Teachers, parents, students and the governmental agencies are involved in the process of education. The social levels from whom teachers and students come go to determine the quality of education. The process like the community from whom the teachers come and the communities from whom the students can go a long way in influencing the curriculum contents and the outcome of learning. The major problem of any system of education is the outcome of learning after students learn the curriculum and go back to their home as trained citizens of a civilized society. The book has in its contents much to help and guide the students to choose any one of the professional alternatives to decide the direction of their careers. This book, thus, provides many educational ideas for both teachers and students, and as such, this

book is a must for all educational institutions and interested persons as well. This unique book is an incomparable title for today's educational researchers and will prove to be insightful with the continuing studies in sociology of education and sociology and education.

Corporate Accounting for B.Com. (Hons.), 2nd Edition Vikas Publishing House

This book has been written specifically for the students of BCom (Hons) of the University of Delhi in accordance with its prescribed syllabus and that of School of Open Learning. Its basic features are the same as the mother book Cost Accounting—Principles and Practice, which is a UGC recommended text for the last many years. Thus, it gives a thorough grounding in cost concepts, cost behaviour, and costing methods.

The subject matter has been organized on 'first things first' basis to sustain the interest of the students. Every discussion involving conceptual difficulties is immediately followed by a numerical example.

Business Laws (For B. Com. (Hons), Sem-I, University of Delhi), 4th Edition Vikas Publishing House

This book has been specially designed to help the students and readers to understand and get acquainted with practical application of each topic. This book adopts the approach/s for solving the problems as mentioned in the syllabus. A large number of problems have been solved, keeping in view the difficulties encountered by the students in understanding the subject. Problems have been framed to suit the requirements of the examinations keeping in view the trend followed. Hence simple, brief yet difficult problems expected in the subject and the level of knowledge expected of the students has been kept in mind while framing the problems. KEY FEATURES • Content has been developed according to the syllabus requirements • The units are written in simple language • Numerous illustrations, examples and case studies for better understanding of concepts • Chapter end questions for practice
