Art Fundamentals Rocky Nook, Inc.

A paperback reissue Hazel Soan's classic practical art book. Hazel Soan is a well-known and popular artist and an enthusiastic and inspirational teacher. In *The Essence of Watercolour* Hazel shows how wonderfully versatile and beguiling the medium of watercolour is and how to get the most out of it. Hazel stresses how important it is to understand the characteristics of the medium in order to exploit it to the full. She encourages the reader to explore the properties of

watercolour and to be unafraid of strength of colour and brushstroke. Hazel shows through demonstration and projects that tone is king in watercolour and illustrates how to paint light with the use of shade. Armed with this understanding she demonstrates that watercolour is not such an unforgiving medium after all: accidents and mistakes can be disguised, overridden and corrected. The *Essence of Watercolour* is a culmination of many years of Hazel's teaching and demonstrating, in which she offers inspirational insights into the secrets of watercolour painting and encourages artists to take their art to the next level.

The Fox's Tower and Other Tales

Routledge

A gripping young adult suspense novel drenched in color, mystery, and lies. New York Times and USA Today bestselling author CJ Lyons grabs you and won't let go, keeping you guessing until the very last page of *The Color of Lies*. When you can see emotions in color, motives become black and white. Even murder. Ella Cleary has always had an eye for the truth. She has synesthesia, which means she is able to read people via the waves of colors that surround them. Her unique gift has led her to trust very few people outside her family since her parents died in a fire. So when a handsome young journalist appears with no colors

surrounding him at all, her senses go on high alert. But while Alec is a mystery, Ella feels a connection to him she can't ignore. Something about him feels familiar, and she is able to talk with him in ways she can't with anyone else. Then just as feelings develop between them, Alec drops a bombshell: he believes her parents' deaths were no accident. And she may be in more danger than she's ever realized. Soon Ella doesn't know who she can trust or even who she really is. As family secrets begin to unravel and fact and fiction collide, it becomes clear that the only way for Ella to learn the truth about her past is to find a killer. *The Color of Lies*: YA suspense with themes of mystery, romance, and friendship

By New York Times and USA Today bestselling thriller writer CJ Lyons, whose adult suspense novels have sold over 2 million copies in print and digital

Features a protagonist with synesthesia, which can allow people to see sounds, taste words, or feel sensations on their skin associated with certain scents

Color and How to Use It Echo Point Books & Media

For more than 200 years the world has accepted that red, yellow and blue - the artists primaries - give new colours when mixed. And for more than 200 years artists have been struggling to mix colours on this basis. In this exciting new book, Michael Wilcox offers a total reassessment of the principles underlying colour mixing. It is the first major break-away from the traditional and limited concepts that have caused painters and others who work with colour so many problems. Back Cover.

Color Theory for the Makeup Artist Andrews McMeel Publishing

Color Theory for the Make-up Artist: Understanding Color and Light for Beauty and Special Effects analyzes and explains traditional color theory for fine artists and shows how to apply it directly toward make-up applications. Make-up artists control color the same way a painter does. They choose color palettes, match colors, blend new colors, and create designs on a canvas that is always changing. Some colors cancel others, some balance each other, and some oppose other colors. However, painters seldom have to consider inconsistencies in how their art will be lit and where it will be displayed the way that a make-up artist does. This book teaches how to mix any color using just red, yellow, blue, and white. It discusses the reason for variations in skin colors and undertones, and how to identify and match these using make-up, while choosing flattering colors for the eyes, lips, and cheeks. Colors found inside the body are explained for special effects make-up, like why we bruise, bleed, or appear sick, and ideas and techniques are also described for painting prosthetics. The book also explains how lighting affects color on film, television, theater, and

photography sets, and how to properly light a workspace for successful applications. Whether you are a professional or a beginner, you will never stop learning. There will always be new products, techniques, and fashions - this book provides guidance and inspiration to keep practicing, creating, and honing your skills.

The Color of Lies 3dtotal Publishing

This introduction to light for students and visual artists explores the way light can be used to create realistic and fantastical effects in a wide range of media. Divided into three parts, the clearly written text explains: the fundamental properties of natural and artificial light; how to create realistic images by observing people and the environment; the creative use of light in composition and design. Updated with revised photos and artwork, as well as 15 practical exercises and new online video material, this second edition is an indispensable resource for animators, digital illustrators, painters, photographers and artists working in any medium.

LEARNING HOW TO CAPTURE SUCH
 QUALITY HAS NEVER BEEN EASIER! Inside
 you'll find guidelines for rendering
 accurate skin tones in a variety of media,
 including watercolor, oil and pastel. You'll
 begin with a review of the five essential
 painting elements (drawing, value, color,
 composition and edges), then learn how
 light and color influence the appearance of

skin tones. Best-selling artist Chris Saper provides the advice and examples that make every lesson and technique easy to understand—immediately improving the quality of your work. You'll discover how to:

- Paint the four major skin color groups (Caucasian, African American, Asian, and Hispanic)
- Refine these colors into dozens

of possible variations within each group

- Select your palette and mix hues for clean, beautiful colors
- Determine the color and temperature of light that falls on your subject
- Paint direct and indirect sunlight, artificial light and highlights of light
- Master the four elements that determine

color in shadow

- Use photographic references when you can't paint directly from life

You'll also find seven step-by-step demonstrations and an appendix of sample color charts for each major skin type under a range of lighting variations. It's all you need to bring your portraits to life!
