The Bundy Secrets: Hidden Files On America's Worst Serial Killer Echo Point Books & Media
The story of a counterfeiter, rapist, kidnapper, and serial killer—from the New York Times–bestselling author of Ted Bundy: Conversations with a Killer. Authorities opened the door on one man's hidden life . . . Mike DeBardeleben was known as the Mall Passer for the way he passed off fake money at local shopping centers. But when US Secret Service agents finally arrested him, they were met with more than just phony bills. They found that their counterfeiter led a shocking double life . . . only to discover a house of horrors. DeBardeleben's home was littered with drugs, bondage gear, and a collection of audio tapes in which he recorded the abuse of his countless victims. As the evidence mounted, a terrifying profile emerged of a man who forced women to be his accomplices, practiced sadism, even dressed up in women's clothes—a serial killer whose depraved fantasies led to a spree of violence that would last as long as eighteen years . . . and would end in a sentence of almost four hundred years in prison. As terrifying as it is true, this is the story of a man who proved to be, beyond the shadow of a doubt, Beyond Cruel.

I Survived Ted Bundy

Crown
"Do you think I killed those girls?" Ted Bundy asked me this question after we had completed the final interview. We were standing in the corridor outside my office and Ted was about to return to his cell. It was an unusual question to ask... I was caught off guard by the question. "With this question, Ted had put me in a lose-lose situation. My best option might have been to tell him that I couldn't, or wouldn't, answer his question. However, I said to him, "I don't know, but if you did, I believe you will do it again." I'm sure it wasn't what he wanted to hear. He didn't say anything. He turned and walked back to his cell. In future conversations we had together he never again asked that question. " ?Putting all the information I had gleaned from the test data as well as the phone conversations and the personal interviews with Ted? I concluded that it was my opinion that Ted's personality fit the crime for which he was found guilty. I submitted my report to the court. Then all hell broke loose." - from The 1976 Psychological Assessment of Ted Bundy Dr. Carlisle was part of the 90-Day Diagnostic team at the Utah State Prison tasked by the judge to determine to the best of his ability, without being biased by any of the reports previously done, whether Ted Bundy had a violent personality. Many books have been written about Bundy, but rarely have we had the opportunity to understand the inner workings of his mind. Now, Dr. Carlisle shares the step-by-step psychological assessment process regarding how he determined that Bundy was indeed a violent person and would likely continue to kill if he was set free. This book contains never-before-seen interviews with Ted and those who knew him, along with some of Bundy's assessments, and a letter he wrote to Dr. Carlisle. Book four in the Development of the Violent Mind series.

The perfect blend of riveting characters, chilling details, and gasping twists in this standout thriller will keep you frantically reading until the explosive end." - Lisa Gardner, New York Times bestselling author of Right Behind You This is the story of three best friends: one who was murdered, one who went to prison, and one who's been searching for the truth all these years . . . When she was sixteen years old, Angela Wong—one of the most popular girls in school—disappeared without a trace. Nobody ever suspected that her best friend, Georgina Shaw, now an executive and rising star at her Seattle pharmaceutical company, was involved in any way. Certainly not Kaiser Brody, who was close with both girls back in high school. But fourteen years later, Angela Wong's remains are discovered in the woods near Geo's childhood home. And Kaiser—now a detective with Seattle PD—finally learns the truth: Angela was a victim of Calvin James. The same Calvin James who murdered at least three other women. To the authorities, Calvin is a serial killer. But to Geo, he's something else entirely. Back in high school, Calvin was Geo's first love. Turbulent and often volatile, their relationship bordered on obsession from the moment they met right up until the night Angela was killed. For fourteen years, Geo knew what happened to Angela and told no one. For fourteen years, she carried the secret of Angela's death until Geo was arrested and sent to prison. While everyone thinks they finally know the truth, there are dark secrets buried deep. And what happened that fateful night is more complex and more chilling than anyone really knows. Now the obsessive past catches up with the deadly present when new bodies begin to turn up, killed in the exact same manner as Angela Wong. How far will someone go to bury her secrets and hide her grief? How long can you get away with a lie? How long can you live with it? Find out in Jennifer Hillier's Jar of Hearts.

Confession of a Serial Killer

Hourly History
Robert Keppel explores in unflinching detail the monstrous patterns, sadistic compulsions, and depraved motives of serial killers. From the Lonely Hearts Killer who hunted the most desperate of women in 1950s America to such infamous symbols of evil as Jeffrey Dahmer, Ted Bundy, and John Gacy, these are the cases—horrifying, graphic and unforgettable—that Keppel ingeniously taps to shed light on the darkest corners of the pathological mind. Foreword by Ann Rule.

Buried Secrets

Createspace Independent Publishing Platform
For fans of Kathleen Barber and Julia Heaberlin comes a chilling psychological suspense from award-winning author Jen Williams about a woman who discovers her late mother had a decades-long secret correspondence with a serial killer, begging the question: how well do we know our own family and even ourselves? When prodigal daughter Heather Evans returns to her family home after her mother's baffling suicide, she makes an alarming discovery—stacks and stacks of carefully preserved letters from notorious serial killer Michael Reave. The "Red Wolf," as he was dubbed by the press, has been in prison for over twenty years, serving a life sentence for the gruesome and ritualistic murders of several women across the country, although he has always protested his innocence. The police have had no reason to listen, yet Heather isn't the only one to have cause to re-examine the murders. The body of a young woman has just been found, dismembered and placed

inside a tree, the corpse planted with flowers. Just as the Red Wolf once did. What did Heather's mother know? Why did she kill herself? And with the monstrous Red Wolf safely locked inside a maximum security prison, who is stalking young women now? Teaming up with DI Ben Parker, Heather hopes to get some answers for herself and for the newest victims of this depraved murderer. Yet to do that, she must speak to Michael Reave herself, and expose herself to truths she may not be ready to face. Something dark is walking in the woods, and it knows her all too well.

The Stranger Beside Me

Minotaur Books
A journalist's twenty-year fascination with the Manson murders leads to "gobsmacking" (The Ringer) new revelations about the FBI's involvement in this "kaleidoscopic" (The New York Times) reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the "official" story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of Helter Skelter -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, Chaos mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

The Enigma of Ted Bundy

CRC Press
Charged with defending the convicted and unrepentant mass murderer Ted Bundy during the last three years of his life, newly-minted Washington, D. C. attorney Polly Nelson fought to keep him out of the electric chair. In the now-classic Defending the Devil, she recounts with powerful honesty her own challenging role in the drama. Viewing herself as a compassionate humanitarian first, Nelson reveals her struggle to uphold her professional vow to represent her client (and try to save his life) while simultaneously being deeply mortified by the magnitude of his heinous crimes. Bundy's legal proceedings are meticulously recounted here, offering an eye-opening glimpse into the complex judicial appeals system. In addition to her fascinating behind-the-scenes look at the court proceedings, Nelson offers her unique insight into the mind of the killer. She paints a portrait of him as something less-than the diabolical evil genius suggested by his notoriety. While making no excuses for his despicable actions and acknowledging his "absolute misogyny," Nelson explores psychological angles to the case that many previously ignored. Showing a decidedly humanist slant, she brings Bundy's overt mental illness to the fore and makes a compelling case against the use of capital punishment. While ultimately unable to stay Bundy's execution, Nelson found a true calling in the fight to appeal the sentence. With candor and wit, she shares her own personal journey of emotional and intellectual transformation as a lawyer. "I was born to represent Ted Bundy," she writes.

The Only Living Witness

Crooked Lane Books
The inspiration for the five-part Amazon Original docuseries Ted Bundy: Falling for a Killer This updated, expanded edition of The Phantom Prince, Elizabeth Kendall's 1981 memoir detailing her six-year relationship with serial killer Ted Bundy, includes a new introduction and a new afterword by the author, never-before-seen photos, and a startling new chapter from the author's daughter, Molly, who has not previously shared her story. Bundy is one of the most notorious serial killers in American history and one of the most publicized to this day. However, very rarely do we hear from the women he left behind—the ones forgotten as mere footnotes in this tragedy. The Phantom Prince chronicles Elizabeth Kendall's intimate relationship with Ted Bundy and its eventual unraveling. As much as has been written about Bundy, it's remarkable to hear the perspective of people who shared their daily lives with him for years. This gripping account presents a remarkable examination of a charismatic personality that masked unimaginable darkness.

The Good Spy

Galaxy-44 Publishing, LLC
One of NPR's "Books We Love" New York Times Book Review's "The Best True Crime of 2022" "Rich in historical perspective and graced by novelistic touches, grips the reader from first to last."—Wall Street Journal A suspense filled tale of murder on the American frontier—shedding new light on a family of serial killers in Kansas, whose horrifying crimes gripped the attention of a nation still reeling from war. In 1873 the people of Labette County, Kansas made a grisly discovery. Buried by a trailside cabin beneath an orchard of young apple trees were the remains of countless bodies. Below the cabin itself was a cellar stained with blood. The Benders, the family of four who once resided on the property were nowhere to be found. The discovery sent the local community and national newspapers into a frenzy that continued for decades, sparking an epic manhunt for the Benders. The idea that a family of seemingly respectable homesteaders—one among the thousands relocating farther west in search of land and opportunity after the Civil War—were capable of operating "a human slaughter pen" appalled and fascinated the nation. But who the Benders really were, why they committed such a vicious killing spree and whether justice ever caught up to them is a mystery that remains unsolved to this day. Set against the backdrop of postbellum America, Hell's Half-Acre explores the environment capable of allowing such horrors to take place. Drawing on extensive original archival material, Susan Jonusas introduces us to a fascinating cast of characters, many of whom have been previously missing from the story. Among them are the families of the victims, the hapless detectives who lost the trail, and the fugitives that helped the murderers escape. Hell's Half-Acre is a journey into the turbulent heart of nineteenth century America, a place where modernity stalks across the landscape, violently displacing existing populations and building new ones. It is a

world where folklore can quickly become fact and an entire family of criminals can slip through a community's fingers, only to reappear in the most unexpected of places.

Devil's Defender WildBlue Press

Discover the real-life inspirations behind history's most infamous serial killers: John Wayne Gacy, Jeffrey Dahmer, Charles Manson, and so many more. Gothic media moguls Kelly Florence and Meg Hafdahl, authors of *The Science of Monsters*, *The Science of Women in Horror*, and *The Science of Stephen King*, and co-hosts of the Horror Rewind podcast called "the best horror film podcast out there" by Film Daddy, present a guide to the serial killers who inspired the movies and media we all know and love. Delve into the brutal truth behind horror's secret: many monsters portrayed on the silver screen are based on true murderers. Uncover the truth behind the real monsters of horror, answering such questions as: What is the science behind serial killers' motivations like Ted Bundy and John Wayne Gacy? How did detectives discover the identities of criminals like the Boston Strangler and the BTK Strangler? Has science made it possible to unmask Jack the Ripper and the Zodiac Killer? What is the science behind female versus male serial killers? Through interviews, film analysis, and bone-chilling discoveries, join Kelly and Meg as they learn about the horrors of true crime through the decades.

Ted Bundy Chicago Review Press

Serial killers like Seattle's Ted Bundy, Maryland's Beltway Sniper, Atlanta's Wayne Williams, or England's Peter Sutcliffe usually outsmart the task forces on their trail for long periods of time. Keppel and Birnes take readers inside the operations of serial killer task forces to learn why. What is the underlying psychology of a serial killer and why this defeats task force investigations? This is the first book of its kind that combines state-of-the-art psychological assessment experience with the expertise of a homicide investigator who has tracked some of this country's most notorious serial killers. The author also brings to the book hands-on best practices gleaned from the experience of other task forces. Readers, both professionals and students, will benefit from the comprehensive and critical case reviews, the analysis of what went wrong, what went right, and the after-action recommendations of evaluators in the US, UK, and Canada. The book covers: * The nature of the psychology of a serial killer * How crime assessment profiling reveals that psychology * Why psychological profiles fail * How serial killer task forces defeat themselves * How the media can, and usually does, undermine the task force operation * The big secret of all serial killer investigations: police already have the killer's name * The best practices for catching a serial killer* Comprehensive case reviews of some of the US's and UK's most baffling serial killer cases* A list of best practices for serial killer task force investigators* Recommendations for how to manage comprehensive files and computer records* Practical advice on how to manage the media: what to say and not to say* Insight into what a serial killer might be thinking and doing to stay away from police* Recommendations for setting up and administering long-term investigations* Practical tips on how to maintain a task force's psychological edge and avoid defeatism

The Psychopath Test Authorlink

Linking the murders of an alleged serial killer to successfully present a case in court involves a specific methodology that has been scrutinized by the judicial system but is largely absent in the current literature. *Serial Violence: Analysis of Modus Operandi and Signature Characteristics of Killers* fully explains the process of finding the nexus

Ted Bundy Macmillan

"A true account of homicidal insanity"--Jacket subtitle.

The 1976 Psychological Assessment of Ted Bundy Dey Street Books

After a search of over twenty years, one of America's most elusive serial killers was finally apprehended. Now, read the true story of one man's attempt to get inside se mind of the Green River Killer July 15, 1982: 3 woman's strangled body was filed, caught on the pillings of Washington state's Green River. Before long, the "Green River Killer" would be suspected in at least forty-nine more homicides, with no end in sight. Then the authorities received an unbelievable letter from the infamous serial killer Ted Bundy -- then on Florida's death row -- offering to help catch the Green River Killer. But he would only talk to one man: Robert Keppel, the former homicide detective who had helped track Bundy's cross-county killing spree. Now these conversations are revealed, in which Bundy speculates about the motive and methods of the Green River Killer -- and reveals his own

twisted secrets as well. Now, as never before, we look into the face of evil...and into the heart of a killer.

A Dramaturgical Approach to Understanding the Serial Homicides of Ted Bundy Abrams

What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, *The Psychopath Test* is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges. 'The belly laughs come thick and fast - my God, he is funny . . . provocative and interesting' - Observer

Beyond Cruel Simon and Schuster

Bundy discussed the life and crimes of serial killer Ted Bundy in a unique way: by addressing important aspects of normal child development, including neurological factors and how deviant behavior patterns can result from aberrations in that process. Ted Bundy was perhaps the most notorious serial killer in American history, whose savagery extended to young women in their prime and children not even out of middle school. While he was interviewed and evaluated after being captured there are still questions about how a man seemingly blessed with looks, intelligence and social access could descend to the depths of depravity, and do so while living an apparently normal life. Those closest to him did not recognize his brutal capabilities. Yet while he was described as a good son, loving brother and dutiful student by family and friends. it was becoming clear, beginning in his toddler years, that a hatred for females was being cultivated and that it would fester into a life long obsession with sex and death. This book delves into the external life and internal mind of Bundy in an attempt to provide psychological and predictive closure.

The Phantom Prince McFarland

The most fearsome Serial Killer in U.S. history. A murderer's tale is not always shrouded in darkness, trauma, and failure to perform as a normal person. Some killers are just as successful in life as those around them or even more so. They are able to function as any regular human being and charm their communities and victims into believing that they are of a good, pure nature. Ted Bundy was a handsome, charming and ambitious man who carried his hatred deeper and more hidden than any other murderers do. He was able to lead a life that included normal friendships and relationships, and he even got far as both a student and a politician. But the hatred was there...it was always there... Bundy ended the lives of over thirty young women, ensuring that their final moments were ugly and violent. His torture methods were cruel, and there was no mercy shown to each female as he bludgeoned, strangled or cut them. Ted Bundy - The Campus Killer - a name of nightmares. This is his story.

The Encyclopedia of the Ted Bundy Murders Dutton Adult

Includes material on "the Trailside Killer in San Francisco, the Atlanta child murderer, the Tylenol poisoner, the man who hunted prostitutes for sport in the woods of Alaska, and Seattle's Green River killer ..."

The Psychology of Serial Killer Investigations St. Martin's Press

Chilling account of a Mexican satanic cult and its bizarre activities.

Ted Bundy's Murderous Mysteries Wildblue Press

She was an innocent Mormon girl. He was America's most notorious serial killer. When their paths crossed on a quiet autumn afternoon, he planned to kill her. But this victim had an incredible will to survive and would live to tell her story nearly three decades after he met death in a Florida electric chair. Ted Bundy brutally attacked Rhonda Stapley in a secluded Utah canyon in 1974. She miraculously escaped and hid her dark secret until now. This compelling real story of triumph over tragedy is both shocking and inspiring and told with the true courage of a victim turned survivor. (Foreword by Ann Rule) When she appeared on his show, Dr. Phil McGraw told Rhonda, "This book will save lives."
