Brave little Bear was hurt, which made him sick, until he told and gave his pain to someone else to worry about. Brave little Bear is too good for anyone who believes that children's innocence is precious enough to be protected. But how do we talk to children without making it uncomfortable? Brave little Bear helps to teach children what is safe and what is not, and if 'bad' things do happen it gives clear instructions about what to do. The average age for child sexual abuse to begin is 8.5 years. We believe that if we can equip our children before that age with self-protective behaviours we have a chance to change the stats. For every 10 books sold we will give 1

away to an at risk family.
