Dictionary of the Social Sciences OUP Oxford

6. Peoples of China

Dictionary of the Politics of the People's Republic of China University of Chicago Press

The present publication is an up-to-date, authentic and comprehensive dictionary of political science, which recognises that political science is a field in its own right, and with its own language, and that terms and their definitions are important for professionals and students of political science. It aims to provide clear, concise, and correct definitions and descriptions of the terms used in political science. This work is designed to be a comprehensive reference tool for political science professionals, students and laymen interested in political science. It is earnestly hoped that it will be an authoritative source to which one can turn with confidence for meaning and knowledge of the common, specialised and latest terms in political science and allied fields. *Blackwell Dictionary of Political Science* Penguin Group

Hyperpolitics is an appealing book in print format that is enhanced by an interactive Web version . Calise (Univ. of Naples Federico II) and Lowi (Cornell Univ.) define a hyperdictionary as a dictionary that uses a "method for unpacking a dense concept by separating out its components ... a method of concept analysis." Hyperpolitics provides an innovative way of defining political science topics. It is a dictionary, so readers can look up concepts that are organized in alphabetical order. Using the Web site, users can also, for instance, move from a definition to its "Sources"--"summaries from other dictionaries and online bibliographical sources." The 67 terms are divided into main concepts, short entries, and cross-entries. The 18 main subjects include terms like "citizen," "law," and "pluralism." The 17 short entries cover subjects such as "choice," "majority," and "participation." Finally, the 32 cross-entries feature concepts like "class," "conflict," and "democracy," with matrices linking them to other concepts. The book is very visual, which should appeal to students. However, the matrices lend themselves very naturally to the Web, where many readers will find additional value. The Web site includes a users' guide. Summing Up: Recommended. Lower-division

undergraduates through researchers/faculty. Lower-division Undergraduates; Upper-division Undergraduates; Graduate Students; Researchers/Faculty. Reviewed by K. N. Djorup.
The Penguin Dictionary of International Relations Wiley-Blackwell
A consistent best-seller, the wide-ranging and authoritative Dictionary of Sociology was first published in 1994 and contains

more than 2,500 entries on the terminology, methods, concepts, and thinkers in the field, as well as from the related fields of psychology, economics, anthropology, philosophy, and political science. For this fourth edition, Professor John Scott has conducted a thorough review of all entries to ensure that they are concise, focused, and up to date. Revisions reflect current

intellectual debates and social conditions, particularly in relation to global and multi-cultural issues. New entries cover relevant contemporary concepts, such as climate change, social media, terrorism, and intersectionality, as well as key living sociologists. This Dictionary is both an invaluable introduction to sociology for beginners, and an essential source of reference for more advanced students and teachers.
