*A Century of British Support for Zionism and Israel* Edward Elgar Publishing

Using formerly secret government documents and independent sources, this historical study argues for a radically revised understanding of Post-war British foreign policy. Dr Curtis shows that, contrary to the impression usually conveyed by both academic writing and press coverage, British policy, in both intention and effect, had been far removed from the principles it has conventionally been assumed to be based upon: the pursuit of peace, the promotion of democracy and human rights, and the relief of poverty. The book covers the whole of the post-war period. It examines British foreign policy planners' aims and interventions in a host of Third World countries, as well as looking at the special relationship with the United States. The study is

brought up to date with an examination of the war against Iraq, policy towards Indonesia/East Timor and Britain's role in the new Pax Americana.

Granta Books

A best-selling account describes the intelligence operations of allied forces during World War II as experienced by wounded RAF pilot Roald Dahl, a patriot who infiltrated the upper reaches of Georgetown society and worked with such figures as Churchill, Roosevelt, and spy chief William Stephenson to influence U.S. policy in favor of England. Reprint.

Keenie Meenie Vintage

A sweeping overview of world affairs and, especially having come across the name of William Yandell Elliott, Professor of Politics at Harvard through the first half of the 20th century. Sean found that Elliott had created a kindergarten of Anglo-American imperialists amongst his students, who included Henry Kissinger, Zbigniew Brzezinski, Samuel P. Huntington, and McGeorge Bundy. Upon further investigation, Sean came to understand Elliott's own

integral role, connecting the modern national-security establishment with the British Round Table Movement's design to re-incorporate America into the British 'empire'. Whether that goal was achieved will be left to the reader to decide. However, it cannot be denied that W.Y. Elliott's life and intellectual history serves to demonstrate the interlocking relationship between academia, government, and big business.

How Social Media Is Reshaping Conflict in the Twenty-First Century Pluto Press (UK)

Are all film stars linked to Kevin Bacon? Why do the stock markets rise and fall sharply on the strength of a vague rumour? How does gossip spread so quickly? Are we all related through six degrees of separation? There is a growing awareness of the complex networks that pervade modern society. We see them in the rapid growth of the Internet, the ease of global communication, the swift spread of news and information, and in the way epidemics and financial crises develop with startling speed and intensity. This introductory book on the new science of networks takes an interdisciplinary approach, using economics, sociology, computing, information science and applied mathematics to address fundamental questions about the links that connect us, and the ways that our decisions can have consequences for others.

Future Imperfect? Beyond Pale Publications

In 1889, the first Official Secrets Act was passed, creating offences of 'disclosure of information' and 'breach of official trust'. It limited and monitored what the public could, and should, be told. Since then a culture of secrecy has flourished. As successive governments have been selective about what they

choose to share with the public, we have been left with a distorted and incomplete understanding not only of the workings of the state but of our nation's culture and its past. In this important book, Ian Cobain offers a fresh appraisal of some of the key moments in British history since the end of WWII, including: the measures taken to conceal the existence of Bletchley Park and its successor, GCHQ, for three decades; the unreported wars fought during the 1960s and 1970s; the hidden links with terrorist cells during the Troubles; the sometimes opaque workings of the criminal justice system; the state's peacetime surveillance techniques; and the convenient loopholes in the Freedom of Information Act. Drawing on previously unseen material and rigorous research, *The History Thieves* reveals how a complex bureaucratic machine has grown up around the British state, allowing governments to evade accountability and their secrets to be buried.

How and Why Corporate Media Distort Reality Simon and Schuster

*UVF: Behind the Mask* is the gripping new history of the Ulster Volunteer Force from its post-1965 incarnation to the present day. Aaron Edwards blends rigorous research with unprecedented access to leading members of the UVF to unearth the startling inner-workings of one of the world's oldest and most ruthless paramilitary groups. Through interviews with high-profile UVF leaders, such as Billy Mitchell, David Ervine, Billy Wright, Billy Hutchinson and Gary Haggarty, as well as their loyalist rivals including Johnny Adair, Edwards reveals the grisly details behind their sadistic torture and murder techniques and their litany of high-profile atrocities: McGurk's Bar, the Dublin and Monaghan

bombings, the Miami Showband massacre and the Shankill Butchers' serial-killing spree, amongst others. Edwards' life and career has led him to the centre of the UVF's long, dark underbelly; in this defining work he offers a comprehensive and authoritative study of an armed group that continues to play a pivotal role in Northern Irish society.

Collusion, Conspiracy & Cover-up in Northern Ireland Serpent's Tail

From the author of New York Times bestseller MEGHAN comes a scandalous historical drama about the secrets hidden between the royal family, Franklin D. Roosevelt, Winston Churchill, the Duke of Windsor, and Adolf Hitler before, during, and after World War II. Andrew Morton tells the story of the feckless Edward VIII, later Duke of Windsor, his American wife, Wallis Simpson, the bizarre wartime Nazi plot to make him a puppet king after the invasion of Britain, and the attempted cover-up by Churchill, General Eisenhower, and King George VI of the duke's relations with Hitler. From the alleged affair between Simpson and the German foreign minister to the discovery of top secret correspondence about the man dubbed "the traitor king" and the Nazi high command, this is a saga of intrigue, betrayal, and deception suffused with a heady aroma of sex and suspicion. For the first time, Morton reveals the full story behind the cover-up of those damning letters and diagrams: the daring heist ordered by King George VI, the smooth duplicity of a Soviet spy as well as the bitter rows and recriminations among the British and American diplomats, politicians, and academics. Drawing on FBI documents, exclusive pictures, and material from the German, Russian, and British royal archives, as well as the personal

correspondence of Churchill, Eisenhower, and the Windsors themselves, 17 CARNATIONS is a dazzling historical drama, full of adventure, intrigue, and startling revelations, written by a master of the genre.

*Agents of Influence* Grand Central Publishing

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

**Roald Dahl and the British Spy Ring in Wartime**  
Washington Basic Books

Hempher, only one of the thousands of male and female agents

employed and sent forth to all countries by this ministry, entrapped a person named Muhammad of Najd in Basra, misled him for several years, and caused him to establish the sect called Wahhabi in 1125 [1713 A.D.]. They announced this sect in 1150. Hempher is a British missionary who was assigned the task of carrying on espionage activities in Egypt, Iraq, Iran, Hijaz and in Istanbul, the center of the (Islamic) caliphate, misleading Muslims and serving Christianity, by means of the Ministry of British Commonwealth of Nations.

#### **UVF Secret Affairs** Britain's Collusion with Radical Islam

This updated edition of Secret Affairs covers the momentous events of the past year in the Middle East and at home in the UK. It reveals the unreported attempts by Britain to cultivate relations with the Muslim Brotherhood in Egypt after the fall of Mubarak, the military intervention on the side of Libyan rebel forces which include pro-al-Qaeda elements, and the ongoing reliance on the region's ultimate fundamentalist state, Saudi Arabia, to safeguard its interest in the Middle East. It illuminates path of Salman Abedi, the bomber who attacked Manchester in May 2017, and his terror network: how he fought in Libya in 2011 as part of a group of fighters which the UK allowed to leave the country to go and battle against Gaddafi to topple him. In this ground-breaking book, Mark Curtis reveals the covert history of British collusion with radical Islamic and terrorist groups. Secret Affairs shows how governments since the 1940s have connived with militant forces to control oil resources and overthrow governments. The story of how Britain has helped nurture the rise of global terrorism has never been told.

NEW YORK TIMES BESTSELLER • “Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for How Democracies Die “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so,

they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

Get a practical introduction to React Native, the JavaScript framework for writing and deploying fully featured mobile apps that render natively. The second edition of this hands-on guide shows you how to build applications that target iOS, Android, and other mobile platforms instead of browsers—apps that can access platform features such as the camera, user location, and local storage. Through code examples and step-by-step instructions, web developers and frontend engineers familiar with React will learn how to build and style interfaces, use mobile components, and debug and deploy apps. You’ll learn how to extend React Native using third-party libraries or your own Java and Objective-C libraries. Understand how React Native works under the hood with native UI components Examine how React Native’s mobile-based components compare to basic HTML elements Create and style your own React Native components and applications Take

advantage of platform-specific APIs, as well as modules from the framework’s community Incorporate platform-specific components into cross-platform apps Learn common pitfalls of React Native development, and tools for dealing with them Combine a large application’s many screens into a cohesive UX Handle state management in a large app with the Redux library  
**The British Mercenaries Who Got Away with War Crimes** "O'Reilly Media, Inc."

Although most Americans paid little attention to Cambodia during Dwight D. Eisenhower's presidency, the nation's proximity to China and the global ideological struggle with the Soviet Union guaranteed US vigilance throughout Southeast Asia. Cambodia's leader, Norodom Sihanouk, refused to take sides in the Cold War, a policy that disturbed US officials. From 1953 to 1961, his government avoided the political and military crises of neighboring Laos and South Vietnam. However, relations between Cambodia and the United States suffered a blow in 1959 when Sihanouk discovered CIA involvement in a plot to overthrow him. The coup, supported by South Vietnam and Thailand, was a failure that succeeded only in increasing Sihanouk's power and prestige, presenting new foreign policy challenges in the region. In *Eisenhower and Cambodia*, William J. Rust examines the United States' efforts to lure Cambodia from neutrality to alliance. He conclusively demonstrates that, as with Laos in 1958 and 1960, covert intervention in the internal political affairs of neutral Cambodia proved to be a counterproductive tactic for advancing the United States' anticommunist goals. Drawing on recently declassified sources, Rust skillfully traces the impact of "plausible deniability" on the formulation and execution of foreign policy.

His meticulous study not only reveals a neglected chapter in Cold War history but also illuminates the intellectual and political origins of US strategy in Vietnam and the often-hidden influence of intelligence operations in foreign affairs.

**Secret Affairs** Pluto Press (UK)

A leading foreign correspondent looks at how social media has transformed the modern battlefield, and how wars are fought. Modern warfare is a war of narratives, where bullets are fired both physically and virtually. Whether you are a president or a terrorist, if you don't understand how to deploy the power of social media effectively you may win the odd battle but you will lose a twenty-first century war. Here, journalist David Patrikarakos draws on unprecedented access to key players to provide a new narrative for modern warfare. He travels thousands of miles across continents to meet a de-radicalized female member of ISIS recruited via Skype, a liberal Russian in Siberia who takes a job manufacturing "Ukrainian" news, and many others to explore the way social media has transformed the way we fight, win, and consume wars-and what this means for the world going forward.

*Both/And* Macmillan

This meticulously researched book uses previously secret official documents to explore the tangled web of relationships between the top echelons of the British establishment, incl Cabinet ministers, senior civil servants, police/military officers and intelligence services with loyalist paramilitaries of the UDA & UVF throughout the 1970s and early 1980s. Covert British Army units, mass sectarian screening, propaganda 'dirty tricks,' arming sectarian killers and a point-blank refusal over the worst two

decades of the conflict, to outlaw the largest loyalist killer gang in Northern Ireland. It shows how tactics such as curfew and internment were imposed on the nationalist population in Northern Ireland and how London misled the European Commission over internment's one-sided nature. It focuses particularly on the British Government's refusal to proscribe the UDA for two decades - probably the most serious abdication of the rule of law in the entire conflict. Previously classified documents show a clear pattern of official denial, at the highest levels of government, of the extent and impact of the loyalist assassination campaign.

*Agents of Influence* Houghton Mifflin Harcourt

DEVIL'S GAME is the first comprehensive account of America's misguided efforts, stretching across decades, to dominate the strategically vital Middle East by courting and cultivating Islamic fundamentalism. Drawing on extensive archival research and interviews with dozens of policy makers and CIA, Pentagon and foreign service officials, Dreyfuss follows the trail of American collusion from support for the Muslim Brotherhood in 1950s Egypt, to links with Khomeini and Afghani jihadists, to longstanding ties between radical Islamists and leading Western banks.

*A Strategy of Imperialism* Merrion Press

The story of the rhetorical and practical assistance that Britain has given to the Zionist movement and the state of Israel since 1917.

**Twilight of the British Empire** Crown

Secret Affairs Britain's Collusion with Radical Islam *Serpent's Tail*  
*Soldiers of Reason* Merrion Press

The astonishing story of the British spies who set out to draw America into World War II As World War II raged into its second year, Britain sought a powerful ally to join its cause-but the American public was sharply divided on the subject. Canadian-born MI6 officer William Stephenson, with his knowledge and influence in North America, was chosen to change their minds by any means necessary. In this extraordinary tale of foreign influence on American shores, Henry Hemming shows how Stephenson came to New York--hiring Canadian staffers to keep his operations secret--and flooded the American market with

propaganda supporting Franklin Roosevelt and decrying Nazism. His chief opponent was Charles Lindbergh, an insurgent populist who campaigned under the slogan "America First" and had no interest in the war. This set up a shadow duel between Lindbergh and Stephenson, each trying to turn public opinion his way, with the lives of millions potentially on the line.

*The Unspoken Alliance* University Press of Kentucky Examines the causes of the financial crisis that began in 2008 and reveals the weaknesses found in financial regulation, excessive borrowing, and breaches in accountability.
