that internet culture has had on us all—"a profoundly genuine, gripping story that any reader can appreciate" (Vice). "In reading Garza's insight into her own experiences, we better understand ourselves" (The New York Times Book Review).
