BAUDOLINO gravita em torno dos prazeres da corte de Federico Hohenstaufen, conhecido como Barbarossa, à época da Terceira Cruzada. A história engloba justamente o período entre 1152 e 1204, começando com a ascensão de Barbarossa ao trono e terminando com a conquista de Constantinopla pela temida ordem dos cavaleiros templários. A trama é protagonizada por Baudolino - adolescente, criativo e mentiroso que dá título à obra - e Niceta Coniate, personagem inspirado em um historiador e orador que viveu na corte de Constantinopla. A narrativa retrocede, enquanto Baudolino conta a Niceta suas aventuras e desventuras, numa mistura de fantasia e

realidade, História e faz-de-conta. Tudo isso temperado por inúmeras situações cômicas. No intervalo, Eco embaralha os seus personagens inventados e produz o mais recorrente efeito de seu texto: interferir em acontecimentos históricos conhecidos por meio de atos ou circunstâncias vividas pelos personagens fictícios.

The brilliant contributions of Islam to science, art, and culture, are a timeless and precious heritage, which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely if at all acknowledged in formal education, and today their identity, origins and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models, and institutions, etc.

A gripping behind-the-scenes account of the dramatic legal fight to hold leaders personally responsible for aggressive war On July 17, 2018, starting an unjust war became a prosecutable international crime alongside genocide, crimes against humanity, and war crimes. Instead of collective state responsibility, our leaders are now personally subject to indictment for crimes of aggression, from invasions and preemptions to drone strikes and cyberattacks. The Crime of Aggression is Noah Weisbord's riveting insider's account of the high-stakes legal fight to enact this historic legislation and hold politicians accountable for the wars they start. Weisbord, a key drafter of the law for the International Criminal Court, takes readers behind the scenes of one of the most consequential legal dramas in modern international diplomacy. Drawing on in-depth interviews and

his own invaluable insights, he sheds critical light on the motivations of the prosecutors, diplomats, and military strategists who championed the fledgling prohibition on unjust war--and those who tried to sink it. He untangles the complex history behind the measure, tracing how the crime of aggression was born at the Nuremberg trials only to fall dormant during the Cold War, and he draws lessons from such pivotal events as the collapse of the League of Nations, the rise of the United Nations, September 11, and the war on terror. The power to try leaders for unjust war holds untold promise for the international order, but also great risk. In this incisive and vitally important book, Weisbord explains how judges in such cases can balance the imperatives of justice and peace, and how the fair prosecution of aggression can humanize modern statecraft.

From the fall of Constantinople in 1453 until the eighteenth century, many Western European writers viewed the Ottoman Empire with almost obsessive interest. Typically they reacted to it with fear and distrust; and such feelings were reinforced by the deep hostility of Western Christendom towards Islam. Yet there was also much curiosity about the social and political system on which the huge power of the sultans was based. In the sixteenth century, especially, when Ottoman territorial expansion was rapid and Ottoman institutions seemed particularly robust, there was even open admiration. In this path-breaking book Noel Malcolm ranges through these vital centuries of East-West interaction, studying all the ways in which thinkers in the West interpreted the Ottoman Empire as a political phenomenon - and Islam as a political religion. Useful Enemies shows how the concept of 'oriental despotism' began as an attempt to turn the tables on a very positive analysis of Ottoman state power, and how, as it developed, it interacted with Western debates about monarchy and government. Noel Malcolm also shows how a negative portrayal of Islam as a religion devised for political purposes was assimilated by radical writers, who extended the criticism to all religions, including Christianity itself. Examining the works of many famous thinkers (including Machiavelli, Bodin, and Montesquieu) and many less well-known ones, Useful Enemies illuminates the long-term development of Western ideas about the Ottomans, and about Islam. Noel Malcolm shows how these ideas became intertwined with internal Western debates about power, religion, society, and war. Discussions of Islam and the Ottoman Empire were thus bound up with mainstream thinking in the West on a wide range of important topics. These Eastern enemies were not just there to be denounced. They were there to be made use of, in arguments which contributed significantly to the development of Western political thought.

Commissioned by the International Ombudsman Institute (IOI), the Ludwig Boltzmann Institute of Human Rights (BIM) in Vienna conducted a comparative analytical study on Ombudsman Institutions

in the Australasia and Pacific region between January 2011 and April 2012. In Part 1, this book provides an analytical comparison of the public sector Ombudsman Institutions in Australia (the Commonwealth Ombudsman and the state/territory Ombudsmen of all Australian states as well as of the Northern Territory and the ACT), the Cook Islands, Hong Kong, New Zealand, Papua New Guinea, Samoa, Taiwan, Tonga and Vanuatu. In addition to a comparative analysis showing the partial heterogeneity of the Institutions, a comprehensive overview of common features, and explorations of the specifics and peculiarities of the Institutions, Part 2 presents separate reports on the 16 different jurisdictions featuring their main functions as follows: - Legal basis, legal status and organisation, - Mandate, object of control and standard of control, - Powers, including legal quality and impact of the outcomes of investigative procedures, - Relationship to the administration, the judiciary and the legislator, and - Special characteristics. Part 2 is based on information provided by the Institutions themselves in questionnaires sent out at the outset of the study, an analysis of the respective establishing acts and other relevant laws, and on relevant scientific publications and the Institutions' Annual Reports. The reports also refer to relevant legal provisions and include websites addresses for ease of reference.

From Ismail Kadare, winner of the inaugural Man Booker International Prize - a novelist in the class of Coetzee, Pamuk, Márquez, and Rushdie - the stunning new translation of one of his major works. In the early fifteenth century, as winter falls away, the people of Albania know that their fate is sealed. They have refused to negotiate with the Ottoman Empire, and war is now inevitable. Soon enough, dust kicked up by Turkish horses is spotted from a citadel. Brightly coloured banners, hastily constructed minarets, and tens of thousands of men fill the plain below. From this moment on, the world is waiting to hear that the fortress has fallen. The Siege tells the enthralling story of the weeks and months that follow - of the exhilaration and despair of the battlefield, the constantly shifting strategies of war, and those whose lives are held in the balance, from the Pasha himself to the artillerymen, astrologer, blind poet, and harem of women who accompany him. "Believe me," the general said. "I've taken part in many sieges but this," he waved towards the castle walls, "is where the most fearful carnage of our times will take place. And you surely know as well as I do that great massacres always give birth to great books. You really do have an opportunity to write a thundering chronicle redolent with pitch and blood, and it will be utterly different from the graceful whines composed at the fireside by squealers who never went to war." Brilliantly vivid, as insightful as it is compelling, The Siege is an unforgettable account of the clash of two great civilisations, and a portrait of war that will resonate across the centuries.

"THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament." "It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor."--David Binder, The New York Times. "This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg." "The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression."--Victor Meier, The Frankfurter Allgemeine Zeitung. "The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice." "The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life."--Ismail Kadare, Albanian writer.

"Distinguished in the market by its ability to mesh accessibility and intellectual rigor, *How to Interpret Literature* offers a current, concise, and broad historicist survey of contemporary thinking in critical theory. Ideal for upper-level undergraduate courses in literary and critical theory, this is the only book of its kind that thoroughly merges literary studies with cultural studies, including film. Robert Dale Parker provides a critical look at the major movements in literary studies since the 1930s, including those often omitted from other texts. He includes chapters on New Criticism, Structuralism, Deconstruction, Psychoanalysis, Feminism, Queer Studies, Marxism, Historicism and Cultural Studies, Postcolonial and Race Studies, and Reader Response. Parker weaves connections among chapters, showing how these different ways of thinking respond to and build upon each other. Through these exchanges, he prepares students to join contemporary dialogues in literary and cultural studies. The text is enhanced by charts, text boxes that address frequently asked questions, photos, and a bibliography"--
