PATEL DANIELA

Music The Nectar of Life IGI Global

This intimate and insightful account of the life of Dr. Harry (Hari) Dickman, referred to by Swami Sivananda as "the yogi of the West," features more than fifty years of correspondence between Dickman and well-known yoga masters such as Swami Sivananda, Ramana Maharshi, Paramhansa Yogananda, and almost one hundred others. Marion (Mugs) McConnell, Dickman's student, has created a brilliant and loving tribute to her teacher, who founded the Latvian Yoga Society in the early 1930s and later spread his knowledge in the U.S. with the blessings of Paramhansa Yogananda, author of *Autobiography of a Yogi*. Offering a broad range of information on yoga history, theory, and techniques from a variety of different paths, *Letters from the Yoga Masters* contains a treasure trove of previously unavailable material and presents detailed teachings about pranayama, mudras, diet, and much more, all interwoven with stories and personal anecdotes. Taken together, the rare correspondence and personal chronicles provide an unparalleled glimpse into the life of a yogi, the development of yoga in the West, and the ways that spiritual wealth is disseminated across generations.

Teachings Revealed through Correspondence from Paramhansa Yogananda, Ramana Maharshi, Swami Sivananda, and Others K B Gopalakrishnan

In this book, Lee Majewski and Ananda Bhavanani define yoga and yoga therapy as a whole person practice, demonstrating how it can help the individual to heal through their own mechanisms. The authors bring yogic concepts from theory into everyday life, exploring how yoga therapy can work with all levels of a human being at the same time (physical, energetic, emotional, intellectual and spiritual) and demonstrating that, when applied correctly, it can assist healing and facilitate an improved quality of life. The book covers deep yogic work and how it applies to cancer patients, as well as a range of other chronic conditions including respiratory diseases, cardiovascular diseases and diabetes. For each of these conditions the authors explore how yoga therapy can go beyond alleviating symptoms and work to heal the whole person.

Yoga Book Trafford Publishing

FREE DVD CONTAINS: — Right postures while practicing Pranayama — Identifying correct pattern of breathing — Step-by-step technique of Pranayama — Imagery for: Stress Management, Energization, Joint Pain & Backache, Heart & Hypertension, Asthma & Allergies and Diabetes Pranayama is in vogue today but few are really aware of its subtle yet profound effects on the mind. Pranayama involves much more than a few breathing exercises; it is a holistic experience that encompasses the body and the mind. The book explains in simple terms: — How to identify and correct our faulty patterns of breathing — How to practice pranayama with understanding and safety — Logical explanations for various aspects of Pranayama - • why one nostril is usually more open than the other and what are its implications on our mindset and diseases • how Kapalbhathi can offer peace of mind • how the vibrations of chanting soothe the mind and heal the body — How pranayama creates the interface to connect with the mind — How to program our mind towards self-empowerment, health & happiness. This book is for one and all who desire to create positive health.

A Primer for Clinicians Emerald Group Publishing

his book combines the perspectives of a dedicated yogi with that of a former anatomy professor and research associate at two major American medicine schools. He has set himself the ambitious goal of combining the modern scientific understanding of anatomy and physiology with the ancient practice of hatha yoga. The result of an obvious labour of love, the book explains hatha yoga in demystified, scientific terms while at the same time honouring its traditions. It should go a long way in helping yoga achieve the scientific recognition it deserves. Useful as both a textbook and a reference work, this is a book that all serious yoga teachers and practitioners will want on their shelves.

Swarayoga: The Art of Breathing Motilal Banarsidass Publ.

What is yoga? Stereotypical images of people practicing this ancient art range from white-bearded Indian mystics chanting 'om' on mountaintops to urban fitness fanatics contorted into uncomfortable looking positions. We recognize the name, but may not realize how the set of ideas and practices known as yoga moved from its birthplace on the Indian subcontinent to become a global phenomenon. Positioning Yoga considers how the recent development of yoga, from its introduction to Western audiences by the Indian Swami Vivekananda at the 1893 Parliament of the World's Religions in Chicago through to the present day, has generated specific forms of modern practice. Strauss takes us on an illuminating journey from India to Germany and America, and back again to India. While acknowledging yoga's point of origin, Strauss explores how yogic practices and ideas have been transformed when they cross cultural boundaries. Yoga can be defined in many ways as an attitude, a philosophic system, a set of practices, a way of being in the world but its definition is always located within a particular historical context. What makes yoga practitioners affiliated with Swami Sivananda's Divine Life Society of Rishikesh, India - whether they hail from India, North America, or Europe - unique? What values around the world have supported the surging popularity of yoga over the past century? This absorbing book considers how lifestyle values have made yoga a global industry and shows how culture is produced and disseminated across boundaries.

Positioning Yoga Lotus Press

Tantric yantras are precise geometric forms that have been used for centuries as tools for self-realization and the attainment of mystical powers. In *Tools for Tantra*, Tantric practitioner and scholar Harish Johari has re-created the exact colors and proportions of the primordial yantras along with step-by-step instructions for their accurate construction, coloring, and use.

Yoga Therapy as a Whole-Person Approach to Health SHREE VINAYAK PUBLICATION

"Spiritual freedom is to be found in the world, not away from it?? Why do I need a guru? Why should I meditate? What is the use of mantras? Why does the breath matter in spiritual practice? What is the significance of sexuality on the spiritual path? What do I do with the restless mind? Such questions, vital to the understanding of the self and the world, are explored in *Guru: Ten Doors to Ancient Wisdom*. Using the metaphor of doors, the reader is invited to enter different "chambers", each one presenting the opportunity to explore and experience the spiritual truths contained therein. The reader also learns how these spiritual concepts are, finally, only tools to take the practitioner to the ultimate goal: union with the Divine. Whether you want to begin your spiritual practice or simply understand the core concepts of Indian spirituality, this illuminating work by renowned playwright and spiritual guide, H.S. Shivaprakash, is sure to light up your path.

The Tantric Science of Brain Breathing Simon and Schuster

Yoga has evolved into a popular fitness practice across the globe. With the various schools of practice, it is imperative for practitioners to study both traditional texts and emerging scientific research in this area. *Research-Based Perspectives on the Psychophysiology of Yoga* is a unique reference source for the latest academic material on the physiological effects of yoga and cultivating a deeper understanding of yoga practice through the intersection of traditional texts and contemporary research. Including a range of topics such as occupational health, neurobiology, and women's health, this book is ideally designed for professionals, practitioners, students, educators, and academics interested in the effects, challenges, and benefits of yoga practice.

Yoga, Tantra and Meditation in Daily Life Cambridge Scholars Publishing

While medical professionals continue to practice traditional allopathic medicine, the public has turned toward nutritional and integrative medical therapies, especially for addressing the proliferation of chronic diseases. Written by leaders in the academic and scientific world, *Nutrition and Integrative Medicine: A Primer for Clinicians* presents various modalities to help restore health. This book provides users with a guide to evaluating and recommending nutritional and integrative therapies. The book offers insights on the microbiome of the human body, examines the relationship of human health to the microbiome of the food we ingest, and introduces the concept of "food as information." It provides enlightenment on anti-aging and healing modalities, mind-body medicine, and an investigation of psychological trauma as related to disease causation. Integrative therapies, including water, light, and sound therapy, are explored, and information on healing chronic disease through nutrition, the tooth-body connection, the role of toxins in disease causation, and electromagnetic field hypersensitivity, as well as its management, is presented.

PRANA - The Ancient Health Science Routledge

Millions of people practice some form of yoga, but they often do so without a clear understanding of its history, traditions, and purposes. This comprehensive bibliography, designed to assist researchers, practitioners, and general readers in navigating the extensive yoga literature, lists and comments upon English-language yoga texts published since 1981. It includes entries for more than 2,400 scholarly as well as popular works, manuals, original Sanskrit source text translations, conference proceedings, doctoral dissertations, and master's theses. Entries are arranged alphabetically by author for easy access, while thorough author, title, and subject indexes will help readers find books of interest.
