Nonexistence is ubiquitous, yet mysterious. This volume explores some of the most puzzling questions about non-being and nonexistence, and offers answers from diverse philosophical perspectives. The contributors draw on analytic, continental, Buddhist, and Jewish philosophical traditions, and the topics range from metaphysics to ethics, from philosophy of science to philosophy of language, and beyond.

The uniquely prominent role of French intellectuals in European cultural and political life following World War II is the focus of Tony Judt's newest book. He analyzes this intellectual community's most divisive conflicts: how to respond to the promise and the betrayal of Communism and how to sustain a commitment to radical ideals when confronting the hypocrisy in Stalin's Soviet Union, in the new Eastern European Communist states, and in France itself. Judt shows why this was an all-consuming moral dilemma to a generation of French men and women, how their responses were conditioned by war and occupation, and how post-war political choices have come to sit uneasily on the conscience of later generations of French intellectuals. Judt's analysis extends beyond the writings of fashionable "Existentialist" personalities such as Jean-Paul Sartre, Albert Camus, and Simone de Beauvoir to include a wide intellectual community of Catholic philosophers, non-aligned journalists, literary critics and poets, Communist and non-Communist alike. Judt treats the intellectual dilemmas of the postwar years as an unfinished history. French intellectuals have not fully come to terms with the gnawing sense of what Judt calls the "moral irresponsibility" of those years. The result, he suggests, is a legacy of bad faith and confusion that has damaged France's cultural standing, notably in newly liberated Eastern Europe, and which reflects the nation's larger difficulty in confronting its own ambivalent past.

Few believed Professor Coldwell could communicate with spirits. But in Scotland's oldest university town something has passed from darkness into light. Now, the young are being haunted by night terrors and those who are visited disappear. This is certainly not a place for outsiders, especially at night. So what chance do a rootless musician and burned-out explorer have of surviving their entanglement with an ageless supernatural evil and the ruthless cult that worships it? A chilling occult thriller from award-winning author Adam Nevill, *Banquet for the Damned* is both a homage to the great age of British ghost stories and a pacy modern tale of Devil worship and witchcraft.

"Nor did it bury the horrors predating civilisation. Ancient rites, old deities and savage ways can reappear in the places you least expect. Lifestyle journalist Katrine escaped past traumas by moving to a coast renowned for seaside holidays and natural beauty. But when a vast hoard of human remains and prehistoric artefacts is discovered in nearby Brickburgh, a hideous shadow engulfs her life." -- Cover.

"This book is the real story."—Robby Krieger "[John] Densmore's is the first Doors biography that feels like it was written for the right reasons, and it is easily the most informed account of the Doors' brief but brilliant life as a group. . . . Densmore is a fluent, articulate writer who both comprehends the Doors' unearthly power and is on familiar terms with their antecedents in literature, theater, and myth."—Rolling Stone "Well-written and touching . . . tells it all and tells it honestly."—The New York Times Book Review "John Densmore's *Riders of the Storm* is as good an account of the history of the Doors as has been printed to date."—USA Today "Riders on the Storm is very enjoyable, especially its homespun and self-experienced insights. John Densmore is a survivor and a seeker."—Oliver Stone

Here is Jim Morrison in all his complexity-singer, philosopher, poet, delinquent-the brilliant, charismatic, and obsessed seeker who rejected authority in any form, the explorer who probed "the bounds of reality to see what would happen..." Seven years in the writing, this definitive biography is the work of two men whose empathy and experience with Jim Morrison uniquely prepared them to recount this modern tragedy: Jerry Hopkins, whose famous Presley biography, *Elvis*, was inspired by Morrison's suggestion, and Danny Sugerman, confidant of and aide to the Doors. With an afterword by Michael McClure.

The Last House on Needless Street Pan Macmillan

So, it's the weekend, you are free from your boring job. You have done all your chores and bought groceries. Now, you just want to relax in your favourite bar with a nice pint of IPA and read a book - or maybe just surf the web. Sounds good, eh?Now, suppose you get there and have just settled in, when the bar is taken over by an armed terrorist. This guy wants to kill you and destroy the building you are in. It turns out that, even though you have never met him, he hates you. You personally. There is going to be a lot of death on this particular Saturday and you are going to choose who dies: thousands of strangers or the people you love. What would you do? Because it may not be what you think. You may not believe what you think you believe....Please note that this is not a science fiction book. I mean it - I'm not being ironic or trying to trick you into buying a science fiction book, disguised as a not-science fiction book. If you have read the prologue, you could be forgiven for thinking that. But no, it really is totally down to earth. You see what I did there. Anyway, there are just two aliens in the whole book and only one of them features in the action. The rest is all humans and it all takes place here on Earth. The aliens are only there as a literary device. They could have been Buddhist monks but that wouldn't work because ... well, read the story and you will see. So, if it isn't science fiction, then what is it? Good question. I can say for sure that it is not a crime thriller or a love story (although there is a tiny hint of romance). Apart from that, it is sort of all genres and none at all. You will find in these pages, politics, philosophy, religion, atheism, feminism, racism, fascism, love, war, death, social justice, sex, terrorism ... and a cry across the aeons from an

antediluvian civilisation. This is a story about our society and the mistakes we are making but it is also about the personal journey that each of us must take in order to evolve as individuals and, from that, as a species. The story revolves around a would-be terrorist and his intended victims. We look at what brought him to the place where he thought killing was a good idea. More than that, we explore why it really isn't a good idea, the true consequences of his actions and his alternatives. Furthermore, it is commentary on the polarisation of society around politics, belief and thought. The book explores this division and gives a clear warning about the dangers of binary thinking. The central characters give a starting point for fixing things but do not provide answers. The point of this story is to hold a mirror and allow us to see ourselves and what we are making of our time here on earth. Because, after all, no one gets out alive.

Last Days (winner of the British Fantasy Award for Best Horror Novel of the Year) by Adam Nevill is a Blair Witch style novel in which a documentary film-maker undertakes the investigation of a dangerous cult—with creepy consequences. When guerrilla documentary maker, Kyle Freeman, is asked to shoot a film on the notorious cult known as the Temple of the Last Days, it appears his prayers have been answered. The cult became a worldwide phenomenon in 1975 when there was a massacre including the death of its infamous leader, Sister Katherine. Kyle's brief is to explore the paranormal myths surrounding an organization that became a testament to paranoia, murderous rage, and occult rituals. The shoot's locations take him to the cult's first temple in London, an abandoned farm in France, and a derelict copper mine in the Arizonan desert where *The Temple of the Last Days* met its bloody end. But when he interviews those involved in the case, those who haven't broken silence in decades, a series of uncanny events plague the shoots. Troubling out-of-body experiences, nocturnal visitations, the sudden demise of their interviewees and the discovery of ghastly artifacts in their room make Kyle question what exactly it is the cult managed to awaken - and what is its interest in him?

These selected terrors range from the speculative to supernatural horror, encompass the infernal and the occult, and include stories inspired by H. P. Lovecraft, Robert Aickman and Ramsey Campbell. Hasty for the Dark is the second short story collection from the award-winning and widely appreciated British writer of horror fiction, Adam L. G. Nevill. The author's best horror stories from 2009 to 2015 are collected here for the first time. The hardest journeys in life and death are taken underground. No blackmail is as ghastly as extortion from angels. A swift reckoning often travels in handheld luggage. Once considered inhumane and now derelict, this zoo may not be as empty as assumed. A bad marriage, a killer couple, and part of a wider movement. No sign of life aboard an abandoned freighter, but what is left below deck tells a strange story. The origin of our species is not what we think. In destitution, the future for revolution and mass murder is so bright. Your memories may not be your own, and your life nothing more than a ritual that will compel you to perform an atrocity . . . Praise for the author's first collection of horror stories, *Some Will Not Sleep: Selected Horrors*: "Great storytelling, but across a wider palate and range of styles than you might have expected, leading to some delightfully unexpected visions and hellscape." *Gingernuts of Horror* "There is not one single tale which feels less than the others, none which seem to be mere 'filler'. They are beautifully crafted, original and complete works which nevertheless fit well together as arranged by the author." This is Horror "In 'Some Will Not Sleep' nothing is sacred, nothing is safe, and goodness me, if you like horror fiction you're going to absolutely love every damn minute." *Pop Mythology* Praise for Adam Nevill's horror novels: "Adam Nevill is a spine-chiller in the classic tradition, a writer who draws you in from the world of the familiar, eases you into the world of terror, and then locks the door behind you." Michael Koryta, NYT Bestselling author "Modern storytelling ... and old school terror. Very scary, highly recommended" - Jonathan Maberry, NYT bestselling author "One of the most subtle and powerful writers of dark fiction - a unique voice" - Michael Marshall Smith, NYT Bestselling author "Chilling, disorienting, and deeply creepy" - Scott Smith (author of 'The Ruins' on 'House of Small Shadows') "Nevill is fast becoming Britain's answer to Stephen King" - *Guardian* "He has the rare ability to craft a nebulous atmosphere of terror, as well as to capture cinematic slasherpunk in the written word. Both are incredibly rare talents." *Pornokitsch* "The sense of dread is immediate, with the reader's sense of foreboding increasing with every new page." *Irish Examiner* "Readers will lose all hope of peaceful, undisturbed sleep. Highly recommended." *Library Journal* - Starred Review "Nevill's talent for horror resonates ominously in every scene, almost as if the theme from *Jaws* echoes when a page is turned." Kirkus

Born in Minnesota in 1890 and raised and educated in Massachusetts, Marjory Stoneman Douglas came to Florida in 1915 to work for her father, who had just started a newspaper called the *Herald* in a small town called Miami. In this "frontier" town, she recovered from a misjudged marriage, learned to write journalism and fiction and drama, took on the fight for feminism and racial justice and conservation long before those causes became popular, and embarked on a long and uncommonly successful voyage into self-understanding. Way before women did this sort of thing, she recognized

her own need for solitude and independence, and built her own little house away from town in an area called Coconut Grove. She still lives there, as she has for over 40 years, with her books and cats and causes, emerging frequently to speak, still a powerful force in ecopolitics. Marjory Stoneman Douglas begins this story of her life by admitting that "the hardest thing is to tell the truth about oneself" and ends it stating her belief that "life should be lived so vividly and so intensely that thoughts of another life, or a longer life, are not necessary." The voice that emerges in between is a voice from the past and a voice from the future, a voice of conviction and common sense with a sense of humor, a voice so many audiences have heard over the years—tough words in a genteel accent emerging from a tiny woman in a floppy hat—which has truly become the voice of the river.

Winner of the 2016 B&N Discover Great New Writers Award for Fiction In *The Lightkeepers*, we follow Miranda, a nature photographer who travels to the Farallon Islands, an exotic and dangerous

archipelago off the coast of California, for a one-year residency capturing the landscape. Her only companions are the scientists studying there, odd and quirky refugees from the mainland living in rustic conditions; they document the fish populations around the island, the bold trio of sharks called the Sisters that hunt the surrounding waters, and the overwhelming bird population who, at times, create the need to wear hard hats as protection from their attacks. Shortly after her arrival, Miranda is assaulted by one of the inhabitants of the islands. A few days later, her assailant is found dead, perhaps the result of an accident. As the novel unfolds, Miranda gives witness to the natural wonders of this special place as she grapples with what has happened to her and deepens her connection (and her suspicions) to her companions, while falling under the thrall of the legends of the place nicknamed "'the Islands of the Dead.'" And when more violence occurs, each member of this strange community falls under suspicion.
