Tricky Little Hippo Macmillan Children's Books

A Finalist for the 2017 Nebula Award for Best Novella Sarah Gailey's wildfire debut *River of Teeth* is a rollicking alternate history adventure that Charlie Jane Anders calls "preposterously fun." In the early 20th Century, the United States government concocted a plan to import hippopotamuses into the marshlands

of Louisiana to be bred and slaughtered as an alternative meat source. This is true. Other true things about hippos: they are savage, they are fast, and their jaws can snap a man in two. This was a terrible plan. Contained within this volume is an 1890s America that might have been: a bayou overrun by feral hippos and mercenary hippo wranglers from around the globe. It is the story of Winslow Houndstooth and his crew. It is the story of their fortunes. It is the story of his revenge. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
