Este livro surgiu a
partir das discussões
realizadas na disciplina

“Cartografia no Ensino de Geografia”, com alunos de graduação em Geografia da UFPA, no ano de 2013, e também de resultados obtidos com a execução do projeto “A cartografia em sala de aula: capacitação de professores da rede pública de ensino no

uso da cartografia e de geotecnologias”, financiado pela Pró-Reitoria de Extensão da UFPa. Notamos durante a realização das atividades da disciplina e do projeto que há uma necessidade significativa de referências bibliográficas sobre o uso da cartografia na prática de ensino-aprendizagem, que aborde as novas tecnologias da cartografia que podem ser aplicadas em sala de aula, como forma de subsidiar o trabalho docente e tornar as aulas mais atrativas. Assim, reunimos uma série de artigos que, além do mapa, apresentam novas formas de ensino, que complementem a aula expositiva de geografia.

Event Editora
Distribution Revolution
is a collection of interviews with leading film and TV professionals concerning the many ways that digital delivery systems are transforming the entertainment business. These interviews provide lively insider accounts from studio executives, distribution professionals, and creative talent of the tumultuous transformation of film and TV in the digital era. The first section features interviews with top executives at major Hollywood studios, providing a window into the big-picture concerns of media conglomerates with respect to changing business

models, revenue streams, and audience behaviors. The second focuses on innovative enterprises that are providing path-breaking models for new modes of content creation, curation, and distribution—creatively meshing the strategies and practices of Hollywood and Silicon Valley. And the final section offers insights from creative talent whose professional practices, compensation, and everyday working conditions have been transformed over the past ten years. Taken together, these interviews demonstrate that virtually every aspect of the film and television businesses is being affected by the digital distribution revolution, a revolution

that has likely just begun. Interviewees include: ¥ Gary Newman, Chairman, 20th Century Fox Television ¥ Kelly Summers, Former Vice President, Global Business Development and New Media Strategy, Walt Disney Studios ¥ Thomas Gewecke, Chief Digital Officer and Executive Vice President, Strategy and Business Development, Warner Bros. Entertainment ¥ Ted Sarandos, Chief Content Officer, Netflix ¥ Felicia D. Henderson, Writer-Producer, Soul Food, Gossip Girl ¥ Dick Wolf, Executive Producer and Creator, Law & Order

Revista UMA Wild Goose Publications
No mundo em que vivemos, tempo da informação tão urgente quanto volátil, chega a

ser insano pensar que alguém permaneça com a mesma TV por mais de cinco ou seis anos. No passado, famílias inteiras nasciam e cresciam diante da mesma tela por mais de uma década, e isso era considerado normal. Até que chips e softwares começaram a tomar conta de tudo, transformando nossas TVs em vitrines por onde desfilam cada vez mais atrações.

Lemosos aulaClic S L Diffusion, or the widespread adoption of innovations, is a critical yet under-researched topic. There is a wide gap between development and successful adoption of an innovation. Therefore, a better understanding of why and how an innovation is adopted can help

develop realistic management and business plans. Most books on this topic use a single-discipline approach to explain the diffusion of innovations. This book adopts a multi-disciplinary and managerial process approach to understanding and promoting the adoption of innovations, based on the latest research and practice. It will be of interest to graduates and researchers in marketing, product development and innovation courses./a [Aplicaciones del LED en diseño de iluminación](#) Academia Puertorriquena de la Lengua Espanola For more than a century, Venezuela Heroica has been a source of inspiring stories for Venezuelan

schoolchildren. Now ably translated and profusely annotated, the book retains the literary beauty and entertaining character of the original, presenting a vivid account of the Venezuelan wars waged against Spain while seeking independence. Stories of the major battles and the most famous heroes of the Independence Wars, as well as reflections on the conditions, political and otherwise, that attended the first decades of the Republic, can now be further enjoyed in this insightful and masterful translation.

Los primeros 20 años de contenidos audiovisuales en Internet. 1000 obras y webs BearManor Media

An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. Principles of Marketing keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features

summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

Caretas Simon and Schuster

Mechanical ventilation and weaning is one of the most common procedures carried out in critically ill patients. Appropriate management of these patients is of paramount importance to improve the outcome in terms of both morbidity and mortality. This book offers the physiological and clinical basis required to improve the care delivered to patients undergoing mechanical ventilation.

What was the very first situation comedy on American television?

What was the first police drama? When was the first program broadcast in color? It takes only a moment of pondering such questions to realize how little we really know about the history of the medium that entertains us, informs us, and keeps us company at some point during each day and night. Every generation since the end of World War II has seen television become an integral part of our lives. However, even the most avid TV viewers are unaware of when, and under what circumstances, each onscreen television milestone has taken place. For the First Time on Television is a

history of television presented with a fresh approach, by extensively examining the history of nearly 100 of television's "firsts," ranging from the first person ever to appear on a television screen, to the day the first HDTV screen made its debut, and everything in between. Here you'll find little-known but fascinating kernels of information regarding the groundbreaking programs, individuals, and events that have become an important part of TV history, and that still affect what we see on television today. You'll probably find yourself indulging in these "firsts" the way you'd treat an open bag of potato chips-by discovering how it is nearly impossible to enjoy just

one or two without reaching for more. About the Author Garry Berman is a pop culture historian and freelance writer whose previous books include *Best of the Britcoms: From Fawlty Towers to Absolutely Fabulous, We're Going to See the Beatles!*, *Perfect Fool: The Life and Career of Ed Wynn*, and *Between the Laughs*. He has also contributed articles to *Nostalgia Digest* magazine, *Beatlefan* magazine, and several pop culture web sites. He lives in New Jersey with his wife, Karen.

Info exame On Line Editor
Richness or reach? The trade-off used to be simple but absolute: Your business strategy either could focus on "rich" information - customized products

and services tailored to a niche audience - or could reach out to a larger market, but with watered-down information that sacrificed richness in favor of a broad, general appeal. Much of business strategy as we know it today rests on this fundamental trade-off. Now, say Evans and Wurster, the new economics of information is eliminating the trade-off between richness and reach, blowing apart the foundations of traditional business strategy. Blown to Bits reveals how the spread of connectivity and common standards is redefining the information channels that link businesses with their customers, suppliers, and employees. Increasingly, your

customers will have rich access to a universe of alternatives, your suppliers will exploit direct access to your customers, and your competitors will pick off the most profitable parts of your value chain. Your competitive advantage is up for grabs. To prepare corporate executives and entrepreneurs alike for a fundamental change in business competition, Evans and Wurster expand and illuminate groundbreaking concepts first explored in the award-winning Harvard Business Review article "Strategy and the New Economics of Information," and present a practical guide for applying them. Examples span the spectrum of

industries--from financial services to health care, from consumer to industrial goods, and from media to retailing. Blown to Bits shows how to build new strategies that reflect a world in which richness and reach go hand in hand and how to make the most of the new forces shaping competitive advantage.

Visión Marcombo Quem disse que não podemos, a todo instante, nos superar? Ok, você deve estar pensando que até é possível, mas não é nada fácil... Concordo que nem sempre

conseguimos, como em um passe de mágica, vencer nossos momentos mais difíceis. Mas, como ouvi noutro dia, a única coisa impossível é Deus errar. Partindo dessa simples, mas sábia máxima, quero compartilhar com você algumas experiências de mulheres que, como nós, conseguiram vencer – e continuam, todos os dias, buscando mais pontos para aumentar o placar das vitórias da vida. A reportagem “Mulheres especiais” traz depoimentos emocionantes de quatro mulheres que driblaram, com infinita força de vontade, dores, medos, angústias, o desconhecido e, não raro, o inaceitável. Depois de ler as histórias dessas

vencedoras, tenho certeza de que você vai chegar à conclusão de que todos os nossos dilemas acabam ficando praticamente insignificantes e bem mais fáceis de serem resolvidos.

Principles of Marketing Clube de Autores

Es una revista especializada en el sector tecnológico, donde podrás encontrar las últimas innovaciones tecnológicas implementadas en productos de consumo. El contenido incluye secciones de fotografía y video digital, telefonía celular, computadoras portátiles y de escritorio, accesorios y periféricos electrónicos, además de otros dispositivos portátiles, como los

MP3 y MP4, así como lo último en alta definición (Blu Ray) y pantallas de LCD y plasma. Por otro lado, se incluyen evaluaciones técnicas de diversos componentes, los principales estrenos en la cartelera cinematográfica, los más recientes lanzamientos en DVD y Videojuegos, y por último, la sección de estilo de vida, con información variada sobre los gadgets y accesorios que te harán la vida más fácil.

Este libro se ha pensado para cualquier persona interesada en la iluminación, ya sea desde la arquitectura, urbanismo, ingeniería, construcción o distribución, y desee conocer algo más sobre los LED. Y en especial está dirigido también a estudiantes de carreras técnicas, Masters o Postgrados de iluminación.

APLICACIONES DE LOS LED EN DISEÑO DE ILUMINACION cuenta con la colaboración de más de 50 diseñadores de iluminación y especialistas en tecnología LED, miembros de la

asociación APDI y otras asociaciones de Latinoamérica, así como otros expertos del sector. Todos ellos han aportado de forma entusiasta su visión y experiencias en los proyectos realizados con tecnología LED. El libro cuenta también con colaboraciones de entidades como CICAT, ANFALUM, CEI, TECNICAT, así como el patrocinio de 10 fabricantes especializados. Alfred Sá es diseñador de iluminación con 28 años de experiencia y dirige el estudio NUR L+D. Ha realizado varios trabajos sobre la tecnología LED. Cuando se planteó este libro en 2009, la tecnología SSL estaba en la prehistoria, en comparación con la actual situación. Hasta 2012 reunió muchísima

información con su equipo y luego han trabajado en actualizarla hasta 2015. La rápida evolución de los productos y su irrupción imparable en el mercado les convenció de hacer un libro didáctico, ameno, que explique cómo ha cambiado nuestro entorno de trabajo con la aparición del LED.

Cambridge Scholars Publishing

In this white-knuckled

true story that is “as exciting as any action novel” (The New York Times Book Review), an astronomer-turned-cyber-detective begins a personal quest to expose a hidden network of spies that threatens national security and leads all the way to the KGB. When Cliff Stoll followed the trail of a 75-cent accounting error at his workplace, the Lawrence Berkeley National Laboratory, it led him to the presence of an unauthorized user on the system. Suddenly, Stoll found himself crossing paths with a hacker named “Hunter” who had managed to break into sensitive United States networks and steal vital information. Stoll made the dangerous decision to begin a

one-man hunt of his own: spying on the spy. It was a high-stakes game of deception, broken codes, satellites, and missile bases, one that eventually gained the attention of the CIA. What started as simply observing soon became a game of cat and mouse that ultimately reached all the way to the KGB.

Drawing on a wide range of social and psychological theories,

Castells presents original research on political processes and social movements. He applies this analysis to numerous recent events - the misinformation of the American public on the Iraq War, the global environmental movement to prevent climate change, the control of information in China and Russia, Barak Obama's internet-based presidential campaigns, and (in this new edition) responses to recent political and economic crises such as the Arab Spring and the Occupy movement. On the basis of these case studies he proposes a new theory of power in the information age based on the management of communication networks.
