Film and television have been accepted as having a pervasive influence on how people understand the world. An important aspect of this is the relationship of history and film. The different views of the past created by film, television, and video are only now attracting closer attention from historians, cultural critics, and filmmakers. This volume seeks to advance the critical exploration scholars have recently begun. Barta begins by addressing the various ways the past is screened for our understanding and relates the art of film to other media. The essays that follow deal primarily with the changing perspectives of political and social developments—and changing concepts of ideology, gender, or culture—in films and television

programs made for historically shaped reasons. Chapters by filmmakers explore issues of context and intent in their own projects. Scholars and general readers interested in film and cultural studies will find this an important volume.

As the Egyptian revolution unfolded throughout 2011 and the ensuing years, no one was better positioned to comment on it—and try to push it in productive directions—than best-selling novelist and political commentator Alaa Al-Aswany. For years a leading critic of the Mubarak regime, Al-Aswany used his weekly newspaper column for Al-Masry Al-Youm to propound the revolution's ideals and to confront the increasingly troubled politics of its aftermath. This book presents, for the first time in English, all of Al-Aswany's columns from the period, a comprehensive account of the turmoil of the post-revolutionary years, and a portrait of a country and a people in flux. Each column is presented along with a context-setting

introduction, as well as notes and a glossary, all designed to give non-Egyptian readers the background they need to understand the events and figures that Al-Aswany chronicles. The result is a definitive portrait of Egypt today—how it got here, and where it might be headed.

Dedicated to documenting the life of America's best-known advocate for peace and justice, The Papers of Martin Luther King, Jr. breaks the chronology of its series to present King's never-before-published sermon file. In 1997 Mrs. Coretta Scott King granted the King Papers Project permission to examine papers kept in boxes in the basement of the Kings' home. The most significant

finding was a battered cardboard box that held more than two hundred folders containing documents King used to prepare his celebrated sermons. This private collection that King kept in his study sheds considerable light on the theology and preaching preparation of one of the most noted orators of the modern era. These illuminating papers reveal that King's concern about poverty, human rights, and social justice was clearly present in his earliest handwritten sermons, which conveyed a message of faith, hope, and love for the dispossessed. His enduring message can be charted through his years as a seminary student, as pastor of Dexter Avenue Baptist Church, as a leader of the Montgomery bus boycott, and, ultimately, as an internationally

renowned proponent of human rights who saw himself mainly as a preacher and "advocate of the social gospel." Ten of the original and unedited sermons King submitted for publication in the 1963 book *Strength to Love* and audio versions of King's most famous sermons are the culmination of this groundbreaking work.

Electric propulsion for boats was developed in the early 19th century and—despite the advent of the internal combustion engine—continued with the perfecting of the modern turbo-electric ship. Sustainable and hybrid technologies, pioneered in small inland watercraft toward the end of the 20th century, have in recent years been

scaled up to create integrated electric drives for the largest ocean-going vessels. This comprehensive history traces the birth and rebirth of the electric boat from 1835 to the present, celebrating the Golden Age of electric launches, 1880–1910.

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to

conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

The Anachronistic Turn: Historical Fiction, Drama, Film and Television is the first study to investigate the ways in which the creative use of anachronism in

historical fictions can allow us to rethink the relationship between past and present. Through an examination of literary, cinematic, and popular texts and practices, this book investigates how twenty-first century historical fictions use creative anachronisms as a way of understanding modern issues and anxieties. Drawing together a wide range of texts across all forms of historical fiction - novels, dramas, musicals, films and television - this book re-frames anachronism not as an error, but as a deliberate strategy that emphasises the fictionalising tendencies of all forms of historical writing. The book achieves this by exploring three core themes: the developing trends in the twenty-first century for creators of historical fiction to include deliberate

anachronisms, such as contemporary references, music, and language; the ways in which the deliberate use of anachronism in historical fiction can allow us to rethink the relationship between past and present, and; the way that contemporary historical fiction uses anachronism to better understand modern issues and anxieties. This book will appeal to students and scholars of historical fiction, contemporary historical film and television studies, and historical theatre studies.

The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born

out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In *The Cold War*, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every

community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created.

Although North Americans may not recognize it, Cuba has long shaped the German imaginary. Sun, Sex, and Socialism picks up this story from the early 1960s, detailing how the newly upstart island in the U.S. backyard inspired citizens on both sides of the Berlin Wall. By the 1970s, international rapprochements and repressions on state levels were stirring citizen disenchantment, discontent, and grassroots solidarities in all three nations. The Cold War's official end generated waves of politicised nostalgia and prescriptions for the newly configured Cuba and Germany, as exemplified in films like Buena Vista Social Club. Meanwhile, from the New

Left movement to today, revolutionary compatriots Ché Guevara and Tamara Bunke continued to be icons of youth resistance, even while being commodified globally. *Sun, Sex, and Socialism* illustrates how Germans identified with transnational communities beyond the East-West binary. Through analysis of cultural production that often countered governmental intentions for official diplomacy, Jennifer Ruth Hosek offers a broad-reaching history of the influence of the global South on the global North. How We Forgot the Cold War Letts & Lonsdale

“Here’s a book that would've split the sides of Thucydides. Wiener’s magical mystery tour of Cold War museums is simultaneously hilarious and the best thing ever written on public history and its contestation.” —Mike Davis, author of *City of Quartz* “Jon Wiener, an astute observer of how history is perceived by the general public, shows us how official

efforts to shape popular memory of the Cold War have failed. His journey across America to visit exhibits, monuments, and other historical sites, demonstrates how quickly the Cold War has faded from popular consciousness. A fascinating and entertaining book.” —Eric Foner, author of *Reconstruction: America's Unfinished Revolution, 1863–1877* “In *How We Forgot the Cold War*, Jon Wiener shows how conservatives tried—and failed—to commemorate the Cold War as a noble victory over the global forces of tyranny, a 'good war' akin to World War II. Displaying splendid skills as a reporter in addition to his discerning eye as a scholar, this historian's travelogue convincingly shows how the right sought to extend its preferred policy of 'rollback' to the arena of public memory. In a

country where historical memory has become an obsession, Wiener's ability to document the ambiguities and absences in these commemorations is an unusual accomplishment." —Rick Perlstein, author of *Nixonland: The Rise of a President and the Fracturing of America* "In this terrific piece of scholarly journalism, Jon Wiener imaginatively combines scholarship on the Cold War, contemporary journalism, and his own observations of various sites commemorating the era to describe both what they contain and, just as importantly, what they do not. By

interrogating the standard conservative brand of American triumphalism, Wiener offers an interpretation of the Cold War that emphasizes just how unnecessary the conflict was and how deleterious its aftereffects have really been."—Ellen Schrecker, author of *Many Are The Crimes: McCarthyism in America*
