The authors have drawn on their own experiences and careful research to help you understand issues ranging from your pay and pension, stress and workplace relations, paperwork, and career development. This is an excellent resource for Foundation Programme trainees and medical students preparing themselves for life as a doctor. With this pocket-sized guide at your side you'll never be alone on the wards again.

Situational Judgment Tests General Aptitude and Abilities

Drug prescribing is one of the most important parts of clinical practice. Yet it remains one of the most commonly failed components of undergraduate assessments, and accounts for an uncomfortably high proportion of medical errors. To remedy this, the Prescribing Safety Assessment (PSA) exam has been introduced in the UK. It is compulsory and will set a minimum standard for safe prescribing. Failure will preclude GMC registration. Pass the PSA is written specifically for the exam, with one chapter dedicated to each PSA section. Each chapter includes: The marking scheme for the PSA exam section and how to approach it. All the theory condensed into a few pages of memorable, illustrated text. Multiple worked questions covering the most common exam scenarios. In addition: Introduces a simple, memorable and failsafe approach to prescribing (the 'PRESCRIBER' mnemonic). Specifies the universal basic principles of prescribing for all sections. Over 300 worked questions,

structured identically to the exam. Data interpretation made memorable and simple including ECG, ABGs, chest X-rays and basic bloods. Common traps highlighted throughout. Two mock exams.

State education departments and school districts face an important challenge in implementing a new law that requires disadvantaged students to be held to the same standards as other students. The new requirements come from provisions of the 1994 reauthorization of Title I, the largest federal effort in precollegiate education, which provides aid to "level the field" for disadvantaged students. Testing, Teaching, and Learning is written to help states and school districts comply with the new law, offering guidance for designing and implementing assessment and accountability systems. This book examines standards-based education reform and reviews the research on student assessment, focusing on the needs of disadvantaged students covered by Title I. With examples of states and districts that have track records in new systems, the committee develops a practical "decision framework" for education officials. The book explores how best to design assessment and accountability systems that support high levels of student learning and to work toward continuous improvement. Testing, Teaching, and Learning

will be an important tool for all involved in educating disadvantaged students—state and local administrators and classroom teachers.

The Situational Judgement Test at a Glance provides a sound introduction to the SJT and details ways you can prepare before the assessment. It includes worked case examples based on real-life scenarios which have been reviewed by experienced clinicians and examiners. The book draws out key aspects of professional practice relevant to the role of a junior doctor. This is based on the nine domains as outlined by the ISFP (Improving Selection to Foundation Programme), who detailed the behaviours necessary to be a competent Foundation Doctor. The overall aim of The Situational Judgement Test at a Glance is not to spoon feed hundreds of practice questions or reams of guidelines, but to steer you towards a logical way of approaching best medical practice – and therefore the SJT – with many examples of doctors' personal experiences along the way. Challenging scenarios are analysed using guidelines from the General Medical Council and research interviews with patients, lab staff and healthcare professionals. All examples in the book are worked in a test-style apparatus, with questions on one side and detailed answers over the page so you can understand the reasoning behind the material.

350 Questions for the Situational Judgement Test Brilliant Business

With over 250 SJT (Situational Judgement Tests) practice questions, and in-depth explanations spanning over 500 pages, this book is an ideal preparation tool for the Foundation Programme entry exam for entry in Foundation Year 1 (FY1). Written by doctors and people involved in writing and testing the actual exam questions.

Selection and Recruitment in the Healthcare Professions FT Press 'Situational Judgement Test for the Foundation Years Programme' has been specially designed to help you achieve the highest possible mark in the UKFPO SJT exam. This 2nd edition, in line with the latest GMC Good Medical Practice 2013 Guidelines, contains a wide range of SJT scenarios to ensure that all the core

Foundation Programme competencies are comprehensively covered. The SJTs contained in this book have been through a rigorous appraisal process that brought together the experiences of over 50 doctors from varying levels and specialities, including multiple Foundation Training Programme Directors. This ensured that the scenarios, and their respective responses, were valid and relevant to both the SJT exam, and the Foundation Programme curriculum. The book also involved professionals with backgrounds inclusive of medical law, medical ethics, psychology and medical education, all of whom helped in sewing together realistic and challenging scenarios with valuable learning points. The questions in this book were piloted amongst junior doctors to further help validate the consistency of the responses. The explanations provided in this book are supported by numerous references to the GMC guidelines, in order to maximise their reliability, and provide a clear rationale for the correct answers. A number of the doctors who participated in the design of this book had firsthand experience of the National SJT Pilot Exam, and thus provided a unique insight into question format, style and design. This book not only offers valuable exam practice, but also equips the reader with the skills, aptitude and knowledge base to effectively cope with complex scenarios as they move on to their working life.
