In *Skin and Bones*, an original short story in the Paul Doiron's bestselling Mike Bowditch series, the killing of a bald eagle unearths ties to a tragic case from mentor Charley Steven's past. When Maine game warden Mike Bowditch discovers a bullet-ridden bald eagle in the Maine woods, he is surprised by the memories it brings back for his mentor, retired warden pilot Charley Stevens. Decades earlier, Charley briefly teamed up with Mike's father, the notorious poacher Jack Bowditch, on an unsettling case that has haunted Charley for years. The two enemies, both war veterans, found common cause over the senseless shooting of a magnificent eagle. But what started as a tentative alliance over a wildlife crime soon became something bigger and more terrifying: an investigation into a missing young man whose physically abusive brother might well have finally killed him. When an unspeakable discovery led to an impossible choice, Charley and Jack were forced to decide how far they would go to find justice when faced with inhumanity taken to its extreme.

Daughters of the Faith: Ordinary Girls Who Lived Extraordinary Lives. Almost Home is the story of the pilgrims' journey to America and of God's providence and provision. Several of the characters in the story—Mary Chilton, Constance Hopkins, and Elizabeth Tilley—were actual passengers on the Mayflower. Mary Chilton was a young girl when she left her home in Holland and traveled to America onboard the Mayflower with her parents. The journey was filled with trials, joys, and some surprises, but when she reached the New World, she experienced a new life, new freedom, and new home. Wendy Lawton has taken the facts of the pilgrims' journey to the New World, and from this information filled in personal details to create a genuine and heart-warming story.

This book—a compilation of 25 practical articles from NSTA's elementary school journal, *Science & Children*—offers a wealth of lesson plans and idea starters using interdisciplinary, integrated, and thematic approaches. Discover how a language arts unit on survival can include student inquiry into properties of ice, ways to

improve students' observational skills as they write haiku about nature, how to use data collection and math in mapping the ocean floor, and more. To engage students schoolwide or in the great outdoors, several articles offer project-based interdisciplinary units that are widely adaptable. Each article is categorized by grade level, the National Science Education Standards it addresses, and whether it is interdisciplinary, integrated, thematic, or a combination of the three. Even teachers who lack a strong science background will find these concrete techniques especially valuable for teaching science through other subjects (and vice versa).

A Story Based on the Life of the Mayflower's Mary Chilton

For fans of Balto and other real-life dog stories, here's a heavily illustrated middle-grade novel about a canine movie star of the 1920s, dramatically told in both words and pictures by an acclaimed author and a Caldecott Medal-winning illustrator. When movie director Larry Trimble travels to Berlin searching for his next big star—a dog!—he finds Etzel, a fierce, highly trained three-

year-old German shepherd police dog. Larry sees past the snarls and growls and brings Etzel back to Hollywood, where he is renamed Strongheart. Along with screenwriter Jane Murfin, Larry grooms his protégé to be a star of the silver screen—and he succeeds, starting with Strongheart's first film, *The Love Master*, which is released in 1921. Strongheart is soon joined by a leading lady, a German shepherd named Lady Julie, and becomes a sensation. Touching, charming, playful, and based on real events, this moving tale by Candace Fleming and illustrated by Eric Rohmann tells all about "the wonder dog" who took America by storm.
