The Princeton Review realizes that acing the NCLEX-RN is very different from getting straight As in nursing school. The Princeton Review doesn't try to teach students everything there is to know about nursing--only what they'll need to score higher on the exam. There's a big difference. In *Cracking the NCLEX-RN*, TPR will teach test takers how to think like the test makers and:

- Score higher by knowing in advance what will be on the test
- Ace the exam by reviewing key

topics such as: Adult & Pediatric Physiology, Health Promotion and Maintenance and more •Avoid surprises with TPR's step-by-step instructions for obtaining your license \*\*This book includes more than 1,100 review and practice questions. In addition, there are more than 250 NCLEX-RN style practice questions which are just like the ones test takers will see on the actual exam, and The Princeton Review fully explains every solution. Contents Include: I Orientation About the NCLEX-RN Logistics of the NCLEX-RN and Licensure Cracking the System II Adult Physiological Integrity The Nervous System The Cardiovascular System The Respiratory System The Gastrointestinal System The Genitourinary System The

Musculoskeletal System The Integumentary System The Endocrine System Oncology HIV/AIDS III Pediatric Physiological Integrity The Hospitalized Child The Newborn The Infant Early Childhood Middle Childhood Adolescence Chronic Health Problems of Childhood The Child and Family with Special Needs IV Health Promotion and Maintenance Growth and Development Maternal/Child Health Nutrition Through the Life Cycle V Safe, Effective Care Environment Creating a Safe, Effective Care Environment for Adults Creating a Safe, Effective Care Environment for Children Perioperative Nursing Legal, Ethical, and Professional Issues VI Psychosocial Integrity Basic Concepts of Psychiatric Nursing and

### Clinical Nurse Leader Exam Secrets Study Guide Passbooks

Medical-Surgical Nurse Exam Practice  
Questions are the simplest way to prepare  
for the Medical-Surgical Nurse  
Examination. Practice is an essential part  
of preparing for a test and improving a  
test taker's chance of success. The best  
way to practice taking a test is by going  
through lots of practice test questions. If  
someone has never taken a practice test,  
then they are unprepared for the types of  
questions and answer choices that they  
will encounter on the official test. There is  
a tremendous advantage to someone  
taking the test that is already familiar with  
the questions and answer choices. Another  
advantage of taking practice tests is that  
you can assess your performance and see  
if you need to study and practice more, or  
if you're already prepared enough to  
achieve success on your test day. If you do  
well on the practice test, then you know  
you're prepared. If you struggle on the  
practice test, then you know you may still  
have more work to do to get prepared.

Taking lots of practice tests helps ensure  
that you are not surprised or disappointed  
on your test day. Our Medical-Surgical  
Nurse Exam Practice Questions give you  
the opportunity to test your knowledge on  
a set of questions. You can know  
everything that is going to be covered on  
the test and it will not do you any good on  
test day if you have not had a chance to  
practice. Repetition is a key to success  
and using practice test questions allows  
you to reinforce your strengths and  
improve your weaknesses. Detailed  
answer explanations are also included for  
each question. It may sound obvious, but  
you have to know which questions you  
missed (and more importantly why you  
missed them) to be able to avoid making  
the same mistakes again when y
