ReCreating Strategy John Wiley & Sons

Conventional wisdom on strategy is no longer a reliable guide. In *Essential Advantage*, Booz & Company's Cesare Mainardi and Paul Leinwand maintain that success in any market accrues to firms with coherence: a tight match between their strategic direction and the capabilities that make them unique. Achieving this clarity takes a sharpness of focus that only exceptional companies have mastered. This book helps you identify your firm's blend of strategic direction and distinctive capabilities that give it the "right to win" in its chosen markets. Based on extensive research and filled with company examples--including Amazon.com, Johnson & Johnson, Tata Sons, and Procter & Gamble--*Essential Advantage* helps you construct a coherent company in which the pieces reinforce each other instead of

working at cross-purposes. The authors reveal:

- Why you should focus on a system of a few aligned capabilities
- How to identify the "way to play" in your market
- How to design a strategy for well-modulated growth
- How to align a portfolio of businesses behind your capability system
- How your strategy clarifies growth, costs, and people decisions

Few companies achieve a capability-driven "right to win" in their market. This book helps you position your firm to be among them.

The Essential Advantage Gorsuch Scarisbrick Pub

You think you have a winning strategy. But do you? Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage, but many of these ideas and practices contradict each other. Should you aim to be big or fast? Should you create a blue ocean, be adaptive, play to win—or forget about a sustainable competitive advantage altogether? In a business environment that is changing faster and becoming more uncertain and complex almost by the day, it's never been more important—or more difficult—to choose the right approach to strategy. In this book, The Boston Consulting Group's Martin Reeves, Knut Haanæs, and Janmejaya Sinha offer a proven method to determine the strategy approach that is best for your company. They start by helping you assess your business environment—how unpredictable it is, how much power you have to change it, and how harsh it is—a critical component of getting strategy right. They show how existing strategy approaches sort into five categories—Be Big, Be Fast, Be First, Be the Orchestrator, or simply Be Viable—depending on the extent of predictability, malleability, and harshness. In-depth explanations of each of these approaches will provide critical insight to help you match your approach to strategy to your environment, determine when and how to execute each one, and avoid a potentially fatal mismatch. Addressing your most pressing

strategic challenges, you'll be able to answer questions such as:

- What replaces planning when the annual cycle is obsolete?
- When can we—and when should we—shape the game to our advantage?
- How do we simultaneously implement different strategic approaches for different business units?
- How do we manage the inherent contradictions in formulating and executing different strategies across multiple businesses and geographies?

Until now, no book brings it all together and offers a practical tool for understanding which strategic approach to apply. Get started today.

Business Policy and Strategic Management McGraw Hill Professional

‘Cummings’ book is very interesting, refreshing and intellectually stimulating... It should be a mandatory textbook for all serious students of management’ - Management Learning ‘Stephen Cummings’ Recreating Strategy is currently the best book on strategy, combining a holistic and critical understanding of the issue’ -Stewart Clegg, University of Technology, Sydney ‘An imaginative attempt to bring together and apply the many analytical frameworks relating to the organization as a whole into strategy theory and practice. Written for students on strategy, change management and more general management and organization theory courses. Encourages students to question assumptions and think creatively about strategy and management. Stimulating and original’ - Long Range Planning ‘In this intriguing book [Cummings] claims to be surprised that academics critical of management theory don’t critique its history, and proposes a kind of liberation theology in response, but this is not as doctrinaire. It’s more like replacing some well-justified habits with a refreshing originality of approach. The outcome is stimulating.... The author offers a cogently argued deconstruction of some well-known frameworks in strategy, and delivers his own reinterpretation of strategic discourse. There are five longer case studies in the book and several shorter vignettes scattered throughout early chapters, as well as pedagogical aids at the end of each chapter’ - Best of Biz, The Business Information Site ‘Do you worry about organizations becoming slaves to markets? Do you wish that organizations had the nerve to build their own ethos rather than just grubbing for profit? Do you aspire to inspiration rather than perspiration? Why does management practice get in the way of thinking and creativity? Stephen

Cummings provides insight and guidance in a book of genuine scholarship and creativity’ - John McGee, President of the Strategic Management Society, USA ‘Management courses need more of what Stephen is offering. He wants us to go on an ‘unlearning curve’, one which leads to fresh thinking about strategy and the emerging roles and responsibilities of business and companies. This book not only tells us where we are coming from but, more importantly, it inspires us to think profoundly about where we could go. It’s also a very good read’ - Josephine Green, Director of Trends and Strategy, Philips ‘ReCreating Strategy provides a challenging examination of the emergence of management which combines postmodern and orthodox perspectives. Stephen Cummings is able to provide not only a fresh treatment of strategy and ethics but also to engage with a variety of potential audiences. He provokes and informs in equal measure’ - Richard Whipp, Cardiff University ‘A truly eclectic approach to strategy! Intellectually capturing, the book is great fun to read at the same time. A must for those who want to discuss management beyond styles, fads and fashions’ - Hubert Wagner, Qonsult ReCreating Strategy is written for students of strategy, change management and more general management and organization theory courses. It will provide a better understanding of how to bring together and apply the many analytical frameworks relating to the organization as a whole. Stephen Cummings challenges the view that there is never one best framework and shows why the latest theory is not necessarily better than earlier ones. The textbook includes short and long case studies, interesting pictorial aids and examples, and a generally more participative and rewarding approach than

that offered by more mainstream texts. PowerPoint slides to accompany the book are now also available by clicking on the link to 'Sample Chapters and Resources' in the left hand margin. The book also offers more scope for individual lecturers who wish to encourage students to question assumptions and think creatively about strategy and management.

Business Strategy SAGE

Businesses need strategies that determine the direction of functioning and further development. If a company deals with several multifaceted businesses, each of them subsequently requires their own strategy. The issue of strategy creation and realization is a key factor that must receive the closest possible attention. In order to assure victory and be thoroughly prepared for various directions and situations that may arise, companies create their own unique strategies. This book is primarily aimed at suggesting the necessary repertoire of knowledge and skills for strategy creating with the help of the TASGRAM integrated system - Thinking, Analyzing, Strategy, Goals, Risks, Actions, and

Monitoring. The main outcome of TASGRAM is a combined strategic table: business strategy, corporate strategy, goals, risks, actions, and monitoring. Each element in TASGRAM has a concrete goal and it helps users become more focused. Creating Business and Corporate Strategy: An Integrated Strategic System offers a new tool for company strategy creation, showcasing various cases and examples based on theory and practice. Unlike the existing tools, the suggested system of strategy creation is simpler and definite. Its main purpose is to help create and further develop the created strategy, making this book especially valuable to researchers, academics, practitioners, and students in the fields of strategy, leadership, and management.

Beat the odds with a bold strategy from McKinsey & Company

"Every once in a while, a genuinely fresh approach to business strategy appears" —legendary business professor Richard

Rumelt, UCLA McKinsey & Company's newest, most definitive, and most irreverent book on strategy—which thousands of executives are already using—is a must-read for all C-suite executives looking to create winning corporate strategies.

Strategy Beyond the Hockey Stick is spearheading an empirical revolution in the field of strategy. Based on an extensive analysis of the key factors that drove the long-term performance of thousands of global companies, the book offers a groundbreaking formula that enables you to objectively assess your strategy's real odds of future success. "This book is fundamental.

The principles laid out here, with compelling data, are a great way around the social pitfalls in strategy development." —Frans

Van Houten, CEO, Royal Philips N.V. The authors have discovered

that over a 10-year period, just 1 in 12 companies manage to jump from the middle tier of corporate performance—where 60% of companies reside, making very little economic profit—to the top quintile where 90% of global economic profit is made. This movement does not happen by magic—it depends on your company's current position, the trends it faces, and the big moves you make to give it the strongest chance of vaulting over the competition. This is not another strategy framework. Rather, *Strategy Beyond the Hockey Stick* shows, through empirical analysis and the experiences of dozens of companies that have successfully made multiple big moves, that to dramatically improve performance, you have to overcome incrementalism and corporate inertia. "A different kind of book—I couldn't put it down. Inspiring new insights on the facts of what it takes to move a company's performance, combined with practical advice on how to deal with real-life dynamics in management teams." —Jane Fraser, CEO, Citigroup Latin America
