The City of Ember Solution Tree Press Research shows that vocabulary is the best support for students' comprehension of narrative and information texts. Often, vocabulary instruction focuses on a few target words in specific texts. However, to understand the many new words in complex texts students need to know how words work. This book, written by an award-winning authority on reading instruction, shows teachers how to make small changes to teach more words and also how words work. Many of these small changes involve enrichments to existing vocabulary practices, such as word walls and conversations with students. Each chapter includes descriptions of teachers' implementation of small changes to support big gains in students'

vocabulary. This book, which has sufficient depth in research and theory for graduate and undergraduate courses in vocabulary instruction, also offers practical steps that K-8 teachers can use in any reading program to help all students grow their vocabulary. *Teaching Words and How They Work* shows teachers how to: Identify the most important word families to teach. Teach students to use opening text as background knowledge for comprehending the rest of the text. Use word walls with more purpose and greater student engagement. Select the right words to teach from new information texts. Better understand limitations of leveled texts and how to adjust. Use assets and address challenges to support English learners.

Mnemonics is an age-old technique for remembering names, numbers, and many other things. In *Spanish Memory Book, Junior Edition*, William Harrison

and Dorothy Welker offer original mnemonic rimes appropriate in subject matter and skill level for junior high and high school students to help them acquire and remember Spanish vocabulary. Included are mnemonic jingles for several hundred of the 2,000 most commonly used Spanish words. Each jingle contains both the sound of the Spanish word and its English meaning. The authors have also included a general pronunciation guide to Spanish vowels and consonants. This innovative approach, which the authors have used successfully with their own students, is simple, effective, and entertaining. In the words of one student, "This book teaches me not only Spanish words but English words as well."

What the Night Sings Manik Joshi
NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening

and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an

unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.
