from the Heart In response to thousands of letters and e-mails from teachers across the country who learned about Erin Gruwell and her amazing students in *The Freedom Writers Diary* and the hit movie *Freedom Writers*, Gruwell and a team of teacher experts have written *The Freedom Writers Diary Teacher's Guide*, a book that will encourage teachers and students to expand the walls of their classrooms and think outside the box. Here Gruwell goes in depth and shares her unconventional but highly successful educational strategies and techniques (all 150 of her students, who had been deemed "unteachable," graduated from Wilson High School in Long Beach, California): from her very successful "toast for

change" (an exercise in which Gruwell exhorted her students to leave the past behind and start fresh) to writing exercises that focus on the importance of journal writing, vocabulary, and more. In an easy-to-use format with black-and-white illustrations, this teacher's guide will become the essential go-to manual for teachers who want to make a difference in their pupils' lives.

Writers: Stories from the Heart “These are the most influential professionals most of us will ever meet. The effects of their work will last forever.”—From the foreword by Anna Quindlen Now documented in a bestselling book, feature film, and public television documentary, the Freedom Writers phenomenon came about in 1994, when Erin Gruwell stepped into Room 203 and began her first teaching job out of college. Long Beach, California, was still reeling from the deadly violence that erupted during the Rodney King riots, and the kids in Erin’s classroom reflected the anger, resentment, and hopelessness of their community. Undaunted, Erin fostered an educational philosophy that valued and promoted diversity, tolerance, and communication, and in the process, she transformed her students’ lives, as well as her own. Erin Gruwell and the Freedom Writers went on to establish the Freedom Writers Foundation to replicate the success of Room 203 and provide all students with hope and opportunities to realize their academic potential. Since then, the foundation has trained more than 800 teachers around the world. Teaching Hope unites the voices of these

Freedom Writer Teachers, who share uplifting, devastating, and poignant stories from their classrooms, stories that provide insight into the struggles and triumphs of education in all of its forms. Mirroring an academic year, these dispatches from the front lines of education take us from the anticipation of the first day to the disillusionment, challenges, and triumphs of the school year. These are the voices of teachers who persevere in the face of intolerance, rigid administration, and countless other challenges, and continue to reach out and teach those who are deemed unteachable. Their stories inspire everyone to make a difference in the world around them.

A New History of Humanity Penguin
In Reading in the Wild, reading expert Donalyn Miller continues the conversation that began in her bestselling book, *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong “wild” reading habits in our students. Based, in part, on survey responses from adult readers as well as

students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of “wild” reading. “When the thrill of choice reading starts to fade, it’s time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures.” —Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* “With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids’ hands.” —Franki Sibberson, third-grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books*

"Reading in the Wild, along with the now legendary TheBook Whisperer, constitutes the complete guide to creating an stimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education."

When Wesley Boone writes a poem for his high school English class, some of his classmates clamor to read their poems aloud too. Soon they're having weekly poetry sessions and, one by one, the eighteen students are opening up and taking on the risky challenge of self-revelation. There's Lupe Alvarin, desperate to have a baby so she will feel loved. Raynard Patterson, hiding a secret behind his silence. Porscha Johnson, needing an outlet for her anger after her mother OD's. Through the poetry they share and narratives in which they reveal their most intimate thoughts about themselves and one another, their words and lives show what lies beneath the skin, behind the eyes, beyond the masquerade.

How the Other Half Lives Scholastic Inc. Launched in middle schools in the fall of 2005, the "Writers Matter" approach was designed to discover ways to improve the fit between actual English curricula, district/state standards and, more recently, the Common Core Curriculum Standards for writing instruction. Adapted from Erin Gruwell's successful Freedom Writers Program, "Writers Matter" develops students' skills in the context of personal growth, understanding others, and making broader connections to the world. Empowering Young Writers explains and expands on the practical aspects of the "Writers Matter" approach, emphasizing a focus on free expression and establishing connections between the curriculum and students' personal lives. Program creator Robert Vogel, and his co-authors offer proven ways to motivate adolescents to write, work diligently to improve their writing skills, and think more critically about the world. This comprehensive book will help teachers, administrators, and education students apply and reproduce the "Writers Matter" approach more broadly, which can have a profound impact on their students' lives

and social development.

The Dawn of Everything Crown

The saga of the Freedom Rides is an improbable, almost unbelievable story. In the course of six months in 1961, four hundred and fifty Freedom Riders expanded the realm of the possible in American politics, redefining the limits of dissent and setting the stage for the civil rights movement. In this new version of his encyclopedic Freedom Riders, Raymond Arsenault offers a significantly condensed and tautly written account. With characters and plot lines rivaling those of the most imaginative fiction, this is a tale of heroic sacrifice and unexpected triumph. Arsenault recounts how a group of volunteers--blacks and whites--came together to travel from Washington DC through the Deep South, defying Jim Crow laws in buses and terminals and putting their lives on the line for racial justice. News photographers captured the violence in Montgomery, shocking the nation and sparking a crisis in the Kennedy administration. Here are the key players--their fears and courage, their determination and second thoughts, and the agonizing choices they faced as they

took on Jim Crow--and triumphed. Winner of the Owsley Prize Publication is timed to coincide with the airing of the American Experience miniseries documenting the Freedom Rides "Arsenault brings vividly to life a defining moment in modern American history." --Eric Foner, The New York Times Book Review "Authoritative, compelling history." --William Grimes, The New York Times "For those interested in understanding 20th-century America, this is an essential book." --Roger Wilkins, Washington Post Book World "Arsenault's record of strategy sessions, church vigils, bloody assaults, mass arrests, political maneuverings and personal anguish captures the mood and the turmoil, the excitement and the confusion of the movement and the time." --Michael Kenney, The Boston Globe

An essential volume for generations of writers young and old, Bird by Bird is a modern classic. This twenty-fifth anniversary edition will continue to spark creative minds for years to come. For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne

Lamott's hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne's father—also a writer—in the iconic passage that gives the book its title: "Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he'd had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'"

The Power of Knowing What You Don't Know Versify

#1 New York Times Bestseller "THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In Think Again, Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the

world to actually change it. I've never felt so hopeful about what I don't know."
 —Brené Brown, Ph.D., #1 New York Times bestselling author of *Dare to Lead* The bestselling author of *Give and Take* and *Originals* examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and

politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of *Originals* and *Give and Take*, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. *Think Again* reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let

go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

1961 and the Struggle for Racial Justice SAGE

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history

today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Originally performed for ESPN's *The Undeclared*, this poem is a love letter to black life in the United States. It highlights the unspeakable trauma of slavery, the faith and fire of the civil rights movement, and the grit, passion, and perseverance of some of the world's greatest heroes. The text is also peppered with references to the words of Martin Luther King, Jr., Langston Hughes, Gwendolyn Brooks, and others, offering deeper insights into the accomplishments of the past, while bringing stark attention to the endurance and spirit of those surviving and thriving in the present. Robust back matter at the end provides valuable historical context and additional detail for those wishing to learn more.

This book is motivated by our experiences in working with students and their families in urban communities. We are particularly

concerned about the urgent imperative to address the endemic educational and societal challenges that pervade the lives of urban students, particularly those who live in poverty, are of minority and immigrant backgrounds, and are otherwise marginalized within the current educational discourses and practices. In spite of the fact that over the last 3 decades policy makers, educators and communities across the globe have called for in depth structural changes, this is rarely evidenced in the discourses, practices, and structures within academic

and practitioner spheres. This reluctance, despite articulations to the contrary, can be directly linked to normative theoretical and practical perspectives that are defined by assumptions that constrain urban students within restrictive boundaries. These narrow outsider worldviews based on notions of what ought to be, combined with ignorance of the realities of students' lives focus on deviance and deficits. They blind prospective change agents to the strengths and richness that students bring, and they delimit the transformative potential of social justice praxis within

urban environments. The resulting discourse, in the form of deficit beliefs, thoughts, actions, and dialogues shapes urban research, theory, and practice. We contend that in order to counteract the debilitating impacts of these harmful constructions of urban and social justice, it is important to clarify this terminology.
