#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries *Brené Brown: Atlas of the Heart!* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

"The fox knows many things, but the hedgehog knows one big thing." This ancient Greek aphorism, preserved in a fragment from the poet Archilochus, describes the central thesis of Isaiah Berlin's masterly essay on Leo Tolstoy and the philosophy of history, the subject of the epilogue to *War and Peace*. Although there have been many interpretations of the adage, Berlin uses it to mark a fundamental distinction between human beings who are fascinated by the infinite variety of things and those who relate everything to a central, all-embracing system. Applied to Tolstoy, the saying illuminates a paradox that helps explain his philosophy of history: Tolstoy was a fox, but believed in being a hedgehog. One of Berlin's most celebrated works, this extraordinary essay offers profound insights about Tolstoy, historical understanding, and human psychology. This new edition features a revised text that supplants all previous versions, English translations of the many passages in foreign languages, a new foreword in which Berlin biographer Michael Ignatieff explains the enduring appeal of Berlin's essay, and a new appendix that provides rich context, including excerpts from reviews and Berlin's letters, as well as a startling new interpretation of Archilochus's epigram.

The book of Proverbs is a cornucopia of practical wisdom on a variety of topics. The insights and truths covered in this book of ancient Hebrew Wisdom literature run the gamut including the nature of true wisdom and understanding, vices and virtues, relationships and roles, priorities, planning for the future, how to communicate, and how to manage one's resources. In recent decades, the book of Proverbs has increasingly become the focus of attention for Christians who wish to live lives more in tune with God's principles. In particular, Christian thinkers have begun to correlate biblical principles with the study of effective leadership. Yost examines the subject of godly leadership by using the book of Proverbs as his springboard. This is a scholarly, yet deeply devotional, study of the leader's priorities, the leader's plans, and the leader's speech. Once you have read this book, you will never look at the book of Proverbs or the subject of leadership the same way again.

"This book offers fresh readings of the Aramaic book of Ahiqar, an oft underappreciated ancient wisdom text. In undertaking a comprehensive literary analysis, incorporating both the drama and the sayings together, Bledsoe shows that Ahiqar's didactic impulse is founded on a sense of uncertainty about life, offering advice for those in times of distress, much like the titular character himself. While Ahiqar shares many features with instructional literature like Proverbs, the ambiguous cosmic and social order imagined in the text resonate more strongly with the likes of Qoheleth or Job. Bledsoe also takes seriously the Elephantine context, suggesting that the social and political ethic evinced by the work would have resonated strongly with the Judean community in Achaemenid Egypt"--

Being a follower of Jesus in the evangelical community in America is equated to a posture, practice, and pursuit of triumphalism. Followers of Jesus have misunderstood, maybe even lost, the great value of public and private lament. Lament is incongruent with a theology of continual and ongoing triumphalism. Yet, suffering, loss, and lament permeate Scripture and the human experience. To lament is to cry out to God with our doubts and to bring complaints against God. It is a posture and practice of worship and surrender that helps followers of Jesus wrestle, engage, process, and understand loss, creating a sacred space for the suffering voice to speak. Lament is a practice absent in the church that is recognized and understood as a way of naming grief and suffering, of standing and hoping in the midst of ruins. In the context of San Francisco, the practice and theology of lament in the lives of those who follow Jesus becomes a parody of cultured syllogisms and hypervanquishing that forms a community frail to moments of liminality, anxious in seasons of uncertainty, and ill-equipped to deal with the obscurities of everyday life.
