This delightful illustrated book shows how every child has a vivid imagination and revels in one child's midnight adventures. A six-year-old boy finds adventure and escape through his nightly dreams; leaving his home to soar upon a moonbeam while his body remains asleep upon his homebound bed. Our 'nightflyer' sees amazing sights like the Statue of Liberty, the Eiffel Tower, the pyramids, Mt. Fuji, and the Taj Mahal. He must hurry because his time of freedom is limited and soon will awaken. Spying a lovely desert isle, a peg-legged pirate challenges him to a fight and he manages to outwit the pirate and free the enslaved natives. The adventurer swims among the fish and coral, unaware the owl's eyes are beginning to close and the rooster is nearly about to crow. Dawn approaches and our hero must return to his own bed and reality. His mother hears about all his

marvelous escapades and encourages him to have more wonderful adventures. He can hardly wait for the next night's flight and the freedom his dreams allow. Beautifully illustrated and written in gentle rhyme, this lovely storybook is a must read for any parent, child, or classroom in acquaintance with a genuine 'nightflyer'!

A unique tribute to art films as seen through the eyes of master cinematographer Vittorio Storaro, the winner of three Academy Awards. The volume is a compendium of Storaro's extraordinary fifty-year career and a tribute to the creative sources of his work, as celebrated through more than 500 illustrations that reflect his singular style. In cinematography, there is not just one kind of light, but an infinite range of variants: not only the day and night specified in the screenplays, but also the daylight and artificial light, the darkness and the twilight, the sunrise and the sunset, the sun and the moon. And each one tells a story, expresses an idea or an emotion, and digs down into the

subconscious. "The Muses" are the female figures of Greek mythology who have inspired the cinematography of Storaro in terms of aesthetics, light, color, and value. A brilliant thriller from the author of the acclaimed Good Thief's Guide series asks, how can a beautiful woman simply vanish? When Rob Hale wakes up in a hospital after a motorcycle crash, his first thought is for the gorgeous blonde, Lena, who was on the back of his bike. The doctors and police, however, insist that he was alone at the scene. The shock of the accident must have made him imagine Lena, especially since his description of her

resembles his late sister, Laura. Convinced that Lena is as real as he is, Rob teams up with Rebecca Lewis, a London-based PI who has a mysterious connection to Laura—and learns that even a close-knit community like the Isle of Man can hide dangerous secrets that will not stay safe forever. Chris Ewan's *Safe House* "is an exciting, well crafted thriller, with flashes of real humour and insight." (SJ Bolton).
