The core teachings and riotous life of the psychedelic yogi Ganesh Baba • Presents the teachings of Ganesh Baba's "Crea" Yoga, which he derived from the tantric practices of traditional Kriya Yoga • Explains the basic exercises for following the Crea (creative) Yoga practice • Includes many anecdotes from the colorful life of this "psychedelic" baba Shri Mahant Swami Ganeshanand Saraswati Giri (ca. 1895-1987) was known to all who loved and studied with him simply as Ganesh Baba. At the age of four, he was brought back from death through an initiation by Lahiri Mahasaya and through this initiation descends from

the same Kriya Yoga lineage as Paramahansa Yogananda. He became a swami under his guru Sivananda and later went on to run the Anandamayi Math ashram. Drawn to the life of the Naga Babas, he became the head of the Ananda Akhara, Naga followers of Lord Shiva who consider cannabis and other entheogens to be the gift of the gods. The unique set of principles and exercises Ganesh Baba developed from the tantric practices of traditional Kriya Yoga and Shivaism became the core of his personal teachings of Crea (for creative) Yoga. Ganesh Baba's message of systematic synthesis of the spiritual and secular was carefully developed for and embraced by contemporary students in the 1960s, especially those whose path included the use of

entheogens. This book contains the core of Ganesh Baba's Crea Yoga teachings, from the beginning stages of conscious control of one's posture, breath, and attention to finally extending one's awareness to the farthest reaches of the cosmos. Eve Baumohl Neuhaus shows that the life of this scholar and crazy saint was as instructive as his teachings. She includes many personal reminiscences of this inspirational and challenging teacher from her own life and those of fellow students, which demonstrate that Ganesh Baba's extraordinary life was in keeping with his own role as the embodiment of Lord Ganesh, the remover of obstacles. Yoga as Medicine Library of Alexandria The first modern, comprehensive resource on spiritual awakenings, this

pragmatic, clear guide covers everything from the first step on a spiritual journey to enlightenment, and the different types of spiritual awakenings, from mild to dramatic, we may go through. Using the concept of the twelve layers that cover an awakened state Mary Mueller Shutan addresses every step of the spiritual journey, starting with the Self and showing how family, ancestral, past lives, karmic, archetypal, and other larger layers such as societal, cultural, global, and cosmic energies condition us to sleep and obscure our realization of an awakened state. Instructions for how to navigate through each of these layers and how to recognize where we are in our spiritual journey are included each step of the way along with common physical, emotional, and spiritual

symptoms that may be experienced. By addressing post-awakening states, oneness, dark nights of the soul, ego death, near-death and severe illness, psychic abilities, addictions, dietary changes, the God self, personal and collective shadow, and psychosis vs. awakening we understand the experiences we may go through while struggling with spiritual awakenings. This practical book opens new understandings of how to live in the world while going through an awakening process, and offers the revolutionary idea that we are meant to be humans, to have a physical body with physical, sensate experiences and emotions. We are meant to live in the world and be a part of it even as fully awakened individuals. This guide proposes a look at

the possibility of leading a grounded, earth-bound life of work, family, friends, and other experiences in an awakened state.

*Yoga for Prosperity* The Floating Press

So for that reason, we are trying to create all this work for you." Every living thing has its own time to grow from a seed to its innate maturity. **The Mind** Simon and Schuster Kundalini Yoga as taught by Yogi Bhajan® "The Kundalini is known as the nerve of the soul. This is to be awakened. Your soul is to be awakened. When soul gets awakened, there remains nothing... If your soul is awakened, what else do you need?" - Yogi Bhajan. Kundalini Yoga is an oral tradition dating back hundreds if not thousands of years. In the early 1970's, when this ancient technology was being presented, students would patiently wait to hear from fellow students and teachers what Yogi Bhajan had just taught. Students took notes, made drawings and passed them on... In a certain sense it was revolutionary that this sacred, once secret science was being recorded and distributed. Never, in

history, had this been done before. It was very exciting when a Kriya-write up, manual or a "Beads of Truth"-magazine became available and when the Meditation Manual for Intermediate Students was published and distributed, it was a revelation. So many amazing Kriyas! It felt like as long as one had this manual, one could practice Kundalini Yoga for the rest of the life. It was like having the security of a treasure that would never diminish or get old. This wonderful book: KRIYA - Yoga Sets, Meditations & Classic Kriyas contains many of the Kriyas from the Meditation Manual for Intermediate Students as well as many previously unpublished Kriyas from that era. Some of the models in the book are children of original student-teachers of Yogi Bhajan...You will enjoy

these effective and powerful Kundalini Yoga Kriyas. By practicing them, you can uplift yourself and inspire yourself to try some of these again and again! KRIYA - Yoga Sets, Meditations & Classic Kriyas from the Early Teachings of Yogi Bhajan contains: Challenging physical Kundalini Yoga Kriyas from the 1970s and 1980s More than 100 Meditations, including Visualizations, Praanayams, Silent Meditations, and Meditations with Mantra Includes Material from the Meditation Manual for Intermediate Students, K.R.I.Y.A., Under the Blue Skies, and more!

we can."—Sir Ken Robinson, author of *The Element*, *Finding Your Element*, and *Out of Our Minds: Learning to Be Creative* **NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY SPIRITUALITY & HEALTH** The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy

with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means “dispeller of darkness, someone who opens the door for you. . . . As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you

perceive and experience life.” The wisdom distilled in this accessible, profound, and engaging book offers readers time-tested tools that are fresh, alive, and radiantly new. Sadhana brings us into an intimate

alignment with the reality of who we are: as a creature of the Creator and as a human being. First published in 1974, Kundalini Yoga Sadhana Guidelines has become the best-selling Kundalini Yoga manual of all time. Within these pages, you'll find the inspiration to keep returning breath-by-breath to your Self and to your practice. Sadhana is everything we do on a daily basis as our self-discipline and our commitment to our higher self. It is a spiritual practice in which we confront the tendencies of our mind and ego and, out of love, we invite in the dimensions of our soul, spirit, and intuition. In its essence, it is a process of refinement, development, and mastery. As we learned from eastern traditions, a sadhu is a being who has disciplined himself. Likewise, the definition of a yogi

is a person who has totally leaned on the supreme consciousness, which is God. The purpose of sadhana is to arrive at the place where we go beyond our ego and its limitations. Morning sadhana—done before the sunrise—is a special time when we sit before the altar of our own consciousness and have the opportunity to clean up our inner world before we engage in the outer world—our jobs, our families, our responsibilities. This manual exists to serve you and to help you uplift yourself and others. It is designed for both the new and the experienced student. It focuses on the essential practice of Kundalini Yoga. A material that offers lectures, essays, insights, and a series of exercises that one can experience and improve one's own personal practice.

*Jeevanadarsh Evam Atmanubhuti* W. W. Norton & Company

My wife, Jan Durga Ahlund and I have recognised for many years the need for a book that would explain to both those interested in learning Kriya Yoga and those already embarked on its path, why they should practice it, what are the difficulties, and how to overcome them. We believe that this book will help prepare everyone for the challenges and opportunities that Kriya Yoga provides. Every one of us faces the resistance of our human nature, ignorance as to our true identity, and karma, the consequences of years of conditioning by our thoughts, words and actions. By cultivating aspiration for the Divine, rejecting egoism and its manifestations, and surrendering to our higher Self, pure

Witness consciousness, we can overcome this resistance, our karma and the many obstacles on the path. But, to do so, we need much support and insight along the way. -- Marshall Govindan and Jan Ahlund

Consecration of Images and Stûpas in Indo-Tibetan Tantric Buddhism Springer  
 Nature

The present work is an investigation of the Indo-Tibetan ritual for consecrating images, stûpas, books and temples. It is based on a thorough examination of the relevant Tibetan textual material contained in Tantras, commentaries, ritual manuals and explanatory works on consecration. As rituals are meant to be performed, this textual study is combined with observations of performances and interviews with

performers. The book opens with a general discussion of certain principles of tantric rituals and the foundations of Indo-Tibetan consecration. The main part focuses on a specific performance of the ritual in a Tibetan monastery located in the Kathmandu Valley. This volume

contributes to the often neglected field of Indo-Tibetan Buddhist rituals. It is concerned with the sacred nature of objects for worship as well as with the main Buddhist tantric transformation into a chosen tantric Buddha.
