From the legendary Famous Trials series

of real-life courtroom dramas, two classic murder trials abridged and refreshed as Penguin Specials for modern readers, selected and introduced by Alex McBride, author of *Defending the Guilty* Thomas Cream, erstwhile Sunday school teacher and serial poisoner, has an unsettling air and wonky eye. He also happens to be a doctor, which provides him with ample means and an ideal cover for his murderous activities. His victims are vulnerable young women, whose trust he gains with drinks and trips to the music hall, before offering them pills or swigs from a medicine bottle. A few hours later, they are dying in agony. The Honourable Thomas Ley, meanwhile, has an even better disguise: he's the former Justice Minister for New South Wales and a successful businessman, albeit with a shady past. Rumours abound when a political opponent disappears without trace and a business partner winds up at the bottom of a cliff. Neither killer can help themselves - and this, in the end, leads to their downfall - and both defy our comprehension. Brilliantly reconstructed here, their trials, in 1892 and 1947, reveal a deeply sinister conundrum: by the time

you've discovered the secrets in their heart, it's inevitably much too late. The legendary Famous Trials series set the benchmark for historical crime writing with its accounts of the most notorious and intriguing criminal trials of the nineteenth and twentieth centuries. Expertly reconstructed from court transcripts, these often sensational narratives have gripped generations of readers since they first appeared in 1941. In this digital edition, two of the very best Famous Trials have been selected, introduced and further abridged by criminal barrister and author Alex McBride to provide modern readers with the most compelling versions yet of these court-room classics. Alex McBride is a criminal barrister. His book *Defending the Guilty: Truth and Lies in the Criminal Courtroom* was shortlisted for the 2010 Crime Writers' Association Gold Dagger for Non-Fiction and is available in Penguin. He has written for the Guardian, Independent, Prospect and New Statesman, and has contributed to various BBC programmes, including *From Our Own Correspondent*. The Encyclopedia of Nineteenth-Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard, definitive reference work on the subject for years to come. Its coverage is global – an important ‘first’ in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground-breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates and groupings which helped photography develop from being ‘a solution in search of a problem’ when first invented, to the essential communication tool, creative medium, and recorder of everyday life

which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth-Century Photography an essential reference source for academics, students, researchers and libraries worldwide.

No one predicted success for Henry Ward Beecher at his birth in 1813. The blithe, boisterous son of the last great Puritan minister, he seemed destined to be overshadowed by his brilliant siblings—especially his sister, Harriet Beecher Stowe, who penned the century’s bestselling book *Uncle Tom’s Cabin*. But when pushed into the ministry, the charismatic Beecher found international fame by shedding his father’s Old Testament-style fire-and-brimstone theology and instead preaching a New Testament-based gospel of unconditional

love and healing, becoming one of the founding fathers of modern American Christianity. By the 1850s, his spectacular sermons at Plymouth Church in Brooklyn Heights had made him New York's number one tourist attraction, so wildly popular that the ferries from Manhattan to Brooklyn were dubbed "Beecher Boats." Beecher inserted himself into nearly every important drama of the era—among them the antislavery and women's suffrage movements, the rise of the entertainment industry and tabloid press, and controversies ranging from Darwinian evolution to presidential politics. He was notorious for his irreverent humor and melodramatic gestures, such as auctioning slaves to freedom in his pulpit and shipping rifles—nicknamed "Beecher's Bibles"—to the antislavery resistance fighters in Kansas. Thinkers such as Emerson, Thoreau, Whitman, and Twain befriended—and sometimes parodied—him. And then it all fell apart. In 1872 Beecher was accused by feminist firebrand Victoria Woodhull of adultery with one of his most pious parishioners. Suddenly the "Gospel of Love" seemed to rationalize a life of lust. The cuckolded

husband brought charges of "criminal conversation" in a salacious trial that became the most widely covered event of the century, garnering more newspaper headlines than the entire Civil War. Beecher survived, but his reputation and his causes—from women's rights to progressive evangelicalism—suffered devastating setbacks that echo to this day. Featuring the page-turning suspense of a novel and dramatic new historical evidence, Debby Applegate has written the definitive biography of this captivating, mercurial, and sometimes infuriating figure. In our own time, when religion and politics are again colliding and adultery in high places still commands headlines, Beecher's story sheds new light on the culture and conflicts of contemporary America.

The first narrative biography of the Civil War's pioneering visual historian, Mathew Brady, known as the “father of American

photography.” Mathew Brady's attention to detail, flair for composition, and technical mastery helped establish the photograph as a thing of value. In the 1840s and '50s, “Brady of Broadway” photographed such dignitaries as Henry Clay, Daniel Webster, Dolley Madison, Horace Greeley, the Prince of Wales, and Jenny Lind. But it was during the Civil War that Brady's photography became an epochal part of American history. The Civil War was the first war in history to leave a detailed photographic record, and Brady knew better than anyone the dual power of the camera to record and excite, to stop a moment in time and preserve it. More than ten thousand war images are attributed to the Brady studio. But as Wilson shows, while Brady himself accompanied the Union army to the first major battle at Bull Run, he was so shaken by the experience that throughout the rest of the war he rarely visited battlefields except well before or after a major battle, instead sending teams of photographers to the front. Mathew Brady is a gracefully written and beautifully illustrated biography of an American legend—a businessman, a suave promoter, a

celebrated portrait artist, and, most important, a historian who chronicled America during the gravest moments of the nineteenth century.

Bristol is a major city and port in the south-west of England. In medieval times, it became the third largest city in the kingdom, behind London and York. Bristol was founded in the late Saxon period and grew rapidly in the 12th and 13th centuries. Initially, seaborne trading links with Ireland and France were particularly significant; later, from the 16th century onwards, the city became a focus for trade with Iberia, Africa, and the New World. This led to the growth of new industries such as brass manufacture, glass production and sugar refining, producing items for export, and processing imported raw materials. Bristol also derived wealth from the slave trade between Africa and the New World. The city has a long history of antiquarian and archaeological investigation. This volume provides, for the first time, a comprehensive overview of the historical development of Bristol, based on archaeological and architectural evidence. Part 1 describes the geological

and topographical context of Bristol and discusses evidence for the environment prior to the foundation of the city. The history of archaeological work in Bristol is discussed in detail, as is the pictorial record and the cartographic evidence for the city. In Part 2, a series of period-based chapters considers the historical background and archaeological evidence for Bristol's development from the prehistoric, Roman, and post-Roman eras through the establishment and growth of Bristol between about 950 and 1200 AD; the medieval city; early modern period; and the period from 1700 to 1900 AD, when Bristol was particularly important for its role in transatlantic trade. Each chapter discusses the major civic, military, and religious monuments of the time and the complex topographical evolution of the city. Part 3 assesses the significance of Bristol's archaeology and presents a range of themes for future research.
