### Wisdom for Everyday Life from the Tibetan Book of the Dead Penguin

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

#1 NEW YORK TIMES BESTSELLER • PULITZER PRIZE FINALIST • This inspiring, exquisitely observed memoir finds hope and beauty in the face of insurmountable odds as an idealistic young neurosurgeon attempts to answer the question What makes a life worth living? NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The

New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. *When Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student “possessed,” as he wrote, “by the question of what, given that all organisms die, makes a virtuous and meaningful life” into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. “I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything,” he wrote. “Seven words from Samuel Beckett began to repeat in my head: ‘I can't go on. I'll go on.’” *When Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both.

*Healing Meditations for Grief and Loss* Random House

This “comforting...thoughtful” (The Washington Post) guide to

maintaining a high quality of life—from resilient old age to the first inklings of a serious illness to the final breath—by the New York Times bestselling author of *Knocking on Heaven's Door* is a “roadmap to the end that combines medical, practical, and spiritual guidance” (The Boston Globe). “A common sense path to define what a ‘good’ death looks like” (USA TODAY), *The Art of Dying Well* is about living as well as possible for as long as possible and adapting successfully to change. Packed with extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our health system, and how to make your own “good death” more likely. Butler explains how to successfully age in place, why to pick a younger doctor and how to have an honest conversation with them, when not to call 911, and how to make your death a sacred rite of passage rather than a medical event. This handbook of preparations—practical, communal, physical, and spiritual—will help you make the most of your remaining time, be it decades, years, or months. Based on Butler's experience caring for aging parents, and hundreds of interviews with people who have successfully navigated our fragmented health system and helped their loved ones have good deaths, *The Art of Dying Well* also draws on the expertise of national leaders in family medicine, palliative care, geriatrics, oncology, and hospice. This “empowering guide clearly outlines the steps necessary to prepare for a beautiful death without fear” (Shelf Awareness).

*The Swedish Art of Aging Well* Harper Collins

A charming, practical, and unsentimental approach to putting a home in order while reflecting on the tiny joys that make up a long life. In Sweden there is a kind of decluttering called *döstädning*, *dö* meaning “death” and *städning* meaning

“cleaning.” This surprising and invigorating process of clearing out unnecessary belongings can be undertaken at any age or life stage but should be done sooner than later, before others have to do it for you. In *The Gentle Art of Swedish Death Cleaning*, artist Margareta Magnusson, with Scandinavian humor and wisdom, instructs readers to embrace minimalism. Her radical and joyous method for putting things in order helps families broach sensitive conversations, and makes the process uplifting rather than overwhelming. Margareta suggests which possessions you can easily get rid of (unworn clothes, unwanted presents, more plates than you’d ever use) and which you might want to keep (photographs, love letters, a few of your children’s art projects). Digging into her late husband’s tool shed, and her own secret drawer of vices, Margareta introduces an element of fun to a potentially daunting task. Along the way readers get a glimpse into her life in Sweden, and also become more comfortable with the idea of letting go.

*A Beginner's Guide to the End* Gallery Books

People today are not only living longer, they are also living sicker—making aging and caring for elderly loved ones more complicated than ever before. Brent provides a comprehensive, straightforward handbook to help family caregivers with sibling and parent-child communication, end-of-life decision making, and guidance for how to help a loved one medically, financially, and emotionally.

*The Story of the Good Little Boy* Rodale Books

In this moving and compassionate classic—now updated with new material from the authors—hospice nurses Maggie Callanan and Patricia Kelley share their intimate experiences with patients at the end of life, drawn from more than twenty years’ experience tending the terminally ill. Through their stories we come to appreciate the near-miraculous ways in which the dying communicate their needs, reveal their feelings, and even choreograph their own final moments; we also discover the gifts—of wisdom, faith, and love—that the dying leave for the living to share. Filled with practical advice on responding to the requests of the dying and helping them prepare emotionally and spiritually for death, *Final Gifts* shows how we can help the dying person live fully to the very end.

*How to Prepare for Death, Dying and Beyond* Courier Dover Publications

This revelatory volume shows readers how to confront death—along with inevitable currents of life—with a deep-seated preparedness built on virtue, focus, and inner strength.

*Advice on Dying* Doubleday Books

In this groundbreaking new work, David Kessler—an expert on grief and the coauthor with Elisabeth Kübler-Ross of the iconic *On Grief and Grieving*—journeys beyond the classic five stages to discover a sixth stage: meaning. In 1969, Elisabeth Kübler-Ross first identified the stages of dying in her transformative book *On Death and Dying*. Decades later, she and David Kessler wrote the classic *On Grief and Grieving*, introducing the stages of grief with the same transformative pragmatism and compassion. Now, based on hard-earned personal experiences, as well as knowledge and wisdom earned through decades of work with the grieving, Kessler introduces a critical sixth stage. Many people look for “closure” after a loss. Kessler argues that it’s finding meaning beyond the stages of grief most of us are familiar with—denial, anger, bargaining, depression, and acceptance—that can transform grief into a more peaceful and hopeful experience. In this book, Kessler gives readers a roadmap to remembering those who have died with more love than pain; he shows us how to move forward in a way that honors our loved ones. Kessler’s insight is both professional and intensely personal. His journey with grief began when, as a child, he witnessed a mass shooting at the same time his mother was dying. For most of his life, Kessler taught physicians, nurses, counselors, police, and first responders about end of life, trauma, and grief, as well as leading talks and retreats for those experiencing grief. Despite his knowledge, his life was upended by the sudden death of his twenty-one-year-old son. How does the grief expert handle such a tragic loss? He knew he had to find a way through this unexpected, devastating loss, a way that would honor his son. That, ultimately, was the sixth state of grief—meaning. In *Finding Meaning*, Kessler shares the insights, collective wisdom, and powerful tools that will help those experiencing loss. *Finding Meaning* is a necessary addition to grief literature and a vital guide to healing from tremendous loss. This is an inspiring, deeply intelligent must-read for anyone looking to journey away from suffering, through loss, and towards meaning.

*Tried and True Advice from the Wisest Americans* Simon and Schuster

An insightful collection of teachings about death and dying to help face life’s greatest mystery calmly and with equanimity. Lifetimes of effort go into organizing, designing, and structuring every aspect of our lives, but how many people are willing to contemplate the inevitability of death? Although dying is an essential part of life, it is an uncomfortable topic that most people avoid. With no idea what will happen when we die and a strong desire to sidestep the conversation, we make all kinds of assumptions. *Living Is Dying* collects teachings about death and the bardos that have been passed down through a long lineage of brilliant Buddhist masters, each of whom went to great lengths to examine the process in minute detail. Renowned author and teacher Dzongsar Jamyang Khyentse responds to the most common questions he’s been asked about death and dying—exploring how one prepares for death, what to say to a loved one who is dying, and prayers and practices to use as a handhold when approaching the unknown territory of death. Whether you are facing death today or decades from now, preparing for it can help to allay your worst fears and help you appreciate what it means to be truly alive.

*30 Lessons for Living* Shambhala Publications

From the physician behind the wildly popular NutritionFacts website, *How Not to Die* reveals the groundbreaking scientific evidence behind the only diet that can prevent and reverse many of the causes of disease-related death. The vast majority of premature deaths can be prevented through simple changes in diet and lifestyle. In *How Not to Die*, Dr. Michael Greger, the internationally-renowned nutrition expert, physician, and founder of NutritionFacts.org, examines the fifteen top causes of premature death in America—heart disease, various cancers, diabetes, Parkinson’s, high blood pressure, and more—and explains how nutritional and lifestyle interventions can sometimes trump prescription pills and other pharmaceutical and surgical approaches, freeing us to live healthier lives. The simple truth is that most doctors are good at treating acute illnesses but bad at preventing chronic disease. The fifteen leading causes of death claim the lives of 1.6 million Americans annually. This doesn’t have to be the case. By following Dr. Greger’s advice, all of it backed up by strong scientific evidence, you will learn which foods to eat and which lifestyle changes to make to live longer. History of prostate cancer in your family? Put down that glass of

milk and add flaxseed to your diet whenever you can. Have high blood pressure? Hibiscus tea can work better than a leading hypertensive drug-and without the side effects. Fighting off liver disease? Drinking coffee can reduce liver inflammation. Battling breast cancer? Consuming soy is associated with prolonged survival. Worried about heart disease (the number 1 killer in the United States)? Switch to a whole-food, plant-based diet, which has been repeatedly shown not just to prevent the disease but often stop it in its tracks. In addition to showing what to eat to help treat the top fifteen causes of death, *How Not to Die* includes Dr. Greger's Daily Dozen -a checklist of the twelve foods we should consume every day. Full of practical, actionable advice and surprising, cutting edge nutritional science, these doctor's orders are just what we need to live longer, healthier lives.

#### *Life Lessons Twelve*

The Tibetan Book of the Dead is one of the best-known Tibetan Buddhist texts. It is also one of the most difficult texts for Westerners to understand. In *Living, Dreaming, Dying*, Rob Nairn presents the first interpretation of this classic text using a modern Western perspective, avoiding arcane religious terminology, keeping his explanations grounded in everyday language. Nairn explores the concepts used in this highly revered work and brings out their meaning and significance for our daily life. He shows readers how the Tibetan Book of the Dead can help us understand life and self as well as the dying process. *Living, Dreaming, Dying* helps readers to "live deliberately"—and confront death deliberately. One thing that prevents us from doing that, according to Nairn, is our tendency to react fearfully whenever change occurs. But if we confront our fear of change and the unknown, we can learn to flow gracefully with the unfolding circumstances of life rather than be at their mercy. Of course, change occurs throughout our life, but a period of transition also occurs as we pass from the waking state into sleep, and likewise as we pass into death. Therefore the author's teachings apply equally to living as well as to dreaming and dying. Through meditation instructions and practical exercises, the author explains how to:

- Explore the mind through the cultivation of deep meditation states and expanded consciousness
- Develop awareness of negative tendencies
- Use deep sleep states and lucid dreaming to increase self-understanding as well as to "train" oneself in how to die so that one is prepared for when the time

comes

- Confront and liberate oneself from fear of death and the unknown

#### **How to Nurture What Really Matters** Simon and Schuster

In this ground-breaking book, the Dalai Lama advises us to gain familiarity with the process and practices of death so that, when we are physically weak, our minds can still be focussed in the right direction, and in the right manner. *Advice on Dying* cautions us not to fall under the influence of the mistaken belief of permanence. We should not think that we have a lot of time in this life, because there is a great danger of wasting our lives in procrastination. He suggests we meditate on our lives, and on the indefiniteness of the time of death. For, though the time of our death is uncertain, death itself is certain... In this empowering and positive book, His Holiness brings new inspiration to a subject that we, in the West, have long ignored to our detriment. It is only by taming our minds and fully facing the end of our lives, that we can fully live in the present moment.

#### *The Perfect Storm* Beyond Words/Atria Books

"Every life is different, but every death is the same. We live with others. We die alone." In his riveting, artfully written memoir *The Autobiography of an Execution*, David Dow enraptured readers with a searing and frank exploration of his work defending inmates on death row. But when Dow's father-in-law receives his own death sentence in the form of terminal cancer, and his gentle dog Winona suffers acute liver failure, the author is forced to reconcile with death in a far more personal way, both as a son and as a father. Told through the disparate lenses of the legal battles he's spent a career fighting, and the intimate confrontations with death each family faces at home, *THINGS I'VE LEARNED FROM DYING* offers a poignant and lyrical account of how illness and loss can ravage a family. Full of grace and intelligence, Dow offers readers hope without cliché and reaffirms our basic human needs for acceptance and love by giving voice to the anguish we all face--as parents, as children, as partners, as friends--when our loved ones die tragically, and far too soon. *Cultivating Compassion and Fearlessness in the Presence of Death* W. W. Norton & Company

A NEW YORK TIMES BOOK CRITICS' TOP 10 BOOK OF THE YEAR "In its loving, fierce specificity, this book on how to die is also a blessedly saccharine-free guide for how to live" (The New York Times). Former NEA fellow and Pushcart Prize-winning writer

Sallie Tisdale offers a lyrical, thought-provoking, yet practical perspective on death and dying in *Advice for Future Corpses (and Those Who Love Them)*. Informed by her many years working as a nurse, with more than a decade in palliative care, Tisdale provides a frank, direct, and compassionate meditation on the inevitable. From the sublime (the faint sound of Mozart as you take your last breath) to the ridiculous (lessons on how to close the sagging jaw of a corpse), Tisdale leads us through the peaks and troughs of death with a calm, wise, and humorous hand. *Advice for Future Corpses* is more than a how-to manual or a spiritual bible: it is a graceful compilation of honest and intimate anecdotes based on the deaths Tisdale has witnessed in her work and life, as well as stories from cultures, traditions, and literature around the world. Tisdale explores all the heartbreaking, beautiful, terrifying, confusing, absurd, and even joyful experiences that accompany the work of dying, including: *A Good Death: What does it mean to die "a good death"?* Can there be more than one kind of good death? What can I do to make my death, or the deaths of my loved ones, good? *Communication: What to say and not to say, what to ask, and when, from the dying, loved ones, doctors, and more.* *Last Months, Weeks, Days, and Hours: What you might expect, physically and emotionally, including the limitations, freedoms, pain, and joy of this unique time.* *Bodies: What happens to a body after death? What options are available to me after my death, and how do I choose—and make sure my wishes are followed?* *Grief: "Grief is the story that must be told over and over...Grief is the breath after the last one."* Beautifully written and compulsively readable, *Advice for Future Corpses* offers the resources and reassurance that we all need for planning the ends of our lives, and is essential reading for future corpses everywhere. "Sallie Tisdale's elegantly understated new book pretends to be a user's guide when in fact it's a profound meditation" (David Shields, bestselling author of *Reality Hunger*).

"A poetic and philosophical and brave and uplifting meditation on how important it is to make peace and meaning of our lives while we still have them." -Elizabeth Gilbert, bestselling author of *Eat Pray Love* "Illuminating, unflinching and ultimately inspiring... A book to treasure." -People Magazine A hospice chaplain passes on wisdom on giving meaning to life, from those taking leave of it. As a hospice chaplain, Kerry Egan didn't offer sermons or prayers, unless they were requested; in fact, she found, the dying rarely want to talk about God, at least not overtly. Instead, she discovered she'd been granted a powerful chance to witness firsthand what she calls the "spiritual work of dying"—the work of finding or making meaning of one's life, the experiences it's contained and the people who have touched it, the betrayals, wounds, unfinished business, and unrealized dreams. Instead of talking, she mainly listened: to stories of hope and regret, shame and pride, mystery and revelation and secrets held too long. Most of all, though, she listened as her patients talked about love—love for their children and partners and friends; love they didn't know how to offer; love they gave unconditionally; love they, sometimes belatedly, learned to grant themselves. This isn't a book about dying—it's a book about living. And Egan isn't just passively bearing witness to these stories. An emergency procedure during the birth of her first child left her physically whole but emotionally and spiritually adrift. Her work as a hospice chaplain healed her, from a brokenness she came to see we all share. Each of her patients taught her something about what matters in the end—how to find courage in the face of fear or the

strength to make amends; how to be profoundly compassionate and fiercely empathetic; how to see the world in grays instead of black and white. In this hopeful, moving, and beautiful book, she passes along all their precious and necessary gifts.

### **A Life Transformed by the Dearly Departing** Penguin

"If you've been looking for something different to level up your health, fitness, and personal growth, this is it."—Melissa Urban, Whole30 CEO and New York Times bestselling author Discover the evolutionary mind and body benefits of living at the edges of your comfort zone and reconnecting with the wild. In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many of our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day

hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the wild within yourself.

The Buddhist approach to death can be of great benefit to people of all backgrounds—as has been demonstrated time and again in Joan Halifax's decades of work with the dying and their caregivers. Inspired by traditional Buddhist teachings, her work is a source of wisdom for all those who are charged with a dying person's care, facing their own death, or wishing to explore and contemplate the transformative power of the dying process. Her teachings affirm that we can open and contact our inner strength, and that we can help others who are suffering to do the same.
