Music will find plenty to please them in [this] history of the sweeping musical.” —Kirkus Reviews On March 2, 1965, *The Sound of Music* was released in the United States and the love affair between moviegoers and the classic Rodgers and Hammerstein musical began. Rarely has a film captured the love and imagination of the moviegoing public the way *The Sound of Music* did as it blended history, music, stunning Austrian locations, heartfelt emotion—and the yodeling of Julie Andrews—into a monster hit. Now, Tom Santopietro has written the ultimate book for fans with behind the scenes stories of the filming, new interviews with Johannes von Trapp and others,

photographs, and more. He looks back at the real life story of Maria von Trapp, goes on to chronicle the sensational success of the Broadway musical, and recounts the near cancellation of the film when Cleopatra bankrupted 20th Century Fox. He reveals the actors who were also considered for the roles of Maria and Captain von Trapp, and provides a historian's critical analysis of the careers of director Robert Wise and screenwriter Ernest Lehman. He also takes a look at the critical controversy that greeted the movie, its relationship to the turbulent 1960s, and the superstardom that engulfed Julie Andrews. *The Sound of Music Story* is for everyone who

cherishes this American classic. *Peter Pan* Bloomsbury Publishing Adland is a groundbreaking examination of modern advertising, from its early origins, to the evolution of the current advertising landscape. Bestselling author and journalist Mark Tungate examines key developments in advertising, from copy adverts, radio and television, to the opportunities afforded by the explosion of digital media - podcasting, text messaging and interactive campaigns. Adland focuses on key players in the industry and features exclusive interviews with leading names in advertising today, including Jean-Marie Dru, Sir Alan Parker, John Hegarty

and Sir Martin Sorrell, as well as industry luminaries from the 20th Century such as Phil Dusenberry and George Lois. Exploring the roots of the advertising industry in New York and London, and going on to cover the emerging markets of Eastern Europe, Asia and Latin America, Adland offers a comprehensive examination of a global industry and suggests ways in which it is likely to develop in the future.

No one is more surprised than FBI Agent Peter Sutherland when he’s tapped to work in the White House Situation Room. When Peter was a boy, his father was suspected of selling secrets to the Russians—a breach that cost him his career, his reputation, and eventually his life. Now Peter’s job is monitoring an emergency line for a call that has not—and might never—come. Until tonight. At 1:05 A.M. the phone rings. A terrified young woman

named Rose tells Peter that two people have just been murdered and that the killer might still be in the house with her. One of the victims gave her this phone number with urgent instructions: "Tell them OSPREY was right. It's happening..." To what extent do indie masculinities challenge the historical construction of rock music as patriarchal? This key question is addressed by Matthew Bannister, involving an in-depth examination of indie guitar rock in the 1980s as the culturally and historically specific production of white men. Through textual analysis of musical and critical discourses, Bannister provides the first book-length study of masculinity and ethnicity within the context of indie guitar music within US, UK and New Zealand 'scenes'. Bannister argues that past theorisations of (rock) masculinities have

tended to set up varieties of working-class deviance and physical machismo as 'straw men', oversimplifying masculinities as 'men behaving badly'. Such approaches disavow the ways that masculine power is articulated in culture not only through representation but also intellectual and theoretical discourse. By re-situating indie in a historical/cultural context of art rock, he shows how masculine power can be rearticulated through high, avant-garde, bohemian culture and aesthetic theory: canonism, negation (Adorno), passivity, voyeurism and camp (Andy Warhol and the Velvet Underground), and primitivism and infantilism (Lester

Bangs, Simon Reynolds). In a related vein, he also assesses the impact of Freud on cultural theory, arguing that reversing binary conceptions of gender by associating masculinities with an essentialised passive femininity perpetuates patriarchal dualism. Drawing on his own experience as an indie musician, Bannister surveys a range of indie artists, including The Smiths, The Jesus and Mary Chain, My Bloody Valentine and The Go-Betweens; from the US, R.E.M., The Replacements, Dinosaur Jr, Hüsker Dü, Nirvana and hardcore; and from NZ, Flying Nun acts, including The Chills, The Clean, the Verlaines, Chris Knox, Bailter Space, and The Bats, demonstrating broad continuities

between these apparently disparate scenes, in terms of gender, aesthetic theory and approaches to popular musical history. The result is a book which raises some important questions about how gender is studied in popular culture and the degree to which alternative cultures can critique dominant representations of gender.

The Art of Scouting delves into the secretive world of hockey prospecting, a world more akin to

Cold War-era spying than a casual day in the stands. Scouts decide whether a player has the talent to make the final step to the NHL-or not-but what they do and how they do it are a mystery to most fans. Shane Malloy is one of the first media personalities to be welcomed into the world of scouting and brings to hockey fans an enlightening and fascinating narrative that explains the culture, history, science and art of hockey scouting. Malloy's unique experience-combined with interviews featuring scouts, coaches and hockey executives- will give readers a true understanding and appreciation for what scouts do and how

they do it, what it really takes to make it to the NHL, and how to watch the game like a scout. Praise for *The Art of Scouting*: "If you love hockey but wonder how teams are built and what goes into scouting, then this book is a gem." — Kelly Hrudehy, *Hockey Night in Canada Analyst* "The work that Shane has done is based on knowledge and diligence. "This colorful and dramatic saga is based on the classic film. A strong-willed Virginia farmer is trying to keep his family neutral as the Civil War rages. Union forces and the Confederates see things only in shades of Blue or Grey, so the family is inevitably swept up in the conflict, against all odds. Their story is a heartwarming and heart-rending portrayal of the upheaval that left wounds on the land and its people for generations to come."-- Publisher.

Hailed by national leaders as politically diverse as former Vice President Al Gore and former House Speaker Newt Gingrich, *Generations* has been

heralded by reviewers as a brilliant, if somewhat unsettling, reassessment of where America is heading. William Strauss and Neil Howe posit the history of America as a succession of generational biographies, beginning in 1584 and encompassing everyone through the children of today. Their bold theory is that each generation belongs to one of four types, and that these types repeat sequentially in a fixed pattern. The vision of *Generations* allows us to plot a recurring cycle in American history -- a cycle of spiritual awakenings and secular crises -- from the founding colonists through the present day and well into this millenium.

Generations is at once a refreshing historical narrative and a thrilling intuitive leap that reorders not only our history books but also our expectations for the twenty-first century.

Written as a tongue-in-cheek B-movie serial, "Jailbait" follows the adventures of an all-female undercover organization looking to hunt down predatory perverts by any means necessary and prevent children from becoming targets. It has been described as "To Catch a Predator" meets "Charlie's Angels" meets Ed Wood's "The Violent Years."

This book examines the different ways that

trauma is involved in the lives of those who interact with the justice system, and how trauma can be exacerbated in legal settings. It includes both victims and perpetrators in providing a perspective on trauma in general, and a framework that will guide those who evaluate and treat individuals in forensic settings.

Comprehensive in scope, it covers key areas such as developmental issues, emotions, linguistic and communication difficulties, and special populations such as veterans, immigrants, abused women, incarcerated individuals, and children. The main objective of this book is to bring trauma to the fore in conducting

forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems. "This masterful book, edited by Rafael Art. Javier, Elizabeth Owen and Jemour A. Maddux, is a refreshing, original, and thoughtful response to these needs, demonstrating – beyond any doubt – why lawyers and forensic mental health professionals must be trauma-informed in all of their relevant work."
