Pakistan was once only an inspired vision. In 1947, through great sacrifice, a miraculous new nation was born. With its people energised and free, it seemed there was no height Pakistan would not scale. Now, many decades later, as we look back on years of strife, division and poverty cultivated by generations of misguided leaders, we find ourselves wondering how this

glorious inheritance became so spoiled. Atif F Qureshi examines the causes of the calamity, in particular the explanation that trumps all others - the import of Western political, legal and economic systems. Detailing why these methods are wholly unworkable for an independent Muslim nation, he examines how Western concepts such as socialism and English Civil Law have led to crises

ranging from economic stagnation to terrorist insurgencies. Yet the decline is not irreversible. Qureshi outlines policies that by returning to core Islamic

values will revive, rejuvenate and revitalise this beautiful nation. From defence and the environment to education and banking, every aspect

of national planning is explored. He shows how in spite of all the travails, Pakistan is well-placed for a glorious future. After all, a manifest destiny awaits...
