When Lauras wealthy  
landowner father

decides to transition her family from country to city life, she is filled with hopes and expectations. But the minute she arrives in the city, Laura feels like a caged bird.

Dismayed about the noise and how close the houses are to each other, she wants nothing more than to return to the country.

As school begins, Laura has no idea how challenging her journey is about to become.

Hector is born a beautiful little boy who at age two begins developing the signs of a debilitating disease that robs him of a normal physical appearance. With all the mirrors removed from his house, Hector never realizes he is different until his mother takes him to church with her one

day. When Hector begins attending school, he crosses paths with Laura, who initially shuns his attempts to talk to her. After he pledges revenge, both Hector and Laura must decide whether to allow their circumstances to rule over them or rise above their challenges to become overcomers. The Tears of the Caterpillars shares the stories of two children and their families as they meet and influence each other in their journeys to realize their destinies. Enhancement in Peace and Conflict Studies» (EDEN), a broad training and research network linking scholars, departments and universities interested in thinking and rethinking proposals, concepts and methodologies for the expanding field of Peace and Conflict Studies from different disciplines such as law, history, sociology, anthropology, international relations, and political science. The Network has been functioning since the year 1996 and aims mainly to develop the level and quality of the discussion, to enhance the collaboration and coordination within the European academic community —encompassing the diversity of theoretical approaches in the

area—, to promote intellectual understanding, and to create an appropriate institutional infrastructure and consistent financial support for academic research. The Network has also been consistently fostering the exchange and mobility of graduate students through summer Intensive Programmes and Marie Curie Fellowships so as to develop a critical mass of interdisciplinary comparative research expertise, providing access to tutorials, methodology courses, and significant human and practical resources for a better understanding of research questions, conceptual debates, and methodological challenges. The final

purpose of the network is to generate sustained debate and exchange among policy makers, NGO's, media professionals and academics, in order to facilitate a scholarly dialogue and ongoing feedback between research, knowledge dissemination and policy.
