Plug-in Hybrids Raintree Public-private partnerships (P3s) can provide solutions to the project delivery challenges faced by state departments of transportation (DOTs) and

local transportation agencies in delivering surface transportation infrastructure by aligning risks and rewards between public and private sectors, accelerating project delivery, improving operations and asset management, realizing construction and operational cost savings, and attracting private-sector equity investment. P3s are becoming an increasingly important option for financing and implementing critical improvements to U.S.

surface transportation infrastructure. As interest in P3s grows, U.S. transportation agencies and stakeholders evaluating the potential benefits of P3s have raised issues relating to the role of private equity in these transactions. Recognizing the complexity and challenges of structuring a highway or bridge P3 compared to a conventional procurement, the objective of NCHRP Synthesis 540: Leveraging Private Capital for

Infrastructure Renewal is to bridge the knowledge gap on the role of equity in surface transportation P3 projects and to document current practices relating to private-equity investments in small-scale and large-scale transportation infrastructure projects. *College Ruled Line Paper* Qué pasa Twelve Years a Slave Fiction. Women's Studies. Short Stories. Beginning with a story of an ex sex-worker drifting through a small rural town in the

south, and ending with a young woman's wedding night, who learns from her new husband what it takes to kill a man, Nash writes across the complications of working class women, rendering their desires with visceral prose and psychologically dissecting the fundamental root that threads her work: craving and the conflicts within. **Sociological Aspects of Economic Growth** Abrams Photographer Pieter Hugo's images offer an look into Nigeria's thriving

film industry. The Nigerian film industry is the third largest in the world, after those of the United States and India. Nigerian films often deal with the moral dilemmas facing modern Africans and tell stories familiar to African families - of religion, violence, AIDS, and economic hardship. Pieter Hugo documents the intense and incredibly colorful world of Nollywood from an unusual angle. His images are staged representations of Nigerian film sets, featuring local actors who

recreate themes and characters from Nollywood films - young men in military fatigues; witch doctors, healers and saints; hunters with their kill; prostitutes in their rooms. The result is a series of surreal tableaux rooted in local symbolic imagery. Accompanying the photographs are texts by Chris Abani, whose short fiction piece captures the chaos of the filmmaking process, and an essay by Zina Saro-Wiwa on Nollywood's explosive growth and what it means to

Nigerians. Presented in a simple and restrained format, Hugo's photographs aims to reveal a little-known phenomenon to a wider Audience.

 A politically polarized America is coming together over a new kind of car—the plug-in hybrid that will save drivers

money, reduce pollution, and increase US security by reducing dependence on imported oil. Plug-in Hybrids points out that, where hydrogen fuel-cell cars won't be ready for decades, the technology for plug-in hybrids exists today. Unlike conventional hybrid cars that can't run without gasoline, plug-in hybrids use gasoline or cheaper, cleaner, domestic electricity—or both. Although plug-in hybrids are not yet for sale, demand for them is widespread, coming from characters across the

political spectrum, such as:

- Chelsea Sexton, the automotive insider: working for General Motors, Sexton fought attempts to destroy the all-electric EV1 car and describes how car companies are resisting plug-in hybrids—and why they'll make them - anyway.
- Felix Kramer and the tech squad: Kramer started a nonprofit organization using the Internet to tap into a small army of engineers who built the first plug-in Prius hybrids.
- R. James Woolsey,

former CIA director and national security hawk: seeing the end of oil supplies looming, Woolsey is demanding plug-in hybrids to wean us from petroleum. Cautioning that the oil and auto companies know how to undermine the success of plug-in car programs to protect their interests, the book gives readers tools to ensure that plug-in hybrids get to market—and stay here. *Advanced Materials Research* Wiley-VCH

More than a decade after LBJ left office, researchers began to open up the Johnson administration as an important area of scholarly study. Exploring the Johnson Years is an invaluable introduction to that administration and to the LBJ Library's more than thirty million

separate documents. The contributors cover every major aspect of the Johnson presidency, from Vietnam (George C. Herring) to the War on Poverty (Mark I. Gelfand), including coverage of Latin American policy (Walter LaFeber), education (Hugh Davis Graham), civil rights (Steven F. Lawson), the nature of the White House staff (Larry Berman), and Johnson's stormy relationship with the media (David Culbert). The essays illuminate some of the most

important files and show how they can be used to further historical understanding of the Johnson years. As a result, scholars who plan to use the library will have a useful guide before they begin, while general readers will be able to discover the ways in which the library's holdings relate to the existing body of literature on the Johnson administration.

Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a

deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day

before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer

squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the

dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted

therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. Kinks/Fetishes

within: erotic humiliation, fearplay, painplay, knifeplay, consensual non-consent (CNC), orgasm denial, boot

worship, spanking, crying, blowjobs, clowns, group sexual activities, spit, bondage, public play, bloodplay.
