SAP R/3 Administration Espresso Tutorials GmbH

This book is an essential foundation for IT managers, technical consultants, and R/3 System administrators. With first-hand knowledge gathered from Global Support specialists working on the implementation of over 20,000 R/3 Systems, this book teaches you how to perform your daily system administration tasks with optimal efficiency. This book also helps to prepare you to qualify as a Certified Technical Consultant (CTC) for R/3 Release 4.6 and Enterprise.

Mastering SAP ABAP SAP PRESS

This book is your definitive guide to administering an SAP

BusinessObjects system. Whether you are a beginner just learning the ropes or an advanced user who wants a resource you can consult again and again, you will find everything you need to know about installing, maintaining, and troubleshooting the system landscape.

Sales and Distribution in SAP ERP Addison Wesley Longman

It is now possible to gain competitive advantages based on consolidated R/3 system implementations. One of the most important optimization aspects is a more consistent process integration in order to bring about fast, secure and cost effective business processes. This approach inevitably leads to Workflow Management and for SAP users to SAP® WebFlow®. This book introduces the topic of Workflow Management, gives an overview of the technical possibilities of SAP® WebFlow® and allows the reader to assess SAP workflow project risks and costs/benefits based on real life examples. Check lists and technical hints not only aid the reader in evaluating potential projects but also in the management of real life workflow project engineering.

SAP Administration--Practical Guide McGraw Hill Professional

"To keep SAP R/3 running exactly to your company's specifications, you need SAP R/3 For Dummies. You'll get help on everything - working in a three-tiered landscape, handling user authorizations, defining and scheduling operation modes, monitoring performance with the Computing Center Management System, systematic guidelines for protecting security, and more!"--BOOK JACKET. System Administration (SAP HANA as a Database) with SAP NetWeaver: SAP Certified Technology Associate These questions are similar to the ones asked in the actual Test. How should we

know? We know, because although we have been working as an SAP Basis and Hana for many years, we have recently certified with the latest version of the Certification test. Before you start here are some Key features of the Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of System Administration with SAP HANA as a Database. This certificate builds on basic consultant skills and experience that is then refined by practical experience during several projects. Candidates must also demonstrate understanding of Installation, System Administration for both AS ABAP and AS Java, Database Administration, Transport Management, System Monitoring and User Administration, among other things. The exam is Computer based and you have three hours to to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP Consulting World open for you to explore. Helping you with the first step on your ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other quality material in the market for this Certification exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 150 authentic questions, testing the exact same concepts that will be tested in Your exam!
