Nursing Pharmacology Made Incredibly

Easy! explains difficult and complex pharmacology concepts in clear, concise, and interesting language, making the information easy to learn and, most importantly, to remember. The text covers fundamentals of pharmacology, including where drugs come from, how they are classified and administered, drugs by pharmacologic class for all body systems, plus pain medications, and potentially dangerous drug interactions. All aspects of how the body processes a drug and the subsequent actions of that drug on the body are discussed in detail, and many are illustrated for clarity. The text is organised by body system, and illustrated with numerous features to enhance comprehension.

Respiratory Care Made Incredibly
