A beautiful woman in winged eyeliner and a low-cut top lies on a bed urging her favourite cricketer to win the next match. In another post, she pouts at the camera from a hot tub. She posts a selfie with a cleric, wearing his cap at a jaunty angle. Her posts are viewed

millions of times and the comments beneath them are full of hate. As her notoriety grows, the comments made about her on national talk shows are just as vitriolic. They call her Pakistan's Kim Kardashian, they say she'll do anything for attention. When she's murdered, they're transfixed by the footage of her body. Drawing on interviews and in-depth research, Sanam Maher pieces together Qandeel's life from the village where she grew up in the backwaters of rural Pakistan, to her stint in a women's shelter after escaping her marriage, to her incarnation as a social media sensation and the Muslim world's most unlikely feminist icon.

Secret Wars is the first book to systematically analyze the ways powerful states covertly participate in foreign wars, showing a recurring pattern of such behavior stretching from World War I to U.S.-occupied Iraq. Investigating what governments keep secret during wars and why, Austin Carson argues that leaders maintain the secrecy of state involvement as a response to the persistent

concern of limiting war. Keeping interventions “backstage” helps control escalation dynamics, insulating leaders from domestic pressures while communicating their interest in keeping a war contained. Carson shows that covert interventions can help control escalation, but they are almost always detected by other major powers. However, the shared value of limiting war can lead adversaries to keep secret the interventions they detect, as when American leaders concealed clashes with Soviet pilots during the Korean War. Escalation concerns can also cause leaders to ignore covert interventions that have become an open secret. From Nazi Germany’s role in the Spanish Civil War to American covert operations during the Vietnam War, Carson presents new insights about some of the most influential conflicts of the twentieth century. Parting the curtain on the secret side of modern war, *Secret Wars* provides important lessons about how rival state powers collude and compete, and the ways in which they avoid outright military confrontations.

From Roxane Gay to Leslie Jamison, thirty brilliant writers share their timeless stories about the everlasting magic—and occasional misery—of living in the Big Apple, in a new edition of the classic anthology. In the revised edition of this classic collection, thirty writers share their own stories of loving and leaving New York, capturing the mesmerizing allure the city has always had for writers, poets, and wandering spirits. Their essays often begin as love stories do, with the passion of something newly discovered: the crush of subway crowds, the streets filled with manic energy, and the sudden, unblinking certainty that this is the only place on Earth where one can become exactly who she is meant to be. They also share the grief that comes like a gut-punch, when the grand metropolis loses its magic and the pressures of New York’s frenetic life wear thin for even the most dedicated dwellers. As friends move away, rents soar, and love—still—remains just out of reach, each writer’s goodbye is singular and universal, just like New York itself.

Gujarat Files is the account of an eight-month long undercover investigation by journalist Rana Ayyub into the Gujarat riots, fake encounters and the murder of state Home Minister Haren Pandya that brings to the fore startling revelations. Posing as Maithili Tyagi, a filmmaker from the American Film Institute Conservatory, Rana met bureaucrats and top cops in Gujarat who held pivotal positions in the state between 2001 and 2010. The transcripts of the sting operation reveal the complicity of the state and its officials in crimes against humanity. With sensational disclosures about cases that run parallel to Narendra Modi and Amit Shah's ascent to power and their journey from Gujarat to New Delhi, the book tells you the hushed truth of the state in the words of those who developed amnesia while speaking before commissions of enquiry, but held nothing back in the secretly taped videos which form the basis of this remarkable read.

“A wild, rollicking ride into the heart of horse country—these essays get at what it means to love horses, in all that love’s complexity.” —Anton DiSclafani, author of *The Yonahlossee Riding Camp for Girls* A compelling and provocative essay collection that smashes stereotypes and redefines the meaning of the term “horse girl,” broadening it for women of all cultural backgrounds. As a child, horses consumed Halimah Marcus’ imagination. When she wasn’t around horses she was pretending to be one, cantering on two legs, hands poised to hold invisible reins. To her classmates, girls like Halimah were known as “horse girls,” weird and overzealous, absent from the social worlds of their peers. Decades later, when memes about “horse girl energy,” began appearing across social media—Halimah reluctantly recognized herself. The jokes imagine girls as blinkered as carriage ponies, oblivious to the mockery behind their backs. The stereotypical horse girl is also white, thin, rich, and straight, a daughter of privilege. Yet so many riders don’t fit this narrow, damaging ideal, and relate to horses in profound ways that include ambivalence and regret, as well as unbridled passion and devotion. Featuring some of the most striking voices in contemporary literature—including Carmen Maria Machado, Pulitzer-prize winner Jane Smiley, T Kira Madden, Maggie Shipstead, and Courtney Maum—*Horse Girls* reframes the iconic bond between girls and horses with the complexity and nuance it deserves. And it showcases powerful emerging voices like Braudie Blais-Billie, on the connection between her Seminole and Quebécois heritage; Sarah Enelow-Snyder, on growing up as a Black barrel racer in central Texas; and Nur Nasreen Ibrahim, on the colonialist influence on horse culture in Pakistan. By turns thought-provoking and personal, *Horse Girls* reclaims its titular stereotype to ask bold questions about autonomy and desire, privilege and ambition, identity and freedom, and the competing forces of domestication and wildness.

The West’s two-century epoch as global powerhouse is at an end. A new world order, with China and India as the strongest economies, dawns. How will the West react to its new status of superpower in decline? In Kishore Mahbubani’s timely polemic, he argues passionately that the West can no longer presume to impose its ideology on the world, and crucially, that it must stop seeking to intervene, politically and militarily, in the affairs of other nations. He examines the West’s greatest follies of recent times: the humiliation of Russia at the end of the Cold War, which led to the rise of Putin, and the invasion of Iraq after 9/11, which destabilised the Middle East. Yet, he argues, essential to future world peace are the Western constructs of democracy and reason, which it must continue to

promote, by diplomacy rather than force, via multilateral institutions of global governance such as the UN. Only by recognising its changing status, and seeking to influence rather than dominate, he warns, can the West continue to play a key geopolitical role. 'Kishore Mahbubani might well be the most intelligent, friendly and doggedly persistent critic of the West. In this brief book, he delivers some of his trademark analysis and pungent observations. We should all think of it as the cold shower that is urgently needed to revive the West' Fareed Zakaria, author of *The Post-American World* 'A powerful, disputatious book. It's not comfortable reading, and it wasn't meant to be' Paul Kennedy, Director of International Security Studies and Professor of History at Yale University

But Amara--the Queen of the #HorseGirls--and her posse aren't going to let the certifiably dork-tagious *Wills* trot her way into their club so easily. In Jonah Blank's important, myth-shattering book, the West gets its first look at the Daudi Bohras, a unique Muslim denomination who have found the core of their religious beliefs largely compatible with modern ideology. Combining orthodox Muslim prayer, dress, and practice with secular education, relative gender equality, and Internet use, this community serves as a surprising reminder that the central values of "modernity" are hardly limited to the West.

Over the last fifteen years, Pakistan has come to be defined exclusively in terms of its struggle with terror. But are ordinary Pakistanis extremists? And what explains how Pakistanis think? Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position—a top-down security perspective, that renders a one-dimensional picture of what is at its heart a complex, richly textured country of 200 million people. In this book, using rigorous analysis of survey data, in-depth interviews in schools and universities in Pakistan, historical narrative reporting, and her own intuitive understanding of the country, Madiha Afzal gives the full picture of Pakistan's relationship with extremism. The author lays out Pakistanis' own views on terrorist groups, on jihad, on religious minorities and non-Muslims, on America, and on their place in the world. The views are not radical at first glance, but are riddled with conspiracy theories. Afzal explains how the two pillars that define the Pakistani state—Islam and a paranoia about India—have led to a regressive form of Islamization in Pakistan's narratives, laws, and curricula. These, in turn, have shaped its citizens' attitudes. Afzal traces this outlook to Pakistan's unique and tortured birth. She examines the rhetoric and the strategic actions of three actors in Pakistani politics—the military, the civilian governments, and the Islamist parties—and their relationships with militant groups. She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence. The author also explains that the educational regime has become a vital element in shaping citizens' thinking. How many years one attends school, whether the school is public, private, or a madrassa, and what curricula is followed all affect Pakistanis' attitudes about terrorism and the rest of the world. In the end, Afzal suggests how this beleaguered nation—one with seemingly insurmountable problems in governance and education—can change course.
