With prices for the older Mercedes-Benz models, such as the 'Pagoda' and W107 SLs heading ever higher, many enthusiasts are now starting to look at

the R129 series SL. Produced from 1989-2001, it combined timeless elegance, luxury and effortless performance, with V12 engines available for the first time. The R129 was the last SL with a detachable hardtop and - for many Mercedes fans - the last to be built to the marque's legendary standards of construction. With that sophistication came new levels of equipment and unprecedented complexity. For would-be buyers today, there are more points than ever to watch out for. The cars' weight also puts strain on components such as the brakes and suspension. Choosing a good R129 demands care. This buyer's guide will help you do just that. Learn about the differences between models, and what to look for when buying. What are the true running costs, and what issues - with the mechanicals, body or interior - should you be wary of? Find the answers to these questions and information about the clubs and specialists who can help look after your R129 today.

Alfa Romeo 916 GTV and Spider traces the complete story of the Alfa Romeo GTV and Spider models produced between 1994 - 2005, commonly known to enthusiasts by the manufacturer's project code as the 916 series. The 916 models would always be controversial - they replaced the iconic Spider, the best-selling Alfa Romeo sports model of all time, and the brand-establishing Alfetta GTV. Sharing components and a platform with a humble Fiat hatchback, would the cars ever be considered 'real' Alfa Romeos? The cars were critically acclaimed, and, though they faced tough competition in the late 1990s from the likes of the Audi TT, they remained in production for over a decade. Topics covered include: Full history of the 916 series GTV and Spider models; Design, development and evolution of the models from 1994 - 2005; Participation of the GTV in motorsport; Model variations in depth through all three facelifts; Previously unpublished production figures, and chassis numbers for the desirable, limited-edition GTV Cup model. Comprehensively researched guide to the entire lifespan of the 916 series. Will appeal to Alfa Romeo and automotive enthusiasts. The history and design process are examined along with

an in-depth guide to each of the model variants produced. The cars' current position in the classic car market is considered. Superbly illustrated with 240 colour photographs. Robert Foskett is a life-long Italian car enthusiast with a special interest in Alfa Romeo.

Behind the walls of an old farm somewhere in France, several dozen antique classic cars had been neglected for decades, enjoying a kind of 100-year sleep. Surrounded by a profusion of plants and practically forgotten by their owner, no one knew of the collection until, in 1983, permission was granted for it to be photographed. The commission fell to one of Europe's leading photographers, Herbert W. Hesselmann, who promised never to disclose the identity of the owner or location of the collection, and the story made headlines all over the world. This haunting compilation expertly captures the mystery and drama of the vintage car collection of the century, and is accompanied with commentary by Halwart Schrader. Although the collection shown here no longer exists, the untouched patina of these cars still exerts a powerful and mysterious fascination, inviting viewers to explore a forgotten era.
