Redford. McQueen. Belmondo. When most of us think of a well-dressed man, it's not a super-model that first comes to mind, but a movie star, such as one of these cinematic legends. For almost a century now, movies have served as vivid records of fashion's most memorable trends, and leading men have set the bar for the well-dressed and stylish guy in every era. Now men's fashion expert Marion Maneker tackles with flair men's biggest sartorial

problem: lack of imagination. Create art that's more attractive, interesting and eye-catching! Even if your perspective is accurate, your subject realistic and colors vibrant, a weak composition - predictable, repetitious or monotonous - means a weak painting. The Simple Secret to Better Painting ensures that your compositions work every time. It's an insightful artistic philosophy that boils down the many technical principles of composition into a single master rule that's easy to remember and apply: Never make any two intervals the same. You can make every painting more interesting, dynamic

and technically sound by varying intervals of distance, length and space, as well as intervals of value and color. The rule also applies to balance, shape and the location of your painting's focal point. Greg Albert illustrates these lessons with eye-opening examples from both beginning and professional artists, including Frank Webb, Tony Couch, Kevin Macpherson, Charles Reid, Tony Van Hasselt and more. You'll discover that the ONE RULE is the only rule of composition you need to immediately improve your work - the moment your brush touches the canvas.
