The essays in *Anticipating Total War* explore the discourse on war in Germany and the United States between 1871 and 1914. The concept of "total war" provides the analytical focus. The essays reveal vigorous discussions of warfare in several forums among soldiers, statesmen, women's groups, and educators on both sides of the Atlantic. Predictions of long, cataclysmic wars were not uncommon in these discussions, while the involvement of German and American

soldiers in colonial warfare suggested that future combat would not spare civilians. Despite these "anticipations of total war," virtually no one realized the practical implications in planning for war in the early twentieth century.

The German and American Experiences, 1871-1914 Skyhorse Publishing Original Boy Scout Handbook is the official handbook of the Boy Scouts of America. It is a descendant of Baden-Powell's original handbook, Scouting for

Boys, which has been the basis for Scout handbooks in many countries, with some variations to the text of the book depending on each country's codes and customs. The original edition of the handbook was based on Baden-Powell's work. Ernest Thompson Seton combined his Woodcraft manual, the Birch Bark Rolls, with Baden-Powell's Scouting for Boys. Subsequent works were done by other authors. William "Green Bar Bill" Hillcourt wrote the 6th,

7th, and 9th editions. Frederick L. Hines wrote the 8th, and Robert Birkby the 10th, 11th and 12th editions. The first Official Handbook, subtitled A Handbook of Woodcraft, Scouting, and Life-craft was published from July 1910 until March 1911 and appeared in eight distinct variations. It was written by Ernest Seton and drew greatly on Baden-Powell's Scouting for Boys, it included information on the organization of Scouting, signs and signaling, and camping, as well as

Scouting games and a description of several Scouting honours. Notably, this book did not place emphasis on first aid, knife and axe use, or map and compass work, as later editions would. Because this edition was intended solely as a temporary guide until an authoritative handbook could be made, it is now known as the 1910 Original Edition Handbook. Be Prepared! Time-tested
advice on emergency
preparedness. An official
publication of the Boy
Scouts of America! Each
year hundreds of outdoor
enthusiasts find
themselves in an
unexpected outdoor
emergency. They get lost,
injured, or stranded. Cut
off from the rest of the
world, they have to

depend upon their
survival skills to survive.
For most people, thanks
to modern
communications such as
cell phones, satellite
messengers, and personal
locator beacons (PLB), it is
merely a sobering two- or
three-hour adventure.
However, for some who
did not take the proper
precautions before they
left home or do not have
survival skills, it can end
in tragedy. J. Wayne Fears
uses his Army and Air
Force training to make
sure that everyone in the
outdoors remembers the

Boy Scout motto "Be
Prepared." His practical
advice offers help with:
How to build a fire How to
purify water How to
identify common edible
plants and mushrooms
How to signal for help
How to build simple
shelters Practical
navigation skills And so
much more! Since 1910,
the Boy Scouts of America
has helped build the
future leaders of this
country by combining
educational activities and
lifelong values with fun.

Psychiatrist and sex

therapist Edward L. Rowan, M.D., has written this unique book to encourage us all to come out of the closet. Masturbation is surely one of the most common human activities, and yet most of us react to the subject with embarrassment. Americans are generally so uncomfortable with the topic that former Surgeon General Joycelyn Elders was fired for indiscreetly suggesting in public that high school kids masturbate as a way of avoiding HIV infection. Dr.

Rowan points to the Elders incident as evidence that we are still victims of a negative cultural attitude spawned by the sin and sickness models of early Church fathers and medical practitioners who did not know any better. Unfortunately, they established a pattern of shame and guilt that is difficult to overcome in spite of our current knowledge. Although masturbation is now recognized as a therapeutic tool in addressing sexual

dysfunction and problematic arousal patterns, Rowan argues that it can be much more. Good orgasms, whether alone or with a partner, provide a sense of well-being and personal autonomy. Relationships are better when one does not have to depend solely on a partner to make them whole. Masturbation is also the safest form of safe sex. While masturbation is a universal behavior, there are differences in motivation, frequency, technique, and fantasy

patterns between men and women. Rowan discusses these differences while emphasizing that masturbation can be good sex and should be experienced for pleasure not just as a tension release. Our attitudes are due for a change, says Dr. Rowan, and *The Joy of Self-Pleasuring* is designed to promote that change while offering the reader information, insight, and humor as well. Edward L. Rowan, M.D. (Exeter, NH), a psychiatrist and sex

therapist for thirty years, has taught clinical psychiatry at the University of Illinois and Dartmouth Medical School, and is now a self-employed consultant, writer, and editor.

From the duo behind the massively successful and

award-winning podcast Stuff You Should Know comes an unexpected look at things you thought you knew. Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious—curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan

base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they uncover the weird, fascinating, delightful, or unexpected elements of a wide variety of topics. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time—featuring a completely new array of subjects that they've long wondered about and wanted to explore. Each

chapter is further embellished with snappy visual material to allow for rabbit-hole tangents and digressions—including charts, illustrations, sidebars, and footnotes. Follow along as the two dig into the underlying stories of everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and

Chuck as your guide, there's something interesting about everything (...except maybe jackhammers).

Why Feel Guilty about Feeling Good?

The "Rhodesian SAS Combat Manual" is a significant historical look at the small unit tactics employed by this elite unit during the Rhodesian Bush War. Not only is it a glimpse back at how the unit operated, but a lot of the material is still relevant today for units fighting counter-insurgencies. This book

covers tactical follow-ups, ambush tactics, infiltration methods and combat tracking and more!

The Boy Scout Handbook and Other Observations

"Please note that this is not 'The Official Boy Scout Handbook'. It is a collection of my essays and reviews and bagatelles on appearances, institutions,

and society, writers, travel, and war written over the past fifteen years or so, and written on very different occasions and for different purposes."-- Preface.
