L'Eroica© in Moto è per me tante cose: ho provato a condensarci tutti i valori, le esperienze, le emozioni e la bellezza che mi hanno ispirato in una intera vita on the road. Uno spirito che mi sembrò di respirare appieno ai tempi delle prime mitiche Parigi-Dakar - o forse che

quando hai vent'anni vedi il mondo con occhi tanto più poetici! Eppure anche oggi mi pare ci siano belle persone che vivono all'insegna della lealtà, dell'avventura, dell'amicizia, e anzi sono grato a questo evento per avermene fatte incontrare tante e sempre di nuove ogni anno! La Toscana ci mette a disposizione strade meravigliose in un paesaggio mozzafiato, e una accoglienza difficile da raccontare a chi vi partecipa per la prima volta: vi invito quindi a goderne in un solido equilibrio fra sicurezza e divertimento, rafforzando la nostra reputazione di gentlemen a due ruote!

1980 - UMA PAIXAO NACIONAL

Haynes Manuals N. America, Incorporated

The fifth edition of Numerical Methods for Engineers with Software and Programming Applications continues its tradition of excellence. The revision retains the successful pedagogy of the prior editions. Chapra and Canale's unique approach opens each part of the text with sections called Motivation, Mathematical Background, and Orientation, preparing the student for what is to come in a motivating and engaging manner. Each part closes with an Epilogue containing sections called Trade-Offs, Important Relationships and Formulas, and Advanced Methods and Additional References. Much more than a summary, the Epilogue deepens understanding of what has been learned and provides a peek into more advanced methods. Users will find use of software packages, specifically MATLAB and Excel with VBA. This includes material on developing MATLAB m-files and VBA macros. Also, many, many more challenging problems are included. The expanded breadth of engineering disciplines covered is especially evident in the problems, which now cover such areas as biotechnology and biomedical engineering

French books in print, anglais Haynes Manuals N. America, Incorporated Ted Simon is the author of the classic travel book JUPITER'S TRAVELS. It documents his four-year journey round the world by motorbike, travelling through Europe, Africa, South and North America, and Asia. A number one bestseller in the late 1970s, it is still regarded as one of the greatest motorcycle books - indeed, one of the greatest travel books - ever written. In 2001, at the age of 69, Ted Simon decided to retrace his journey, and DREAMING OF JUPITER is the result. It took him two and a half years - during which time he revisited all the countries he had travelled through in the 1970s. He found much had changed, and he reflects upon the increased poverty, political upheavals, environmental issues and indeed the changes in himself. But ultimately, DREAMING OF JUPITER is a hugely inspiring read with a positive

message at its heart - that even at the age of 70 you can still set off on an adventure, and be surprised and excited by what life throws at you along the way.

London to Cape Town overland by

Panther and sidecar, pulling a trailer. No

roads, no backup -- just straight across

the Sahara through equatorial Africa,

and South to the Cape -- in 1935,

without even a compass! This is quite

simply the most incredible Panther

journey ever! Undeterred by nomads,

sand drifts, heat, rain, rivers,

breakdowns and politics, Theresa

Wallach and Florence Blenkiron

completed a journey that might well

defeat a modern bike. From oasis to

oasis arguing with the French Foreign

Legion for permission to continue, and

winning; fashioning a tow hitch for the trailer when it broke in the desert; rebuilding the entire engine from scratch in Agadez; meeting gorillas, lions and snakes on the road, staying in African villages and meeting an amazing variety of friendly and helpful people. Not to mention having an accident in Tanganyika (Tanzania) with the only car seen on the road for days!
