JADA BAILEE

Hobson-Jobson Simon and Schuster
THE GHATOTKACHA GAME: MARKETING LESSONS FROM MYTHOLOGY Are there any? Would it be a stretch to connect the dots, to learn from stories of yore, from characters that have been chiselled and enhanced across centuries? A marketer seeks inspiration from all possible sources,

including ones that are clearly outliers! Let us take one particular character from the Mahabharata. Ghatotkacha is a very powerful character in Indian mythology. Everything from Ghatotkacha's birth to his death is a game. Does he play different games, or is he a part of one himself? After reading this book, ask yourself: did Ghatotkacha play games, or did he participate in the success of a bigger game? As a marketer, what can I learn from his

life? What can I implement and what can I share? Marketing. Mythology. And the many messages therein.

Scientific Basis for Ayurvedic Therapies

Penguin

Hobson-Jobson is a unique lexicon of British India. Part dictionary, part encyclopedia it shows how words of Indian origin entered the English language and offers insight into Victorian views of Asia and the way cultures transform one another. Quirky and entertaining, this selected

edition includes a fascinating introduction and notes. Wings of Fire IOS Press Written specifically for students with no previous experience of research and research methodology, the Third Edition of *Research Methodology* breaks the process of designing and doing a research project into eight manageable steps and provides plenty of examples throughout to link theory to the practice of doing research. The book contains straightforward, practical

guidance on: - Formulating a research question - Ethical considerations - Carrying out a literature review - Choosing a research design - Selecting a sample - Collecting and analysing qualitative and quantitative data - Writing a research report The third edition has been revised and updated to include extended coverage of qualitative research methods in addition to the existing comprehensive coverage of quantitative methods. There are also brand new

learning features such as reflective questions throughout the text to help students consolidate their knowledge. The book is essential reading for undergraduate and postgraduate students in the social sciences embarking on qualitative or quantitative research projects. *Research Methodology* Newnes Mastering Cloud Computing is designed for undergraduate students learning to develop cloud computing applications. Tomorrow's applications

won't live on a single computer but will be deployed from and reside on a virtual server, accessible anywhere, any time. Tomorrow's application developers need to understand the requirements of building apps for these virtual systems, including concurrent programming, high-performance computing, and data-intensive systems. The book introduces the principles of distributed and parallel computing underlying cloud architectures and

specifically focuses on virtualization, thread programming, task programming, and map-reduce programming. There are examples demonstrating all of these and more, with exercises and labs throughout. Explains how to make design choices and tradeoffs to consider when building applications to run in a virtual cloud environment. Real-world case studies include scientific, business, and energy-efficiency considerations. Energy Humanities Nirali

'Kalki' R. Krishnamurthy, one of the pioneering giants of the Tamil press in the tumultuous times of the nationalist movement, was a versatile and prolific writer, inscribing the urgencies of his time in his fiction. This collection brings together the best of Kalki's short stories, which contain some of his most colourful and enduring characters and themes of Tamil

popular fiction of the nineteen thirties and forties. There is in these stories the heady urgency of the freedom struggle, the piquant humour of the parodied Tamil gothic and devastating social satire. In her sensitive translations, Gowri Ramnarayan has succeeded in capturing the nuances of the gently mordant wit that made Kalki's stories the highlight of the magazines they were originally published in, creating for themselves a dedicated following that flourishes

undiminished to this day. Coinciding with the centenary of Kalki's birth, this volume is a well-deserved tribute to a writer whose breadth of vision and genius imagined and served a new India.

'A Khushwant Singh short story is not flamboyant but modest, restrained, well-crafted...Perhaps his greatest gift as a writer is a wonderful particularity of description'—London Magazine Khushwant

Singh first established his reputation as a writer through the short story. His stories—wry, poignant, erotic and, above all, human—bear testimony to Khushwant Singh's remarkable range and his ability to create an unforgettable PBI - World. Spanning over half a century, this volume contains all the short stories Khushwant Singh has ever written, including the delightfully tongue-in-cheek 'The Maharani of Chootiapuram', written in 2008. 'Khushwant's

stories enthrall...[He has]an ability akin to that of Somerset Maugham...the ability to entertain intelligently’—PBI - India Today ‘His stories are better than [those of] any PBI - Indian writing in English—Times of PBI - India ‘The Collected Short Stories leaves the reader in a delightful, inebriated trance’—Sunday Chronicle ‘He is not an ordinary short story writer...[Collected Stories] is delightful reading’—Hindustan Times

Mathematics plays a vital role in every field of our daily life. It is a field where guesses will not work. MATHEMATICS Simplified has been specially created for students who are preparing for various competitive examinations like GMAT, CAT, NDA, CDS, banking, etc. It has been written to understand the tricks of problem solving in a better way. There are many comprehensive questions with sufficient examples – from a

beginner to an advanced level. A question bank, with most of the questions drawn from different examinations papers, has been specially designed for thorough practice and better understanding of the subject.

Data Structures and Algorithms in Java

Columbia University Press
This book comprises the select proceedings of the International Conference on Materials, Design and Manufacturing for Sustainable Environment (ICMDMSE 2020). The primary focus is on

emerging materials and cutting-edge manufacturing technologies for sustainable environment. The book covers a wide range of topics such as advanced materials, vibration, tribology, finite element method (FEM), heat transfer, fluid mechanics, energy engineering, additive manufacturing, robotics and automation, automobile engineering, industry 4.0, MEMS and nanotechnology, optimization techniques, condition monitoring, and

new paradigms in technology management. Contents of this book will be useful to students, researchers, and practitioners alike.

The Portrait of a Lady

JHU Press

The culmination and completion of Margaret Laurence's celebrated Manawaka cycle, *The Diviners* is an epic novel. This is the powerful story of an independent woman who refuses to abandon her search for love. For Morag Gunn, growing up in a small Canadian prairie town is a

toughening process – putting distance between herself and a world that wanted no part of her. But in time, the aloneness that had once been forced upon her becomes a precious right – relinquished only in her overwhelming need for love. Again and again, Morag is forced to test her strength against the world – and finally achieves the life she had determined would be hers. *The Diviners* has been acclaimed by many critics as the outstanding achievement of Margaret

Laurence's writing career. In *Morag Gunn*, Laurence has created a figure whose experience emerges as that of all dispossessed people in search of their birthright, and one who survives as an inspirational symbol of courage and endurance. *The Diviners* received the Governor General's Award for Fiction for 1974. [Guide to Indian Periodical Literature](#) Penguin UK
The design and analysis of efficient data structures has long been recognized as a key component of the Computer Science

curriculum. Goodrich, Tomassia and Goldwasser's approach to this classic topic is based on the object-oriented paradigm as the framework of choice for the design of data structures. For each ADT presented in the text, the authors provide an associated Java interface. Concrete data structures realizing the ADTs are provided as Java classes implementing the interfaces. The Java code implementing fundamental data structures in this book is

organized in a single Java package, `net.datastructures`. This package forms a coherent library of data structures and algorithms in Java specifically designed for educational purposes in a way that is complimentary with the Java Collections Framework.

The Diviners Singular Director, writer, and actor Jay Chandrasekhar tells the hilarious stories behind his films *Super Troopers* and *Super Troopers 2* (out on 4/20/2018!), the history of his comedy group, Broken

Lizard, and everything in between. Jay Chandrasekhar has spent the past two decades writing, directing, and acting in film and TV. With his comedy group, Broken Lizard, he has produced and directed beloved movies such as *Super Troopers*, *Beerfest*, and *Club Dread*. Now, with the upcoming release of the long-awaited *Super Troopers 2*, Jay is ready to tell the ridiculous, madcap, dead-honest story of how he built his career, how he formed Broken Lizard, and,

ultimately, how he made Super Troopers. Jay grew up Indian American in the lily-white suburbs of Chicago, and he had an outsider's perspective from the beginning. Instead of taking the traditional acting path, he formed his own troupe, wrote his own scripts, and made movies his own way. And he had an incredibly good time doing so as readers will learn in this hilarious story about making it in Hollywood and directing, cowriting, and costarring in one of the best-loved

and most-watched comedies of all time. Part humorous memoir, part film study, this book will inform, entertain, and tell readers what drinking multiple bottles of maple syrup is really like.

Hobson-Jobson John Wiley & Sons

Avul Pakir Jainulabdeen Abdul Kalam, The Son Of A Little-Educated Boat-Owner In Rameswaram, Tamil Nadu, Had An Unparalleled Career As A Defence Scientist, Culminating In The Highest Civilian Award Of India, The Bharat Ratna.

As Chief Of The Country's Defence Research And Development Programme, Kalam Demonstrated The Great Potential For Dynamism And Innovation That Existed In Seemingly Moribund Research Establishments. This Is The Story Of Kalam's Rise From Obscurity And His Personal And Professional Struggles, As Well As The Story Of Agni, Prithvi, Akash, Trishul And Nag--Missiles That Have Become Household Names In India And That Have Raised The Nation To The Level Of A Missile

Like to walk through one
of the hathivanas
(elephant forests)
maintained by Mauryan
king Chandragupta? Wish
to be part of the royal
dinner of a Mughal
Emperor, with the palate
containing a variety of
forty meat dishes?
Desirous of having a
glimpse of the head on
the shield and full-mount
trophies of tigers and
lions, decorating the halls
and walls of the military

lounges, lavish palaces
and royal houses of the
British Raj? Conservation
Conundrum - Journey of
India's wildlife through
ages is a pen-picture of
the glory and good times,
the trials and tribulations,
persecution and
perturbation of the
country's wild animals in
its recorded history. The
author has captured the
theme through a
historian's kaleidoscope,
where from a period of
plenty in the ancient
India, animal numbers
plummeted to its lowest,
when the country was into

its first two decades of
independence. From a
situation of no-hope, how
most of the iconic wildlife
species registered a turn
around and smart
recovery in a span of half
a century, despite the
odds working against
them forms the central
thread. The author takes
the reader through the
pages in finding an
answer to the usual
dilemma, as to whether it
is human need and
interest or the future of
the wild denizens that is
important to a developing
nation like India.

A New English Dictionary on Historical Principles

Jaico Publishing House

The devastatingly original debut novel from a winner of the Windham-Campbell Prize for Fiction.

“Profoundly moving . . . I cannot remember when I last read something as touching as this.”

—Amitav Ghosh, author of *The Glass Palace* First published by a small press in India, Jerry Pinto’s debut novel has already taken the literary world by storm. Suffused with compassion, humor, and hard-won wisdom, Em and

the Big Hoom is a modern masterpiece, and its American publication is certain to be one of the major literary events of the season. Meet Imelda and Augustine, or—as our young narrator calls his unusual parents—Em and the Big Hoom. Most of the time, Em smokes endless beedis and sings her way through life. She is the sun around which everyone else orbits. But as enchanting and high-spirited as she can be, when Em’s bipolar disorder seizes her she becomes monstrous,

sometimes with calamitous consequences for herself and others. This accomplished debut is graceful and urgent, with a one-of-a-kind voice that will stay with readers long after the last page.

Materials, Design, and Manufacturing for Sustainable Environment SAGE

"The share auto I squeeze into next seems unusually vulnerable after a night in the truck - too compact, too low down. Perhaps, these are the usual side effects of prolonged riding with the king of the road, I

think to myself. But it is only when I fill in 'truck' as my mode of transportation in the hotel ledger at Udaipur does the utter ludicrousness of my endeavour truly hit home" Think truck drivers, and movie scenes of them drunkenly crushing inconvenient people to their gravelly deaths come to mind. But what are their lives on the road actually like? In *Truck De India!*, journalist Rajat Ubhaykar embarks on a 10,000 km-long, 100% unplanned trip, hitchhiking with truckers

all across India. On the way, he makes unexpected friendships; listens to highway ghost stories; discovers the near-fatal consequences of overloading trucks; documents the fascinating tradition of truck art in Punjab; travels alongside nomadic shepherds in Kashmir; encounters endemic corruption repeatedly; survives NH39, the insurgent-ridden highway through Nagaland and Manipur; and is unfailingly greeted by the unconditional kindness of perfect

strangers. Imbued with humour, empathy, and a keen sense of history, *Truck De India!* is a travelogue like no other you've read. It is the story of India, and Indians, on the road.

1. Introduction, 2.

Spiritual Heritage Tourist Centres in Tamil Nadu, 3. Cultural Heritage Tourist Centres in Tamil Nadu, 4. Natural Heritage Tourist Centres in Tamil Nadu, 5. Fairs, Festivals and Folk Entertainments in Tamil Nadu, 6. Tourism Plant Facilities in Tamil Nadu, 7. Conclusion and Suggestions. - PREFACE: "Tourism in Tamil Nadu - Growth and Development" is a captivating theme. Man has been fascinated by travel and tourism from the earliest historical period. He always has had

the urge to discover the unknown, to explore new and strange places, to seek changes of environment and to undergo new experiences. Travelling to achieve these ends is not new, but tourism is of a relatively modern origin. Tourism is distinguishable by its mass character from the travel undertaken in the past. This is largely a post-second world war phenomenon. Until recently only affluent people participated in tourism. Increased leisure, higher incomes and

greatly enhanced mobility have combined to enable more people to participate in Tourism. Revolution in transport, technological progress and the emergence of a middle class with time and money to spare for recreation, has led to the growth of tourism—"the modern holiday industry". Thus tourism is no longer the prerogative of a few but is an accepted part of life of a large number of people. India is one of the oldest civilizations with a kaleidoscopic variety and rich cultural heritage. For

centuries India has been a centre of attraction for different people for different reasons. The ancient invaders viewed it as a goldmine with unlimited wealth to plunder; the learned were fascinated by its mystic spiritualism and profound philosophy; the uninitiated saw it as a land of naked fakirs and snake charmers; while the others were simply charmed by the sheer beauty of its natural attractions and amazing variety of its flora and fauna.
