and driven by research. At
McGraw-Hill, we have
spent thousands of hours
with you and your
students, working to
understand the key needs
and concerns you face in
Human Development
courses. The most
common topics raised

include managing the vast
amount of content
inherent to a Lifespan
course and ensuring the
dependability of the
assigned material—is it
current and accurate? The
result of this research is
John Santrock’s Life-Span
Development. Life-Span
Development ensures
students complete and
understand the assigned
material in a number of
ways: Santrock’s hallmark
Learning Goals pedagogy
provides a comprehensive
roadmap to the text
material, clearly pointing
out the core concepts
fundamental to students’
learning and performance.
Our adaptive study tool,
LearnSmart, increases
students’ efficiency in
studying by identifying
what they know, and
more importantly what
they don’t know,
providing immediate
remediation for the areas
in which they are
struggling. At the same
time, instructors have
access to powerful, visual

reports allowing them to quickly see where students' strengths and weaknesses lie. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. The 14th edition continues with the connections theme to help students better understand the concepts among the different aspects of life-span development. This recurring theme of connections—Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research—ties together concepts from across chapters to reinforce the learning process and connects the material to students' everyday lives and future aspirations. Our Milestones of Development video series helps bring the course material to life, allowing students to witness development as it unfolds. And of course, all of the text material is informed by Life-Span Development's unique board of expert

consultants—a who's who of developmental psychology—who make sure the material is as accurate and up-to-date as possible.
