*Friendly
Fascism*
Simon and
Schuster
The question
of how
ordinary
people related
to totalitarian
regimes is still
far from being
answered. The
tension
between
repression
and consensus
makes
analysis
difficult;
where one

ends and the
other begins is
never easy to
determine. In
the case of
fascist Italy,
recent
scholarship
has tended to
tilt the
balance in
favour of
popular
consensus for
the regime,
identifying in
the novel
ideological
and cultural
aspects of
Mussolini's
rule a 'political
religion' which
bound the
population to
the fascist
leader. The
Party and the
People
presents a
different
picture. While

not
underestimating
the force of
ideological
factors, Paul
Corner argues
that 'real
existing
Fascism', as
lived by a
large part of
the
population,
was in fact an
increasingly
negative
experience
and reflected
few of those
colourful and
attractive
features of
fascist
propaganda
which have
induced more
favourable
interpretations
of the regime.
Distinguishing
clearly
between the

fascist project and its realisation, Corner examines the ways in which the fascist party asserted itself at the local level in the widely-differing areas of Italy, at its corruption and malfunctioning, and at the mounting wave of popular resentment against it during the course of the 1930s - resentment and hostility which, in effect, signalled the failure of the project. The Party and the

People, based largely on unpublished archival material, concludes by suggesting that the abuse of power by fascists mirrors much wider problems in Italy related to the relationship between the public and the private and to the modes of utilisation of power, both in the past and in the present. In Defense of Internment Simon and Schuster Liberté? Egalité? Fraternité? Or just plain gall?

In this provocative and brilliantly researched history of how the French have dealt with the United States, John J. Miller and Mark Molesky demonstrate that the cherished idea of French friendship has little basis in reality. Despite the myth of the "sister republics," the French have always been our rivals, and have harmed and obstructed our interests more often than not. This

history of French hostility goes back to 1704, when a group of French and Indians massacred American settlers in Deerfield, Massachusetts . The authors also debunk the myth of French aid during the Revolution: contrary to popular notions, the French did not enter the war until very late and were mainly interested in hurting their rivals, the British. After the war, the French

continued to see themselves as major players in the Western hemisphere and shaped their policies to limit the growth and power of the new nation. The notorious XYZ affair, involving French efforts to undermine the government of George Washington, led to an undeclared naval war with France in 1798. During the Civil War, the French supported the Confederacy and installed a puppet

emperor in Mexico. In the twentieth century, Americans clashed with the French repeatedly. The French victory over President Wilson at Versailles imposed a short-sighted and punitive settlement on Germany that paved the way for the rise of fascism in the 1930s. During World War II, Vichy French troops killed hundreds of American soldiers in North Africa, and diehard French fascist units fought

against the Allies in the rubble of Berlin. During the Cold War, Charles DeGaulle yanked France out of NATO and obstructed our efforts to roll back Soviet expansion. The legacy of French imperial power has been no less disastrous. The French left Haiti in a shambles, got us into Vietnam, and educated many of the world's worst tyrants at their elite universities, including Pol

Pot, the genocidal Cambodian dictator. The fascist Baath regimes in Iraq and Syria are another legacy of failed French colonialism. Americans have been particularly irritated by French cultural arrogance—their crusades against American movies, McDonalds, Disney, and the exclusion of American words from their language have always rubbed us the wrong way. This irritation

has now blossomed into outrage. Our Oldest Enemy shows why that outrage is justified. **How the GOP Right Made Political History** HarperCollins Originally published: 2018. Updated with a new preface. **The Secret History of the Left from Mussolini to the Politics of Meaning** Random House Everything you've been taught about the World War II "internment

camps" in America is wrong: They were not created primarily because of racism or wartime hysteria They did not target only those of Japanese descent They were not Nazi-style death camps In her latest investigative tour-de-force, New York Times best-selling author Michelle Malkin sets the historical record straight-and debunks radical ethnic alarmists who distort history

to undermine common-sense, national security profiling. The need for this myth-shattering book is vital. President Bush's opponents have attacked every homeland defense policy as tantamount to the "racist" and "unjustified" World War II internment. Bush's own transportation secretary, Norm Mineta, continues to milk his childhood experience at a relocation

camp as an excuse to ban profiling at airports. Misguided guilt about the past continues to hamper our ability to prevent future terrorist attacks. In Defense of Internment shows that the detention of enemy aliens, and the mass evacuation and relocation of ethnic Japanese from the West Coast were not the result of irrational hatred or conspiratorial bigotry. This document-packed book highlights the

vast amount of intelligence, including top-secret "MAGIC" messages, which revealed the Japanese espionage threat on the West Coast. Malkin also tells the truth about: who resided in enemy alien internment camps (nearly half were of European ancestry) what the West Coast relocation centers were really like (tens of thousands of ethnic Japanese were allowed to

leave; hundreds voluntarily chose to move in) why the \$1.65 billion federal reparations law for Japanese internees and evacuees was a bipartisan disaster how both Japanese American and Arab/Muslim American leaders have united to undermine America's safety With trademark fearlessness, Malkin adds desperately needed perspective to the ongoing debate about the balance

between civil liberties and national security. In Defense of Internment will outrage, enlighten, and radically change the way you view the past-and the present. [From Ancient Rome to the Twenty-First Century](#) Crown Forum A historical look at the emergence of fascism in Europe Drawing on a Gramscian theoretical perspective and development a systematic comparative approach, The

Civic Foundations of Fascism in Europe: Italy, Spain and Romania 1870-1945 challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes, just like mass democracies, depended on well-organized, rather than weak and atomized, civil societies. In making this argument the book focuses on three crucial cases of inter-war authoritarianism: Italy, Spain and Romania, selected because they are all counter-intuitive from the perspective of established explanations, while usefully demonstrating the range of fascist outcomes in interwar Europe. Civic Foundations argues that, in all three cases, fascism emerged because the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony. Riley then traces the specific form that this crisis took depending on the form of civil society development (autonomous-as in Italy, elite dominated as in Spain, or state dominated as in Romania) in the nineteenth century. Fascism Harvard University Press "Fascists," "Brownshirts," "jackbooted stormtroopers"

”—such are the insults typically hurled at conservatives by their liberal opponents. Calling someone a fascist is the fastest way to shut them up, defining their views as beyond the political pale. But who are the real fascists in our midst? Liberal Fascism offers a startling new perspective on the theories and practices that define fascist politics. Replacing conveniently manufactured myths with

surprising and enlightening research, Jonah Goldberg reminds us that the original fascists were really on the left, and that liberals from Woodrow Wilson to FDR to Hillary Clinton have advocated policies and principles remarkably similar to those of Hitler's National Socialism and Mussolini's Fascism. Contrary to what most people think, the Nazis were ardent

socialists (hence the term “National socialism”). They believed in free health care and guaranteed jobs. They confiscated wealth and spent vast sums on public education. They purged the church from public policy, promoted a new form of pagan spirituality, and inserted the authority of the state into every nook and cranny of daily life. The Nazis declared war

on smoking, supported abortion, euthanasia, and gun control. They loathed the free market, provided generous pensions for the elderly, and maintained a strict racial quota system in their universities—where campus speech codes were all the rage. The Nazis led the world in organic farming and alternative medicine. Hitler was a strict vegetarian, and Himmler

was an animal rights activist. Do these striking parallels mean that today's liberals are genocidal maniacs, intent on conquering the world and imposing a new racial order? Not at all. Yet it is hard to deny that modern progressivism and classical fascism shared the same intellectual roots. We often forget, for example, that Mussolini and Hitler had many admirers in the United

States. W.E.B. Du Bois was inspired by Hitler's Germany, and Irving Berlin praised Mussolini in song. Many fascist tenets were espoused by American progressives like John Dewey and Woodrow Wilson, and FDR incorporated fascist policies in the New Deal. Fascism was an international movement that appeared in different forms in different countries, depending on

the vagaries of national culture and temperament. In Germany, fascism appeared as genocidal racist nationalism. In America, it took a “friendlier,” more liberal form. The modern heirs of this “friendly fascist” tradition include the New York Times, the Democratic Party, the Ivy League professoriate, and the liberals of Hollywood. The quintessential

Liberal Fascist isn't an SS storm trooper; it is a female grade school teacher with an education degree from Brown or Swarthmore. These assertions may sound strange to modern ears, but that is because we have forgotten what fascism is. In this angry, funny, smart, contentious book, Jonah Goldberg turns our preconceptions inside out and shows us the true meaning of Liberal

Fascism.

From National Book Award finalist David I. Kertzer

comes the gripping story of Pope Pius XI's secret relations with Italian dictator Benito Mussolini. This groundbreaking work, based on seven years of research in the Vatican and Fascist archives, including reports from Mussolini's spies inside the highest levels of the Church, will forever change our understanding of the Vatican's role in the rise of Fascism in Europe. The Pope and

Mussolini tells the story of two men who came to power in 1922, and together changed the course of twentieth-century history. In most respects, they could not have been more different. One was scholarly and devout, the other thuggish and profane. Yet Pius XI and "Il Duce" had many things in common. They shared a distrust of democracy and a visceral hatred of Communism.

Both were prone to sudden fits of temper and were fiercely protective of the prerogatives of their office. ("We have many interests to protect," the Pope declared, soon after Mussolini seized control of the government in 1922.) Each relied on the other to consolidate his power and achieve his political goals. In a challenge to the conventional history of this period, in which a heroic

Church does battle with the Fascist regime, Kertzer shows how Pius XI played a crucial role in making Mussolini's dictatorship possible and keeping him in power. In exchange for Vatican support, Mussolini restored many of the privileges the Church had lost and gave in to the pope's demands that the police enforce Catholic morality. Yet in the last years of his

life—as the Italian dictator grew ever closer to Hitler—the pontiff's faith in this treacherous bargain started to waver. With his health failing, he began to lash out at the Duce and threatened to denounce Mussolini's anti-Semitic racial laws before it was too late. Horrified by the threat to the Church-Fascist alliance, the Vatican's inner circle, including the future Pope

Pius XII, struggled to restrain the headstrong pope from destroying a partnership that had served both the Church and the dictator for many years. The Pope and Mussolini brims with memorable portraits of the men who helped enable the reign of Fascism in Italy: Father Pietro Tacchi Venturi, Pius's personal emissary to the dictator, a wily anti-Semite known as Mussolini's Rasputin;

Victor Emmanuel III, the king of Italy, an object of widespread derision who lacked the stature—literally and figuratively—to stand up to the domineering Duce; and Cardinal Secretary of State Eugenio Pacelli, whose political skills and ambition made him Mussolini’s most powerful ally inside the Vatican, and positioned him to succeed the pontiff as the controversial Pius XII, whose actions

during World War II would be subject for debate for decades to come. With the recent opening of the Vatican archives covering Pius XI’s papacy, the full story of the Pope’s complex relationship with his Fascist partner can finally be told. Vivid, dramatic, with surprises at every turn, *The Pope and Mussolini* is history writ large and with the lightning hand of truth.

Deliver Us from Evil

Harper Collins From David Brat, the college professor who made political headlines when he unseated Majority Leader Eric Cantor, comes his plan for restoring fiscal liberty for America. Congressman David Brat’s odds-defying win against Eric Cantor -- a triumph of a modest \$200,000 campaign fund against a \$5 million war chest -- immediately brought David Brat, heretofore a

Barack Obama
casts himself
as a disciple
of reason:
He's a
pragmatist,
opposed to

the ideology and drama of the Right, solely concerned with “what works.” And today’s liberals follow his lead, spouting countless clichés such as: • One man’s terrorist is another man’s freedom fighter: Sure, if the other man is an idiot. Was Martin Luther King Jr. a terrorist? Was Bin Laden a freedom fighter? • Violence never solves anything: Really? It

solved our problems with King George III and ended slavery. • We need complete separation of church and state: In other words, all expressions of faith should be barred from politics . . . except when they support liberal programs. With humor and passion, Goldberg dismantles these and many other Trojan horses that liberals use to cheat in the war of ideas. He shows that the Progressive

tradition of denying an ideological agenda while pursuing it vigorously under the false flag of reasonableness is alive and well. And he reveals how this dangerous game may lead us further down the path of self-destruction. are necessary
to achieve the
goals he or
she might
have." The
twentieth

century was defined by the clash between democracy and Fascism, a struggle that created uncertainty about the survival of human freedom and left millions dead. Given the horrors of that experience, one might expect the world to reject the spiritual successors to Hitler and Mussolini should they arise in our era. Fascism: A Warning is drawn from Madeleine Albright's experiences

as a child in war-torn Europe and her distinguished career as a diplomat to question that assumption. Fascism, as she shows, not only endured through the twentieth century but now presents a more virulent threat to peace and justice than at any time since the end of World War II. The momentum toward democracy that swept the world when the Berlin Wall fell has gone

into reverse. The United States, which historically championed the free world, is led by a president who exacerbates division and heaps scorn on democratic institutions. In many countries, economic, technological, and cultural factors are weakening the political center and empowering the extremes of right and left. Contemporary leaders such as Vladimir Putin and Kim Jong-un are employing

many of the tactics used by Fascists in the 1920s and 30s. Fascism: A Warning is a book for our times that is relevant to all times. Written by someone who not only studied history but helped to shape it, this call to arms teaches us the lessons we must understand and the questions we must answer if we are to save ourselves from repeating the tragic errors of the past.

A History
Crown

In this provocative history of the Right in modern America, Critchlow finds a deep dilemma inherent in how conservative Republicans expressed their anti-statist ideology in an age of mass democracy and Cold War hostilities. As the Right moved forward with its political program, partisanship intensified and ideological division widened--both between the

parties and across the electorate. This intensified partisanship reflects the vibrancy of a mature democracy, Critchlow argues, and a new level of political engagement despite its disquieting effect on American political debate.

**The Enemy
At Home**

Simon and Schuster
Nearly three years have passed since that tragic day in September. Since then, our wounds

have healed, but our senses and memories have dulled. At first, the nation rallied behind its leader. But by the time the confrontation with Iraq presented itself, our courage and moral certainty seemed to fade in the face of partisan bickering and posturing. Now the political left and the Democratic Party are trying to use the demanding aftermath of the war to

exploit our national cause for their own political advantage. How could we allow ourselves to forget so soon? --from *Deliver Us from Evil* Sean Hannity's first blockbuster book, the New York Times bestseller *Let Freedom Ring*, cemented his place as the freshest and most compelling conservative voice in the country. As the host of the phenomenally successful *Hannity & Colmes* on the Fox News

Channel and *The Sean Hannity Show* on ABC Radio, Hannity has won a wildly devoted fan base. Now he brings his plainspoken, take-no-prisoners style to the continuing War on Terror abroad -- and liberalism at home -- in *Deliver Us from Evil*. "Evil exists," Hannity asserts. "It is real, and it means to harm us." And in these pages he revisits the harsh lessons America has learned in confronting

evil in the past and the present, to illuminate the course we must take in the future. Tracing a direct line from Adolf Hitler and Joseph Stalin through Saddam Hussein and Osama bin Laden, he reminds us of the courage and moral clarity of our great leaders. And he reveals how the disgraceful history of appeasement has reached forward from the days of Neville

Chamberlain and Jimmy Carter to corrupt the unrepentant leftists of the modern Democratic Party -- from Howard Dean and John Kerry to Bill and Hillary Clinton. As Americans face the ongoing war against terrorists and their state sponsors around the world, Sean Hannity reminds us that we must also cope with the continuing scourge of accommodation and cowardice at home. With

his trademark blend of passion and hard-hitting commentary, he urges Americans to recognize the dangers of putting our faith in toothless "multilateralism" when the times call for decisive action. For only through strong defense of our freedoms, at home and around the world, can we preserve America's security and liberty in the dangerous twenty-first century.

The Secret

History of the American Left , from the Morning After

Princeton University Press
A landmark work of more than one hundred scholars, The Heritage Guide to the Constitution is a unique line-by-line analysis explaining every clause of America's founding charter and its contemporary meaning. In this fully revised second edition, leading

scholars in law, history, and public policy offer more than two hundred updated and incisive essays on every clause of the Constitution. From the stirring words of the Preamble to the Twenty-seventh Amendment, you will gain new insights into the ideas that made America, important debates that continue from our Founding, and the Constitution's true meaning for our nation
The Career of

a Concept
Liberal Fascism
The Secret History of the American Left, from Mussolini to the Politics of Change
The Pledge of Allegiance was the origin of the Nazi salute and Nazi behavior. Under Germany's Nazis, the swastika symbol was crossed "S" letters for "SOCIALIST" (for the National Socialist German Workers Party). Those are only two of the amazing

discoveries in this blockbuster that have been left out of similar books on this topic. This blood drenched book offers eye-popping new analysis of the origins of fascism and explores the discoveries of the historian Dr. Rex Curry. Replacing conveniently manufactured myths with surprising research, the author Micky Barnetti reminds us of the history of robotic chanting en masse and on

cue, accompanied by violence for anyone who refused to submit. Discover the secret of how the military salute was the origin of the fascist salute. Study the Wholecaust (of which the Holocaust was a part). Learn how the word "Fascist" is related to the word "faggot." Calling someone a fascist is the fastest way to shut someone up, defining their views as beyond the pale. But who are the real fascists in our

midst? According to the author Micky Barnetti, the pledge remains the first fascist bullying that begins each day in government schools (fascist schools) in Police State USA. The quintessential Liberal Fascist isn't an SS storm trooper; it is a public school teacher brainwashing children every day for 12 years of their lives. These revelations may sound odd to modern ears, but that

is because we have forgotten what fascism is. In this smart, contentious book, Barnetti turns our preconceptions upside down and shows us the unvarnished meaning of Liberal Fascism. Find out why, if the truth were taught about the Pledge of Allegiance, then everyone (other than fascist kooks) would refuse to perform Francis Bellamy's quotidian mechanical ritual. The fascist salute

was performed by public officials in the USA from 1892 through 1942. What happened to the photographs and films of the American fascist salute performed by federal, state, county, and local officials? Those photos and films are rare because people don't want to know the truth. Public officials in the USA who preceded the Adolf Hitler and the Benito Mussolini were sources for the stiff-

armed salute (and robotic chanting) in those countries and other foreign countries. Explore how the "ancient Roman salute" myth originated from the city of Rome in the state of New York (not Italy), Francis Bellamy's hometown. Learn about Mussolini's strange gift to the city of Rome, NY: a statue of two human male infants suckling on a female wolf. That statue remains on display in

Rome, NY. Find out who you are, what you are, and how you got to be that way. Also learn who you should blame: your government's schools (fascist schools). Remove the pledge from the flag; remove flags from schools; remove schools from government. The Pointer Institute proudly presents another news- breaking volume from the Dead Writers Club (DWC) and	Micky Barnetti. A portion of the proceeds of the sale of this book will aid the "Stop the Pledge Foundation" to liberate children and adults from the Pledge of Allegiance. --	---	---

his consistent refusal to back down from principle makes the book a crucial intervention in our political moment.”—SANTA FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it

come from? As long as there has been fascism, there has been anti-fascism — also known as “antifa.” Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with

balACLAVAS covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, “The anti-fascists saved

our lives.")
Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and

gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it,

offering insight into the growing but little-understood resistance fighting back against fascism in all its guises. *Suicide of the West* Northern Illinois University Press Enough of the leftist lunatics like Rosie O'Donnell who think "Radical Christians" are "as big a threat to America as Radical Muslims." Enough of the hyperbolic liberal rhetoric comparing Bush to Saddam and

Mel Gibson to Hitler. Enough of the hyper-partisan, ultra-PC liberal media, which often seem more sympathetic to the "victims of humiliation" at Abu Ghraib than to our troops dying at the hands of Iraqi fundamentalists. Enough, too, of the gutless wonders on the right who don't have the courage to stand up for their own convictions. Enough of their pandering, trolling for votes, and

outspending the Democrats. Now with powerful and provocative new material, Bernard Goldberg's *Crazies to the Left of Me*, *Wimps to the Right* sounds an even louder alarm than before—warning that, if the wimps on the right don't regain their courage and reclaim their principles, the crazies on the left just might win the White House in '08. *Proof That Principles Matter* Penguin

Den konservativ kommentator gør op med begreberne højre og venstre i det politiske spektrum. The Pope and Mussolini Penguin Today the word 'fascist' is usually an insult aimed at those on the right, from neocons to big business. But what does it really mean? What if the true heirs to fascism were actually those who thought of themselves as being terribly nice and progressive -

<p>the liberals? Jonah Goldberg's excoriating, opinion- driving, US bestseller explains why. Here he destroys long- held myths to reveal why the most insidious attempts to control our lives originate from the left, whether it's smoking bans or security cameras.</p>	<p>Journeying through history and across culture, he uses surprising examples ranging from Woodrow Wilson's police state to the Clinton personality cult, the military chic of 60s' student radicals to Hollywood's totalitarian aesthetics, to show that it is</p>	<p>modern progressivism - and not conservatism - that shares the same intellectual roots as fascism. This angry, funny, smart and contentious book looks behind the friendly face of the well- meaning liberal, and turns our preconception s inside out.</p>
