Wesley Hill's personal experiences and biblical reflections offer insight into how a nonpracticing gay Christian can "prove, live out, and celebrate" the grace of Christ and the power of the Holy Spirit. For many who are on this path, it's a lonely one. The reality of loneliness and isolation of the celibate homosexual Christian is something that Hill lives and takes seriously in his pursuit of the gospel-centered life. To those on a similar journey, it's often a life of uncertainties and questions. In *Washed and Waiting*, Hill

explores the three main struggles that have been part of his daily effort to live faithfully: What exactly does the gospel demand of gay and lesbian Christians, and how can it enable them to fulfill its commands? How do Christians who experience homoerotic desires live with the loneliness such desires entail? Is there any relief for it? What comfort does the gospel offer? Can those of us who struggle with homosexuality please God and truly experience his pleasure in the midst of sexual brokenness? Interspersed throughout these main sections are character sketches and stories of people who have experienced this journey's trials and triumphs. Hill offers wise counsel that is biblically faithful, theologically serious, and oriented to the life and practice of the church. As a celibate gay Christian, he gives us a glimpse of what it looks like to wrestle firsthand with God's "No" to same-sex sexual intimacy and contemplate serious and difficult questions.

Washed in the Blood Biblical Tools and Studies

Local value-addition in developing countries is often aimed at the upgrading of agricultural value chains, since it is assumed that doing so will make farmers better off. However, transmission of the added value through the value chain and constraints to adoption of value-adding activities by farmers are not well understood. We look at this issue in the case of coffee in Ethiopia – the country's most important export product – and value-addition in the coffee value-chain through 'washing' coffee, which is done in wet mills. Washed coffee is sold internationally with a significant premium compared to 'natural' coffee, and we find that this premium is largely transmitted to producers. However, while wet mills have become more widespread, the share of washed coffee in Ethiopia's coffee exports is not increasing over time and, even if coffee farmers have access to a wet mill, they often do not sell all their coffee cherries to them. Relying on a unique

primary large-scale dataset and a combination of qualitative and quantitative methods, we examine the reasons for this puzzle. The reasons seemingly are twofold. First, labor productivity in producing red cherries, which wet mills require, is lower than for natural coffee, reducing incentives for adoption, especially for those farmers with higher opportunity costs of labor. Second, only impatient, often smaller, farmers sell red cherries, as more patient farmers use the storable dried coffee cherries as a rewarding savings instrument, given the negative real deposit rates in formal savings institutions.

*Russia Washed in Blood*, first published in full in 1932, is the longest and best-known work by Nikolai Kochkurov (1899–1938),

who wrote under the pen-name Artyom Vesyoly. The novel, more a series of extended episodes than a connected narrative with a plot and a hero, is a vivid fictionalised account of the events from the viewpoint of the ordinary soldier. The title of the novel came to symbolise the tragic history of Russia in the 20th century. Born in Samara, on the banks of the Volga, the son of a waterside worker, Artyom Vesyoly was the first member of his family to learn to read and write. He took part in the Civil War of 1918–1921 on the Red side, and at its conclusion began a prolific literary career. Vesyoly took as his main theme the horrific events he had witnessed and participated in during the fierce fighting in Southern Russia between the contending forces – Red, White, Cossack, anarchist and others – and the effects of these on the participants and unfortunate civilians caught between them.

An Out-of-Control Rock Star. An Inescapable Addiction to Drugs. A Miraculous Redemption through Jesus Christ. You think you've heard this story before but you haven't. Washed by Blood is a look at the dramatic saving power of Jesus Christ unlike any other—one that shows how God looks out for all of us, even those who seem farthest away from his grace. Brian "Head" Welch was a rock star who thought he had it all. He was the lead guitarist in Korn, one of the biggest

and most controversial rock bands on the planet. He lived in a mansion, had millions of dollars in the bank, and legions of fans all over the globe. He was living the good life, and it should have been perfect. But it was all a lie. What no one knew was that backstage and away from the crowds, Head was fighting a debilitating addiction to methamphetamines, and that nothing—not even the birth of his daughter—could make him quit for good. He had given up. He was empty inside. He spent his days contemplating suicide convinced that each high would be his last. And that was when he found God. Washed by Blood tells the remarkable story of how God's unconditional love freed Head from his addictions and saved him from death. Here Head describes the joys and struggles of his journey to faith, detailing how Jesus has helped him cope with his pain and find the path that's right for both him and his daughter. An account of triumphs, hardships, and the healing power of Jesus, Washed by Blood is an inspirational demonstration that God is always there to save even the most troubled souls.

Washing away sin, though a common religious practice today, is a novel concept in the Hebrew Bible. This study utilizes the Conceptual Metaphor Theory of G. Lakoff and M. Johnson to analyze the striking and unusual metaphorical concept of washing away sin in the Hebrew Bible (Isaiah 1: 4; Jeremiah 2: 4; and Psalm 51). In these passages sin is conceptualized as a kind of stain (a bloodstain in Isa 1:15; 4:4; filth in Jer 4:14) or a kind of impurity (Psalm 51) and solving sin is conceptualized through the metaphor of washing. The correlation between the problem and its solution is logical: if sin is understood as a stain then washing is the remedy. The metaphor of washing away sin demonstrates some diversity within the Hebrew Bible and this work traces the various stages of the metaphor's development. Though it occurs as a metaphor, nowhere within the Hebrew Bible is washing, although attested as a purification ritual, applied as an actual practice for responding to the problem of sin. Several centuries later, however, washing away sin is attested as an actual practice by the Qumran sectarians and the New Testament authors. Thus, this study goes beyond an

analysis of the biblical metaphor to evaluate how it may have influenced the religious practices of select early Jewish and Christian communities. How did this radical shift from the absence of washing as a viable solution to sin in the Hebrew Bible to its importance in the sectarian community of Qumran and the New Testament communities come about? Here CMT is useful: what is attested as a metaphor in the Hebrew Bible, for example God washes away sin (Isa 4:4) and people wash with soap to remove the 'stain' of sin (Jer 2:22), influenced how communities reading these sacred texts conceptualized sin. When sin is understood as a stain, a concrete entity that can be visualized and acted upon, communities understand washing to be a viable, symbolic practice in response to sin. Thus, washing, a metaphor within the Hebrew Bible, came to be applied as a practical ritual solution to sin within these communities so inspired and influenced by their sacred texts.

**Good Housekeeping ...** Canongate U.S. This unique three-part novel assumes that, regardless of what Americans learn in school, the Southeast was not a barren

wilderness when the English arrived at Jamestown. It was full of Native Americans and of other Europeans who were there for various reasons. Based on extensive research into the racial mixing that occurred in the early years of southeastern settlement, this provocative multi-generation story shows that people did not simply vanish, but that many were absorbed into the new communities that gradually formed throughout the southeast, becoming 'white' whenever their complexions allowed. The inability to accept their true heritages illustrates the high price many of these people paid for their way of life. Diego Martin arrives in 1567 in the American Southeast; the region the Spaniards call La Florida; as a hog drover with a Spanish exploring party. The leader of the expedition turns against him and abandons him to the wilderness, where friendly natives rescue him. Daniel Hunter, a Quaker from Philadelphia, sets up a school among these 'disadvantaged' mountain people and falls in love with a Martin daughter. Later, Daniel's descendants are living in the same town, though with little awareness of their ancestral past. The Martin family has split

in two, the merchants in town denying any relationship to their racially mixed cousins on Mulatto Bald. A young woman from town, Galicia, falls in love with a young man from the bald, Will, not realizing that he is her cousin. They marry, have a

daughter, and move to a new industrial center, becoming prominent citizens. When Will's son from a teenage liaison appears at his door, he invites him in, unwittingly setting the stage for a forbidden love between his

unacknowledged son and his cherished daughter, neither of whom realizes that they are half-siblings. This is a novel you will not be able to put down without thinking and wondering ¿where will it take me next.¿
