Affiliate marketing is a highly profitable online advertising method in which website merchants

pay independent third parties to promote the products or services of an advertiser on their Web site. In other words, affiliate marketing involves posting a company's banner on your Web site or blog and attempting to send visitors to their Web site. If someone clicks on that banner or goes to that site and buys something, you will be paid a commission. While some affiliates pay only when a sale is made, some selling big ticket items like cars, credit cards, travel, and

so forth have modified the model and pay for qualified leads. Affiliate marketing is now viewed as a key component of a company's online marketing strategy.

Affiliate marketing is the process of earning money (commissions) every time you promote a company's products or services and drive a sale. You only get paid every time you drive a sale, just like a commission-only sales representative. The idea behind it is that you promote other people's products, often through an affiliate network, earning a commission if

people actually end up buying thanks to your marketing. It's based on revenue sharing. You will learn: • Why affiliate marketing is the best way to start off your internet business; • How and where to find the ideal products to sell; • How to create the right type of website to drive traffic; • Why social media sites are important; • Why to use paid advertising to make money fast; • Low ticket programs and high ticket programs; • How to scale up and expand your business; • All the
