In his thriller stories Poe tries to show psychic side of the crime from the inside. He is not interested in social roots of the crime, but in unmotivated actions that go beyond normal behavior of a person in the society. Nevertheless, in a series of stories while describing the acts committed by characters under influence of "contradiction demon" or "perversion demon", Poe puts in rational reasons. For example, the character from the story *The Black Cat* understands that his brain is poisoned with alcohol, and as a result his mental health and temper were injured. But this reasoning is too plain and trivial for the thriller. Narrating on behalf of the criminal, Poe brings actions under the control of contradiction demon. Combination of plans puts volume to the stories the events are at the same time rational and not, motivated and incredibly paradoxical.

Font adjustments & biography included Unabridged (100% Original content) Illustrated About *The Murders in the Rue Morgue* by Edgar Allan Poe "The Murders in the Rue Morgue" is a story by Edgar Allan Poe. It has been recognized as the first modern detective story; Poe referred to it as one of his "tales of ratiocination". Two works that share some similarities predate Poe's stories, including *Das Fräulein von Scuderi* (1819) by E. T. A. Hoffmann and *Zadig* by Voltaire. The story opens with a lengthy explanation of ratiocination. Dupin demonstrates his prowess by deducing his companion's thoughts as if through apparent supernatural power. The story then turns to the baffling double murder of Madame L'Esplanay and her daughter at their home in the Rue Morgue, a fictional street in Paris. According to newspaper accounts, the mother was found in a yard behind the house, with multiple broken bones and her throat so deeply cut that her head fell off when the body was moved. The daughter was found strangled to death and stuffed upside down into a chimney. The murders occurred in a fourth-floor room that was locked from the inside; on the floor were found a bloody straight razor, several bloody tufts of gray hair, and two bags of gold coins. Several witnesses reported hearing two voices at the time of the murder, one male and French, but disagreed on the language spoken by the other. The speech was unclear, and every witness admits that he does not know the language he claims to have heard.

Taking Edgar Allan Poe's 1841 "The Murders in the Rue Morgue" as an inaugural frame, Andrea Goulet traces shifting representations of violence, space, and nation in French crime fiction from serial novels of the 1860s to cyberpunk fictions today. She argues that the history of spatial sciences—geology, paleontology, cartography—helps elucidate the genre's fundamental tensions: between brutal murder and pure reason; historical past and reconstructive present; national identity and global networks. As the sciences underlying her analysis make extensive use of strata and grids, Goulet employs vertical and horizontal axes to orient and inform her close readings of crime novels. Vertically, crimes that take place underground subvert above-ground modernization, and national traumas of the past haunt present criminal spaces. Horizontally, abstract crime scene maps grapple with the sociological realities of crime, while postmodern networks of international data trafficking extend colonial anxieties of the French nation. Crime gangs in the catacombs of 1860s Paris. Dirt-digging detectives in coastal caves at the fin-de-siècle. Schizoid cartographers in global cyberspace. Crime fiction's sites of investigation have always exposed central rifts in France's national identity while signaling broader, enduring unease with violent disruptions to social order. Reading murder novels of the last 150 years in the context of shifting sciences, *Legacies of the Rue Morgue* provides a new spatial history of modern crime fiction.
