Helen Mirren has been an internationally acclaimed actress--and the recipient of many awards, transferring between stage, cinema and television--for over 40 years. Known in her youth for a forthright style, a liberated attitude and a bohemian outlook, she has never ceased to be out of the public eye, with legions of admiring fans all over the world. This illustrated memoir is an account of an extraordinary talent, and a life well lived. Helen's aristocratic Russian grandfather, Pyotr Vasilievich Mironov, a military man, was sent to London by the Czar and found himself stranded and penniless by the Bolshevik revolution, cut off from the family estate near Smolensk. He brought with him a trunk of papers and photographs. This delightful memoir starts with the contents of the trunk, with evocative pictures of Helen's Russian antecedents. She has kept a rich seam of photo-graphs and memorabilia from her life, and her parents, family life, childhood, teenage and early years as an actress living in insalubrious flats are vividly documented. Helen's many distinguished roles in theatre, cinema and television and the illustrious men and women she has encountered are commemorated, as well as her forays into Hollywood and her sub-sequent life in the United States with her husband, film director Taylor Hackford. Golden Globe and Oscar ceremonies make their appearance, as do many stunning images of Helen by the world's leading photographers. In the Frame: My Life in Words and Pictures is a book to savour, created and written by one of the great personalities of our age.

This report presents the results of the project Safe Future Inland Transport Systems (SafeFITS), which aims to develop a robust road safety decision-making tool to support the most appropriate road safety policies and measures to achieve tangible results. Road accidents constitute a major social problem in modern societies, accounting for more than 1 million accidents per year in EU-28 (2,900 per day), resulting in 1.4 million injuries and 26,000 fatalities (70 per day) (WHO, 2015). Road traffic injuries are estimated to be the eighth leading cause of death globally, and more than half of the people killed in traffic accidents are young adults aged between 15 and 44 years. In low-income and middle-income countries, the rates of road traffic injuries are twice those in high-income countries and still increasing. This can be partly attributed to rapid motorization in many developing countries, without any investment being made in road safety. Current trends suggest that, unless action is taken, traffic injuries will become the fifth leading cause of death by 2030, with the disparity between high-income and low-income countries further increased.

This is the first English translation of the seminar Martin Heidegger gave during the Winter of 1934-35, which dealt with Hegel's Philosophy of Right. This remarkable text is the only one in which Heidegger interprets Hegel's masterpiece in the tradition of Continental political philosophy while offering a glimpse into Heidegger's own political thought following his engagement with Nazism. It also confronts the ideas of Carl Schmitt, allowing readers to reconstruct the relation between politics and ontology. The book is enriched by a collection of interpretations of the seminar, written by select European and North American political thinkers and philosophers. Their essays aim to make the seminar accessible to students of political theory and philosophy, as well as to open new directions for debating the relation between the two disciplines. A unique contribution, this volume makes available key lectures by Heidegger that will interest a wide readership of students and scholars.
