Maat is the moral ideal of ancient Egypt whose texts contain information on Egypt's moral standards, its concepts of right from wrong, codes of behaviour and obligations. Written by a teacher of the tradition of Maat, this study is the `first philosophical book that is based on a philologically and historically critical treatment of first-hand Egyptian material'. Focusing on the Maatian ideal rather than moral practices, Karenga discusses what Maat is and its place within the genre

of philosophical ethics and morality, asking what it can contribute to modern African culture and values. Extracts are transcribed and translated into English. *Literature, Translation, and Culture, 500 BCE-300 CE* Psychology Press

"Magisterial . . . [A] rich portrait of ancient Egypt's complex evolution over the course of three millenniums."—Los Angeles Times NAMED ONE OF THE BEST BOOKS OF THE YEAR

BY The Washington Post • Publishers Weekly In this landmark volume, one of the world's most renowned Egyptologists tells the epic story of this great civilization, from its birth as the first nation-state to its absorption into the Roman Empire. Drawing upon forty years of archaeological research, award-winning scholar Toby Wilkinson takes us inside a tribal society with a pre-monetary economy and decadent, divine kings who ruled with all-too-recognizable human emotions. Here are the legendary leaders: Akhenaten, the "heretic king," who with his wife Nefertiti brought about a revolution with a bold new religion;

Tutankhamun, whose dazzling tomb would remain hidden for three millennia; and eleven pharaohs called Ramesses, the last of whom presided over the militarism, lawlessness, and corruption that caused a political and societal decline. Filled with new information and unique interpretations, *The Rise and Fall of Ancient Egypt* is a riveting and revelatory work of wild drama, bold spectacle, unforgettable characters, and sweeping history. "With a literary flair and a sense for a story well told, Mr. Wilkinson offers a highly readable, factually up-to-date account."—*The Wall Street Journal* "[Wilkinson] writes with considerable verve. . . . the sumptuous pageantry and cultural sophistication of pharaonic Egypt."—The New York Times

For nearly six centuries, tarot card designers have claimed that their cards have an esoteric

link to ancient Egyptian magic, some even claiming their tarot decks are based on Egyptian magic. The Kemetic Tarot is directly based on the most powerful Egyptian magic discovered: The Book of Coming Forth by Day, a book of spells and ritual magic designed to allow a soul to invoke the gods and subdue evil adversaries as it travels from the mundane world to the spiritual world of the Duat (the afterlife), and finally on to eternal life in Aaru (the Egyptian Paradise). The book of The Kemetic Tarot explains how to read the Kemetic Tarot cards, with a thorough description of the gods, goddesses, and magic that form the

foundation of this unique and powerful tarot deck.

Contends that the roots of Christian belief come not from Judaea but from Egypt •

Shows that the Romans fabricated their own version of Christianity and burned the Alexandrian library as a way of maintaining political power • Builds on the arguments of the author's previous books *The Hebrew Pharaohs of Egypt*, *Moses and Akhenaten*, and *Jesus in the House of the Pharaohs* In

Christianity: An Ancient Egyptian Religion author Ahmed Osman contends that the roots of Christian belief spring not from Judaea but from Egypt. He compares the chronology of the Old Testament and its factual content with ancient Egyptian records to show that the major characters of the Hebrew scriptures--including Solomon, David, Moses, and Joshua--are based on Egyptian historical figures. He further suggests that not only were these personalities and the stories associated with them cultivated on the banks of the Nile, but the major tenets of Christian belief--the One God, the Trinity, the hierarchy of heaven, life after death, and the virgin

birth--are all Egyptian in origin. He likewise provides a convincing argument that Jesus himself came out of Egypt. With the help of modern archaeological findings, Osman shows that Christianity survived as an Egyptian mystery cult until the fourth century A.D., when the Romans embarked on a mission of suppression and persecution. In A.D. 391 the Roman-appointed Bishop Theophilus led a mob into the Serapeum quarter of Alexandria and burned the Alexandrian library, destroying all records of the true Egyptian roots of Christianity. The Romans' version of Christianity, manufactured to maintain political power, claimed that Christianity originated

in Judaea. In Christianity: An Ancient Egyptian Religion Osman restores Egypt to its rightful place in the history of Christianity.

Finances and money are an integral part of Ancient Egyptian culture as an instrument for promoting Maat in the form of the well-being of the 'hekat'. The hekat are the people and the "Heka" is the Pharaoh. The Pharaoh was like a shepherd leading a flock and moneys were controlled righteously to promote the welfare of the people. In that tradition we have applied the philosophy of maatian economics to promote the well-being of those who are

officially part of the Temple as well as those who may read the books so they may avoid financial trouble as much as possible and have better capacity to practice the teachings. In order to have a successful life human beings need a certain amount of money and wealth but money and wealth are not the goal. They are a foundation that enables the true goal of life, enlightenment, to be realized. Therefore, we are only fulfilling the duty of transmitting wisdom about wealth to promote righteousness, truth and well-being for all. This volume explores the mysteries of wealth based on the teachings of the sages of Ancient Egypt and the means to promote prosperity

that allows a person to create the conditions for discovering inner peace and spiritual enlightenment.

- Examines the Oldawan, the Ancient Soul of Africa, and its correlation with what modern psychologists have defined as the collective unconscious

psychospirituality The fossil record confirms that humanity originated in Africa. Yet somehow we have overlooked that Africa is also at the root of all that makes us human--our spirituality, civilization, arts, sciences, philosophy, and our conscious and unconscious minds. In this extensive look at the unfolding of human history and culture, Edward Bruce Bynum reveals how our collective unconscious is African. Drawing on archaeology, DNA research, depth psychology, and the biological and spiritual roots of religion and science, he demonstrates how all modern human beings, regardless of ethnic or racial categorizations, share a common deeper identity, both

psychically and genetically--a primordial African unconscious. Exploring the beginning of early religions and mysticism in Africa, the author looks at the Egyptian Nubian role in the rise of civilization, the emergence of Kemetic Egypt, and the Oldawan, the Ancient Soul, and its correlation with what modern psychologists have defined as the collective unconscious. Revealing the spiritual and psychological ramifications of our shared African ancestry, the author examines its reflections in the present confrontation in the Americas, in the work of the Founding Fathers, and in modern Black spirituality, which arose from African diaspora religion and

philosophy. By recognizing our shared African unconscious--the matrix that forms the deepest luminous core of human identity--we learn that the differences between one person and another are merely superficial and ultimately there is no real separation between the material and the spiritual.

 An investigation into

the real historical figure of King David and the real location of the Temple of Solomon

- Identifies King David as Pharaoh Tuthmosis III of the 18th Dynasty and David's son Solomon as Pharaoh Amenhotep, Tuthmosis's successor
- Shows how the Temple of Solomon described in the Bible corresponds with the Mortuary Temple of Luxor in Egypt

Explains how David was not a descendant of Isaac but his father and how biblical narrators changed the original story of Abraham and Isaac to hide his Egyptian identity During the last two centuries, thousands of ancient documents from different sites in the Middle East have been uncovered. However,

no archaeological discovery speaks of King David or Solomon, his son and successor, directly or indirectly. Was King David a real person or a legend like King Arthur? Proposing that David was a genuine historical figure, Ahmed Osman explores how his identity may be radically different than what is described in religious texts. Drawing on recent archaeological, historical, and biblical evidence from Egypt, Osman shows that David lived in Thebes, Egypt, rather than Jerusalem; that he lived five centuries earlier than previously thought, during the 15th rather than the 10th century B.C.; and that David was not a descendant of Isaac but was, in fact, Isaac's

father. The author also reveals David's true Egyptian identity: Pharaoh Tuthmosis III of the 18th Dynasty. Confirming evidence from rabbinic literature that indicates Isaac was not Abraham's son, despite the version provided in Genesis, Osman demonstrates how biblical narrators replaced David with Abraham the Hebrew to hide the Egyptian identity of Isaac's father. He shows how Egyptian historical and archaeological sources depict figures that match David's and Solomon's known characteristics in many ways, including accounts of a great empire between the Euphrates and the Nile that corresponds with David's empire as described in the Bible.

Extending his research further, the author shows that King Solomon, King David's son, corresponds in reality to Pharaoh Amenhotep, successor of Tuthmosis III, the pharaoh who stands out in the dynastic history of Egypt not only for his peaceful reign but also as the builder of the Temple of Luxor and the famed Mortuary Temple at Luxor, which matches the biblical descriptions of Solomon's Temple. Unveiling the real history behind the biblical story of King David, Osman reveals that the great ancestor of the Israelites was, in fact, Egyptian.

The Ancient Egyptian Path to Enlightenment Simon and Schuster

Maatian Ethics in a Communication Context explores the ethical principle of Maat: the guiding principle of harmony and order that permeated classical African political and civil life. The book provides a rigorous, communication-focused account of the ethical wisdom ancient Africans cultivated and is evidenced in the form of recovered written texts, mythology, stelae, prescriptions for just speech, and the hieroglyphic system of writing itself. Moving beyond colonial stereotypes of ancient Africans, the book

offers insight into the African value systems that positioned humans as inextricably embedded in nature, and communication theory that anchors good communication in careful listening habits as the foundational moral virtue. Expanding on the work of Maulana Karenga, Molefi Kete Asante and other groundbreaking scholars, the book presents a picture of civilizations with a shared lust for life, a spiritual connection to scientific speech, and the veneration of ancestors as deeply connected to the pursuit of wisdom. Offering an examination of Maat from a specifically communication ethics perspective, this book will be of great interest to scholars and

students of Communication Ethics, African philosophy, Rhetorical theory, Africana Studies and Ancient History. Selections from the Husia UNICEF

- Details the nine stages of the ancient Egyptian initiatory path, describing each stage's powers as well as the culminating ceremony called "The Crown of Isis" • Provides profound guided meditations for each of the nine stages and illustrates the manifestation of this path's principles through stories of awakening • Shares the author's personal journey as a Garment of Isis and her own powerful interactions with Isis, which culminated in her serving as Oracle of Isis at the Parliament

of World Religions in Chicago in 1993 The Sacred Science of ancient Egypt was an initiatory spiritual system, a technology of consciousness designed to birth a mystical communion with the divinities, an embodied union of being between the eternal and the mortal. After initiation was completed, the re-identified being, now divinely possessed, was known as a "Garment of Isis," signifying that the goddess Isis dwelt within them. As Naomi Ozaniec reveals, it is still possible to enter into these ancient Mysteries, to encounter the living mysticism of Khemetic Sacred Science and become a vessel for the divine. Offering a practical guide to the key

principles within the Egyptian temple tradition, she explores the process of creating and developing a personal relationship with the *neteru*, the divinities and living forces of creation of ancient Egypt. She details the nine stages of this initiatory path, which are divided into three phases-- Heartmind, Spiritmind, and Soulmind. This step-by-step, interactive process culminates in a ceremony called "The Crown of Isis." For each of the nine stages, the author provides profound guided meditations and illustrates the manifestation of the initiate's powers through stories of awakening brought on by this spiritual path. She also shares her

personal journey as a Garment of Isis and her own powerful interactions with Isis, which culminated in the author holding the office of Oracle of Isis at the Parliament of World Religions in Chicago in 1993.

Offering an accessible yet substantive guide to initiation into the Egyptian mysteries, this book details how to gradually awaken and attune your mind to the symbolic, open access to higher realms of consciousness, and enter into a mystical marriage between personal and divine consciousness.

Deals with the period beginning at the close of the Neolithic era, from around the eighth millennium before our era. This period of some 9,000 years of history has been sub-divided into four major geographical zones, following the pattern of African historical research. Chapters 1 to 12 cover the corridor of the Nile, Egypt and Nubia. Chapters 13 to 16 relate to the Ethiopian highlands. Chapters 17 to 20 describe the part of Africa later called the Magrhib and its Saharan hinterland. Chapters 21 to 29, the

rest of Africa as well as the Indian Ocean.--
